Children's Fiction Catherine Elick, 2015-03-07 Talking animal tales have conveyed anticruelty messages since the 18th century beginnings of children's literature Yet only in the modern period have animal characters become true subjects rather than objects of human neglect or benevolence Modern fantasies reflect the shift from animal welfare to animal rights in 20th century public discourse This revolution in literary animal human relations began with Lewis Carroll's Alice's Adventures in Wonderland and continued with the work of Kenneth Grahame Hugh Lofting P L Travers and E B White Beginning with the

ideas of literary theorist Mikhail Mikhailovich Bakhtin this book examines ways in which animal characters gain an aura of authority through using language and then participate in reversals of power The author provides a close reading of 10 acclaimed British and American children's fantasies or series published before 1975 Authors whose work has received little scholarly attention are also covered including Robert Lawson George Selden and Robert C O'Brien **Magic, Literature and Climate Pedagogy in a Time of Ecological Crisis** Sofia Ahlberg, 2024-08-22 Channeling the creative potential of humanity to transition towards joyous and just futures in times of life threatening climate change this book uses metaphors of magic and shapeshifting to imagine liveable futures achievable through other than rational means Focusing on a wide range of 20th and 21st century novels from a diverse range of writers such as Madeline Miller Jeff VanderMeer Ursula LeGuin N K Jemisin Ambelin Kwaymullina and Leanne Betasamosake Simpson it suggests that readers take seriously the pedagogical potential of magic in literature for the classroom and beyond while providing them with contextualized collective methods of climate action On Reflection Ellen Rose, 2013 Ellen Rose seeks to initiate a much needed discussion about what reflection is and should be The word crops up repeatedly in the discourse of teaching and learning but its meaning is often vague True reflection deep sustained thought that takes place in conditions of solitude and silence has been undermined by new technologies that speed up the flow information and the pace of life as well as by contemporary schooling that unreflectively embraces technological and market imperatives in the name of outcomes efficiencies and the preparation of a global workforce Drawing on a wide range of thinkers past and present Rose outlines the important role reflective thought can play in the classroom and in the world at large and makes a powerful case for slowing down and returning to our thoughts
