Referendum Device

**Xenophon Contiades, Alkmene
Fotiadou**

Referendum Device:

Referendum Democracy M. Mendelsohn, A. Parkin, 2001-09-25 As the referendum becomes a more regular component of decision making it leaves few if any institutions processes and values of democracy untouched Political actors of all kinds including political parties and interest groups seek to use the referendum device to further their own objectives The end result is a different kind of democracy than existed before This book lays out the comparative research agenda on the impact of referendums on the practice of liberal democracy [The Strategic Use of Referendums](#) M. Walker, 2003-08-02 The strategic use of referendums by leaders often confers legitimacy but it may also reflect the power struggle between leaders groups and institutions and in doing so not provide a democratic result for the citizenry of a country **Referendums Around the World** David Butler, Austin Ranney, 1994 Updated edition of Referendums c1978 *The Referendum in Britain* Lucy Atkinson, Andrew Blick, Matt Qvortrup, 2020-11-29 The European Union referendum of 23 June 2016 proved to be the trigger for the most prolonged period of political turbulence in the peacetime history of the UK leading to major policy changes and realignments in the party political system This book considers from an historical perspective the democratic device that provided the focus for this upheaval Beginning in the late nineteenth century it discusses how the idea of using referendums to resolve major political disputes first came onto the agenda and why It considers who advocated it and in what circumstances The book describes how referendums eventually came into use from the 1970s onwards and the different patterns in their deployment in the decades that have followed Major political figures from Herbert Henry Asquith and Winston Churchill to Clement Attlee Harold Wilson and Margaret Thatcher to Tony Blair David Cameron and Boris Johnson form part of the story Governments have come to power and fallen in the context of demands for referendums or the results they produced The authors provide detailed accounts of each of the 13 major referendums that have taken place Referendums took place at UK and sub UK level They were held on the position of Northern Ireland 1973 and Scotland 2014 within the UK on devolution to Wales 1979 1997 2011 and Scotland 1979 1979 on the Belfast Good Friday Agreement 1998 on devolution to London 1998 and North East England 2004 on the parliamentary voting system 2011 and on UK participation in European integration 1975 1975 The book provides a constitutional and international perspective and ask how far the original ideas lying behind the referendum were fulfilled in practice **The Palgrave Handbook of European Referendums** Julie Smith, 2021-03-02 This handbook provides an empirically rich analysis of referendums in Europe from the end of the Second World War to the present It addresses a range of perennial theoretical and legal questions that face policy makers when they offer citizens the chance to take or influence decisions by referendum not least whether to accept the will of the people Taking a multi disciplinary approach drawing on historical philosophical and political science perspectives the book includes a contextual section on the history of referendums the theoretical questions underpinning their use and on constitutional and legal questions about the use of referendums The empirical sections are divided into

those referendums that focus on domestic issues such as constitutional matters or questions of social policy and those related to the European Union including membership referendums and treaty ratification Referendums and the European Union Fernando Mendez,Mario Mendez (College teacher),Vasiliki Triga,2014-06-12 A comprehensive and comparative treatment of the EU referendum experience based on an interdisciplinary approach that combines law and politics The Routledge Handbook to Referendums and Direct Democracy Laurence Morel,Matt Qvortrup,2017-12-12 Over the last 30 years referendums have played an increasingly important role in determining government policy Recent high profile referendums in Scotland Catalonia and Ukraine have continued the movement towards independence referendums following decolonization and the end of the Cold War The Greek bailout referendum and Britain s vote on membership of the EU reflect a tradition of European states giving their people a direct say in the transfer of sovereign powers to the European Union seen through the ratification of key treaties such as Maastricht Amsterdam Nice and Lisbon This Routledge Handbook covers key aspects and issues of direct democracy and referendums throughout the world including their history when why where how and on which issues referendums are held why some referendums are more democratic than others how referendums are won whether they produce good policies if referendums increase participation and improve the quality of representative democracies do referendums increase trust in democracy and the political actors the impact of new technology on the possibilities methods and frequency of direct public political participation how they should be regulated Covering other related areas such as recall citizen juries and random selection this compendium is an indispensable guide to referendums and the workings of modern democracy **The 1975 Referendum on Europe - Volume 2** Mark Baimbridge,Philip Whyman,Andrew Mullen,2016-10-31 Provides an analysis of the relationship between the UK and the EU treating the key overarching issues in the 1975 referendum and looking ahead to the prospect eventually of further referendums on the subjects of EMU and a European constitution **The Politics of Regime Structure Reform in Democracies** Gideon Rahat,2009-01-01 This book examines the success or failure of initiatives aimed at reforming regime structures in democracies particularly their electoral and government systems Through a comparative analysis of the several attempts at this type of reform in Israel over more than four decades Gideon Rahat begins with the failed attempts at electoral reform in the 1970s and 1980s He then analyzes Israel s successful attempt at promoting government system reform from 1988 to 1992 Finally he compares the Israeli cases to cases of electoral reform in New Zealand Japan and Italy in the 1990s While the book focuses on the Israeli cases it places Israel within a comparative framework and makes an important contribution to the debate concerning the politics behind regime structure reform **Nationalism, Referendums and Democracy** Matt Qvortrup,2020-03-16 This revised and expanded edition analyses the factors conducive to holding independence and secession referendums to winning these votes and to their status in domestic and international law Taking into account the votes in Catalonia and Scotland the book shows that votes on secession and independence are not a passing phenomenon but

