## **Reflections At Fifty And Other Essays:**

*Reflections at fifty, and other essays* James T. (James Thomas) Farrell, The Genesis of the Chicago Renaissance Mary Hricko, 2013-09-05 This study examines the genesis of Chicago's two identified literary renaissance periods 1890-1920 and 1930-1950 through the writings of Dreiser, Hughes, Wright, and Farrell. The relationship of these four writers demonstrates a continuity of thought between the two renaissance periods. By noting the affinities of these writers' patterns such as the rise of the city novel, the development of urban realism, and the shift to modernism, are identified as significant connections between the two periods. Although Dreiser, Wright, and Farrell are more commonly thought of as Chicago writers, this study argues that Langston Hughes is a transitional pivotal figure between the two periods. Through close readings and contextualization, the influence of Chicago writing on American literature in such areas as realism and naturalism, as well as proletarian and ethnic fiction, becomes apparent.

**A Question of Quality** Louis Filler, 1976 The subjects treated in this symposium have one major characteristic in common: that they have recently or relatively recently enjoyed high popularity among readers. Also, they have received from substantial to torrents of comment.

**Backgazing: Reverse Time in Modernist Culture** Paul Giles, 2019-02-14 This volume traces ways in which time is represented in reverse forms throughout modernist culture from the beginning of the twentieth century until the decade after World War II. Though modernism is often associated with revolutionary or futurist directions, this book argues instead that a retrograde dimension is embedded within it. By juxtaposing the literature of Europe and North America with that of Australia and New Zealand, it suggests how this antipodean context serves to defamiliarize and reconceptualize normative modernist understandings of temporal progression. Backgazing thus moves beyond the treatment of a specific geographical periphery as another margin on the expanding field of New Modernist Studies. Instead, it offers a systematic investigation of the transformative effect of retrograde dimensions on our understanding of canonical modernist texts. The title backgazing is taken from Australian poet Robert G. Fitzgerald's 1938 poem "Essay on Memory," and it epitomizes how the cultural history of modernism can be restructured according to a radically different discursive map. Backgazing intellectually reconfigures US and European modernism within a planetary orbit in which the literature of Australia and the Southern Hemisphere, far from being merely an annexed margin, can be seen substantively to change the directional compass of modernism more generally. By reading canonical modernists such as James Joyce and T. S. Eliot alongside marginalized writers such as Nancy Cunard and others and relatively neglected authors from Australia and New Zealand, this book offers a revisionist cultural history of modernist time, one framed by a recognition of how its measurement is modulated across geographical space.

A Bibliography of James T. Farrell's Writings, 1921-1957 Edgar M. Branch, 2015-09-30 I need an audience, so watch out! With these, James T. Farrell announced his intention of becoming a writer. He was to realize this ambition in manifold ways through his prolificacy, versatility, and his achieved recognition as a formidable figure in American

literature The material contained in this book grew out of initial research for a critical study which disclosed the chaotic state of Farrell's literary affairs and the urgent need for a bibliography The task was not to be an easy one for many of Farrell's writings were printed in obscure publications both in the United States and abroad Edgar M Branch has ferreted out producing his compilation with enthusiasm and accuracy This book is a definitive guide to Farrell's writings published in newspapers magazines pamphlets and books from the time of his high school days through 1957 It includes both the fiction novels short stories one poem and one play and the nonfiction essays articles statements manifestoes newspaper columns etc and in many cases descriptions of these writing are appended when deemed necessary As a further aid to students and researchers Branch has listed many reprints and dates of writing for the individual short stories and has provided two appendices giving foreign editions of books and tape recordings of unpublished speeches This detailed bibliography the first on Farrell ever printed is supplemented by a preface by Farrell and a foreword by the author Edgar Branch has directed his attention to the more inaccessible of Farrell's writings and to the clarification of the voluminous abundance of written material that Farrell has produced Through this book it is possible to trace Farrell's fluctuating status as a writer his shifting position among editors critics and readers The data included other clues to the evolution and growth of his ideas and relationships with his contemporaries providing insight into his changing political affiliations and the motivation and development of his fiction A Bibliography of James T Farrell's Writings will be a valuable practical aid to scholars and students of literature and Americana for it makes available a scholarly compilation of the extensive list of writings by one of America's most distinguished and controversial contemporary writers
