

## Praise for *Scattered Pictures*

"Imam Zaid Shakir has compiled in this volume a number of his articles which address some of the burning issues that challenge all religious men and women in the United States of America and beyond. What is remarkable about this text is its message of hope. Deeply rooted in the Western and Islamic traditions, and bent on reconciling and profiting from both of them, Imam Shakir has written a text that could serve as a useful model for younger Muslims coming from a similar background. His reflections in this text have made it clear to me that the person who wrote this book is a man whose mental furniture has been properly re-arranged by his encounter with the Qur'an and the legacy of Prophet Muhammad. Muslims and non-Muslims will find much inspiration from the messages that are beautifully packaged for those who think seriously and critically."

- Sulayman S. Nyang, Ph.D., Howard University

"This collection of Zaid Shakir's essays is long overdue. For some years now he has brought a clarity of mind and feeling to substantive issues challenging Muslims today. It is good to see some of his fire-fly, lightning-bolt thinking captured in words and put between covers."

- Michael Wolfe, author of *The Hadj: An American's Pilgrimage to Mecca*

"The clarity with which Imam Shakir delves into issues such as the true nature of jihad and the relationship between Islam and the African American struggle leaves the reader with new insights and imparts him or her a satisfying resolution to many unspoken issues and hardened realizations common to many Muslims today."

- Yahya Emerick, author of *Muhammad (Critical Lives Series)*

IMAM ZAID SHAKIR was born in Berkeley, California in 1956. He accepted Islam in 1977. Trained in both the Western and Islamic intellectual traditions, he is uniquely qualified as a commentator on current affairs.

*Muslims on the Americanization Path?* Yvonne Yazbeck Haddad,John L. Esposito,2000-05-11 Islam is the fastest growing religion in the United States There are more Muslims in America than in Kuwait Qatar and Libya together Leaving aside immigration and conversion birthrate alone ensures that in the first part of the twenty first century Islam will replace Judaism as the nation s second largest religion Like all religious minorities in America Muslims must confront a host of difficult questions concerning faith and national identity Can they become part of a pluralistic American society without sacrificing their identity Can Muslims be Muslims in a state that is not governed by Islamic law Will the American legal system protect Muslim religious and cultural differences Is there a contradiction between demanding equal rights and insisting on maintaining a distinctively separate identity Will the secular and or Judeo Christian values of American society inhibit the Muslim practice of religious faith While the Muslims of America are indeed on the path to Americanization what that means and what that will yield remains uncertain In this thoughtful and wide ranging volume fourteen distinguished scholars take an in depth look at these issues and examine the varied responses and opinions of the Muslim community

*Reflections in a Bloodshot Lens* Larry Pintak,2006 There exists today a tragic rift between Americans and the world s Muslims Each views the other with suspicion and anger Yet in the immediate aftermath of 9 11 there was

widespread sympathy for the U S in the great arc of Muslim nations from West Africa to Southeast Asia This book explores what happened It examines the disconnect that leads Americans and Muslims around the world to view the same words and images in fundamentally different ways Partly a result of a centuries old us against them dichotomy and an essential difference in worldview the problem is exacerbated by an increasingly polarised media and by leaders on both sides who either don t understand or don t care what impact their words and policies have in the world at large Journalist scholar Lawrence Pintak a former CBS News Middle East correspondent argues that the Arab media revolution and the rise of patriot journalists in the US marginalized voices of moderation distorting perceptions on both sides of the divide with potentially disastrous results Built on the author s extensive journalistic experience the book is carefully grounded in contemporary academic scholarship including Orientalism othering worldview media effects theory and framing theory amongst others giving it broad appeal to policymakers students of such fields as media studies Middle East studies and Islamic studies and general current affairs readers