an important part of international politics The book includes an overview of the history of referendums on independence and a summary of the legal issues involved in doing so as well as a chapter on referendums in unrecognised states and case study chapters exploring referendums in Kosovo Cyprus Kurdistan and Somaliland amongst others By considering the ethical arguments for secession and recognition the legal norms governing the process and the positive and political science theory of when would be states succeed in becoming recognized by the international community it shows the role of referendums in the process of establishing new states and as a corollary their role if any winning international recognition for these states This book will be of interest to all scholars and students of political science law and even philosophy **Sovereignty**

Referendums in International and Constitutional Law İlker Gökhan Şen, 2015-01-28 This book focuses on sovereignty referendums which have been used throughout different historical periods of democratization decolonization devolution secession and state creation Referendums on questions of sovereignty and self determination have been a significant element of the international political and legal landscape since the French Revolution and have been a central element in the resolution of territorial issues from the referendum in Avignon in 1791 until today More recent examples include Quebec East Timor New Caledonia Puerto Rico and South Sudan The global aim of this book is to achieve a better empirical and legal understanding of sovereignty referendums and related problems in international and national law and politics Accordingly it presents readers a comprehensive study of sovereignty referendums from the perspectives of both international and constitutional law **Elections Today**, 1996-01 News from the world of elections **Participatory Constitutional**

Change Xenophon Contiades, Alkmene Fotiadou, 2016-10-04 This book explores the recent trend of enhancing the role of the people in constitutional change It traces the reasons underlying this tendency the new ways in which it takes form the possibilities of success and failure of such ventures as well as the risks and benefits it carries To do so it examines the theoretical aspects of public participation in constitutional decision making offers an analysis of the benefits gained and the problems encountered in countries with long standing experience in the practice of constitutional referendums discusses the recent innovative constitution making processes employed in Iceland and Ireland in the post financial crisis context and probes the use of public participation in the EU context New modes of deliberation are juxtaposed to traditional direct democratic processes while the reasons behind this re emergence of public involvement narratives are discussed from the aspect of comparative constitutional design The synthetic chapter offers an overview of the emerging normative and comparative issues and provides a holistic approach of the role of the people in constitutional change in an attempt to answer when where and how this role may be successfully enhanced The work consists of material specifically written for this volume and authored by prominent constitutional scholars and experts in public participation and deliberative processes

Official Proceedings of the Democratic National Convention, 1924 **PROBLEMS IN AMERICAN DEMOCRACY**
THAMES ROSS WILLIAMSON, 1922 **The Oxford Handbook of Comparative Constitutional Law** Michel

Rosenfeld, András Sajó, 2012-05-17 The field of comparative constitutional law has grown immensely over the past couple of decades. Once a minor and obscure adjunct to the field of domestic constitutional law, comparative constitutional law has now moved front and centre. Driven by the global spread of democratic government and the expansion of international human rights law, the prominence and visibility of the field among judges, politicians and scholars has grown exponentially. Even in the United States, where domestic constitutional exclusivism has traditionally held a firm grip, use of comparative constitutional materials has become the subject of a lively and much publicized controversy among various justices of the U.S. Supreme Court. The trend towards harmonization and international borrowing has been controversial. Whereas it seems fair to assume that there ought to be great convergence among industrialized democracies over the uses and functions of commercial contracts, that seems far from the case in constitutional law. Can a parliamentary democracy be compared to a presidential one? A federal republic to a unitary one? Moreover, what about differences in ideology or national identity? Can constitutional rights deployed in a libertarian context be profitably compared to those at work in a social welfare context? Is it perilous to compare minority rights in a multi-ethnic state to those in its ethnically homogeneous counterparts? These controversies form the background to the field of comparative constitutional law, challenging not only legal scholars but also those in other fields such as philosophy and political theory. Providing the first single volume comprehensive reference resource, the Oxford Handbook of Comparative Constitutional Law will be an essential road map to the field for all those working within it or encountering it for the first time. Leading experts in the field examine the history and methodology of the discipline, the central concepts of constitutional law, constitutional processes and institutions, from legislative reform to judicial interpretation, rights and emerging trends. *Referendums as Representative Democracy* Leah

