Ireland's New Worlds Malcolm Campbell, 2008-01-15 In the century between the Napoleonic Wars and the Irish Civil War more than seven million Irish men and women left their homeland to begin new lives abroad While the majority settled in the United States Irish emigrants dispersed across the globe many of them finding their way to another New World Australia *Ireland's New Worlds* is the first book to compare Irish immigrants in the United States and Australia In a profound challenge to the national histories that frame most accounts of the Irish diaspora Malcolm Campbell highlights the ways that economic social and cultural conditions shaped distinct experiences for Irish immigrants in each country and sometimes in different parts of the same country From differences in the level of hostility that Irish immigrants faced to the contrasting economies of the United States and Australia Campbell finds that there was much more to the experiences of Irish immigrants than their essential Irishness America's Irish for example were primarily drawn into the population of unskilled laborers congregating in cities while Australia's Irish like their fellow colonialists were more likely to engage in farming Campbell shows how local conditions intersected with immigrants Irish backgrounds and traditions to create surprisingly varied experiences in Ireland's new worlds Outstanding Book selected by the American Association of School Librarians and Best Books for Special Interests selected by the Public Library Association Well conceived and thoroughly researched This clearly written thought provoking work fulfills the considerable ambitions of comparative migration studies Choice

Douglas, M. Finnane, 2012-08-21 In a break from the contemporary focus on the law's response to inter racial crime the authors examine the law's approach to the victimization of one Indigenous person by another Drawing on a wealth of archival material relating to homicides in Australia they conclude that settlers and Indigenous peoples still live in the shadow of empire **Public City** Beau B Beza, Brendan Gleeson, 2014-11-25 Paul Mees' urban ideal counted on watchful confident and well informed citizenry to work collectively in a quest for fair and just cities As such *The Public City* is largely a critique of neo liberalism and its arguably negative influence on urban prospects As Mees explained it neo liberal urbanism was much more than a political aberration it was a threat that imposed many costly failures in an age overshadowed by grave ecological challenges Fifteen of Australia and New Zealand's leading urban scholars including Professor Emeritus Jean Hillier and Professor Brendan Gleeson have contributed to this collection *The Public City* includes a foreword by the late Professor Sir Peter Hall a world leader in urban planning from Britain Kenneth Davidson one of Australia's top economic columnists has also contributed a chapter The collective works in this book extend beyond an analysis of urban patterns to provide a blueprint for the improvement of civic and institutional purpose in the creation of the public city *Architecture on Campus* George Tibbits, Philip Goad, 2013-05-09

Architecture on Campus offers a unique insight into the rich array of buildings public artworks and landscapes of the University of Melbourne When the university was established in 1853 its founders secured a large and expansive site It was a shrewd move The first building the Quadrangle was Tudor Gothic and handsome in aspect It sat like a gentleman's villa in a vast park Now 150 years later the campus is like a city home to more than 35 000 students and spreading beyond its original boundaries It is an urban precinct with its own special identity and its buildings offer an unparalleled chronicle of educational architecture in Australia Architecture on Campus features over one hundred buildings complemented by Patrick Bingham Hall's stunning photographs It is a celebration of the backdrop to the intellectual social and sporting life of a venerable and distinguished university This clear and thoughtful guidebook is an invitation to exploration and the perfect companion for walks

The Cambridge History of the Book in Britain: Volume 6, 1830-1914 David McKitterick, 2009-03-05 The years 1830-1914 witnessed a revolution in the manufacture and use of books as great as that in the fifteenth century Using new technology in printing paper making and binding publishers worked with authors and illustrators to meet ever growing and more varied demands from a population seeking books at all price levels The essays by leading book historians in this volume show how books became cheap how publishers used the magazine and newspaper markets to extend their influence and how book ownership became universal for the first time The fullest account ever published of the nineteenth century revolution in printing publishing and bookselling this volume brings The Cambridge History of the Book in Britain up to a point when the world of books took on a recognisably modern form