**Citizenship, Security And Democracy Muslim Engagement With The West** Wanda Krause,2009-01-01 Citizenship Security and Democracy provides greater analysis of and seeks solutions to the challenges of citizenship security and democracy through fresh and more varied perspectives as is related to Islamic discourse and Muslim communities and their activism in the West These concerns have never been more pressing than today Democracy has been a global endeavour and concern as in its ideal form it gives promise to liberty freedoms and rights However after especially 9 11 and 7 7 securitization has become a more immediate goal making security the driving discourse today But both security and democracy are becoming ever less attainable in today s climate of increased division and cleavages along ideological lines and Islamophobia an acute problem for citizenship in humanity On September 1 3 2006 the Association of Muslim Social Scientists AMSS UK and the Foundation for Political Economic and Social Research SETA held a three day conference to explore the challenges of democracy and security and importantly explore issues around citizenship and identity of Muslim diaspora Given the backdrop to a growing political discourse on the Muslim Other framed through the events of 9 11 and 7 7 and increased tension as a result of this discourse framing the aim was to help discern causes to the major challenges facing governments and the safety freedoms and dignity of individuals globally This was attempted through the study of Islamic thought and on the ground case study research of Muslim societies and communities This conference marks one of the major events to have been organised where such a large number of scholars experts and activists from a wide range of ideological positions and professional backgrounds come together in an ambitious attempt to resolve the most pressing issues at the turn of the 21st century Editor These papers have been published to widen discourse stimulate debate and hopefully pave the way for further research Doubtless readers may agree with some of the issues raised and disagree with others but it is hoped that overall both general and specialised readers will benefit from the perspectives offered and some of the more focused issues examined in the book

**Disabilities** Martha E. Banks Ph.D.,Mariah S.

Gover,Elizabeth Kendall,Catherine A. Marshall,2009-04-30 In this three volume set experts from around the world spotlight the latest research on physical and psychological disabilities as well as the social legal and political issues that come to bear on those people affected These authors teach us what the disabilities are how common they have become what challenges people with disabilities face what treatments are available and whether new promising efforts for rehabilitation are on the horizon We also learn in these volumes about social actions that have advanced human rights for people with disabilities in countries around the world Yet we learn that in these same countries discriminatory actions against people with disabilities continue to occur The impact of different cultural beliefs about disability are explored and these beliefs are juxtaposed against legislative responses In all three volumes people with disabilities share their personal narratives about events they have faced in society They provide rich examples of how culture social interactions and legislation can impact on people

*Reflections on God and His Creatures* Dr. David Rabeeya,2008-02-07 The concept of God has always held conflicting messages The purpose of this book is to unravel the misconceptions and mixed messages about God in monotheistic religions throughout history More people have been

killed in the name of God than for any other reason Reflection upon man s manipulation of the concept of God under the guise of religion may serve the reader in his human journey God is always silent People are always talkative God has so many religions People are convinced that their religion is the right one in our spacious universe God is a commodity in the markets of humanity while he she keeps his her distance God is being manipulated by many and the eternal silence of the divine abuse continues forever The monotheists often forget that they are in the demographic minorities of the planet Most people in this world do not accept the idea of one god therefore new reflections of the monotheists concerning their negative utilization of the right God in their unique perspectives are due to be revealed to those who care about the divine defensive mode

**The Minaret** ,2004      **Neighbors** Deanna Ferree Womack,2020-03-17 Named one of the Top 10 Books of the Year in 2020 by the Academy of Parish Clergy For a long time American Christians have been hearing a story about Islam It s a story about conflict and hostility about foreigners and strangers At the heart of this story is a fundamental incompatibility between the two religions going all the way back to their original encounters According to that story the only valid Christian response to Islam is resistance But it s time to tell a different and truer story Christians and Muslims have not always fought or lived in fear of each other Christian communities in majority Muslim countries have coexisted with their Muslim neighbors for centuries More importantly Muslims have been part of the American story from its beginning And like their Christian neighbors Muslims want to make the community in which they live a better place for all citizens In *Neighbors* Deanna Ferree Womack lays the groundwork for members of the two religions to understand converse and cooperate with each another With models for cultivating empathy and interfaith awareness Christians can move from neighborly intention to real dialogue and common action with Muslims in the United States Ideal for individual or group study the book includes discussion guide for group study with links to video clips a timeline of the first Muslim communities and a glossary of Arabic terms related to Islam