Trueblood, 2024-04-18 In referendums on fundamental constitutional issues, do the people come together to make decisions instead of representatives? This book argues no. It offers an alternative theory of referendums whereby they are one of many ordinary ways that voters give direction to their representatives. In this way, the book argues that referendums are better understood as exercises in representative democracy. The book challenges the current treatment of referendums in processes of constitutional change, both in the UK and around the world. It argues that referendums have been used under the banner of popular sovereignty in a way that undermines representative institutions. This book makes the case for the use of referendums stronger by showing how they can support rather than undermine institutions of representative democracy. Understanding referendums as exercises in representative democracy has broader implications for constitutional democracy as well. Rather than see the power to constitute constitutions as something that happens occasionally in exceptional moments through referendums, this book argues instead that voters constantly have the power to constitute and reconstitute their constitutions. *Referendums and Ethnic Conflict* Matt Qvortrup, 2014-01-30 Although referendums have been used for

centuries to settle ethnonational conflicts, there has yet been no systematic study or generalized theory concerning their

effectiveness Referendums and Ethnic Conflict fills the gap with a comparative and empirical analysis of all the referendums held on ethnic and national issues from the French Revolution to the 2012 referendum on statehood for Puerto Rico Drawing on political theory and descriptive case studies Matt Qvortrup creates typologies of referendums that are held to endorse secession redraw disputed borders legitimize a policy of homogenization or otherwise manage ethnic or national differences He considers the circumstances that compel politicians to resort to direct democracy such as regime change and the conditions that might exacerbate a violent response Qvortrup offers a clear eyed assessment of the problems raised when conflict resolution is sought through referendum as well as the conditions that are likely to lead to peaceful outcomes This original political framework will provide a vital resource in the ongoing investigation into how democracy and nationalism may be reconciled

Constitutional Reform and Effective Government James Sundquist, 2011-01-01 For years the public has become increasingly disillusioned and cynical about its governmental institutions In the face of alarming problems most notably the 400 billion budget deficit the government seems deadlocked reduced to partisan posturing and bickering with the president and Congress blaming each other for failure And neither party can be held accountable The public tendency is to blame individual leaders or politicians as a class but an insistent and growing number of experienced statesmen and political scientists believe that much of the difficulty can be traced to the governmental structure itself designed in the eighteenth century and essentially unchanged since then Is that inherited constitutional system adequate to meet the challenges of the twenty first century or has the time come for fundamental change Should we adopt an electoral system that encourages unified control of the presidency the Senate and the House Lengthen terms of office Limit congressional terms Abolish or modify the electoral college Introduce a mechanism for calling special elections Permit legislators to hold executive offices Redistribute the balance of powers within the governmental system In this revised edition of his highly acclaimed 1986 volume James Sundquist reviews the origins and rationale of the constitutional structure and the current debate about whether reform is needed then raises practical questions about what changes might work best if a consensus should emerge that the national government is too prone to stalemate to meet its responsibilities Analyzing the main proposals advanced to adapt the Constitution to current conditions he attempts to separate the workable ideas from the unworkable the effective from the ineffective the possibly feasible from the wholly infeasible and finally arrives at a set of recommendations of his own

Social Movements and Referendums from Below Donatella Della Porta, Francis O'Connor, Martin Portos, Anna Subirats Ribas, 2017-09-27 Over recent years social movements formed in response to European neoliberal austerity measures have played an increasingly important role in referendums This is the first book to bridge the gap between social movement studies and research on direct democracy It draws on social movement theory to understand the nature of popular mobilisation in referendums Co authored by one of the world's leading authorities on social movements the book uses unique case studies such as the referendum on independence in Scotland the consultations on

independence in Catalonia the Italian referendum on water the referendum on the Troika proposals in Greece and the referendum on the debt repayment in Iceland to illustrate the ways the social movements that formed as a consequence of the 2008 financial crash have affected the referendums dynamic and results It also addresses the way in which participation from below has had a transformative impact on the organisational strategies and framing practices used in the campaigns Looking at general issues of democracy as well as the political effects of neoliberalism this topical book is ideally suited to understand the reasons for the Brexit result and will be read by a wide audience interested in social movements referendums and democratic innovation

Ignite the flame of optimism with Get Inspired by is motivational masterpiece, **Referendum Device** . In a downloadable PDF format (Download in PDF: *), this ebook is a beacon of encouragement. Download now and let the words propel you towards a brighter, more motivated tomorrow.

Referendum Device Introduction

Referendum Device Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Referendum Device Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. Referendum Device : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for Referendum Device : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Referendum Device Offers a diverse range of free eBooks across various genres. Referendum Device Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. Referendum Device Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Referendum Device, especially related to Referendum Device, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Referendum Device, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some Referendum Device books or magazines might include. Look for these in online stores or libraries. Remember that while Referendum Device, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow Referendum Device eBooks for free, including popular titles. Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books. Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Referendum Device full book , it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Referendum Device eBooks, including some popular titles.

FAQs About Referendum Device Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before

making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Referendum Device is one of the best book in our library for free trial. We provide copy of Referendum Device in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Referendum Device. Where to download Referendum Device online for free? Are you looking for Referendum Device PDF? This is definitely going to save you time and cash in something you should think about.
