*Reflections on Greece* Roy Moore,1971 *Reflections on the Greek Sovereign Debt Crisis* Aristidis Bitzenis,Vasileios A. Vlachos,Ioannis Papadopoulos,2014-09-26 The euro was generally considered a success in its first decade Nevertheless the unanticipated financial crisis in the summer of 2007 has developed gradually into the worst global economic crisis in post war economic history and a sovereign debt crisis calling into question the endurance of positive externalities under the current form of European economic integration The experience of double dip recessions in the core of the euro area and the occurrence of a deflationary spiral in its southern periphery brings into question the wisdom of fiscal consolidation via austerity in the adjustment programmes adopted to exit the crisis They also put into doubt the adequacy and efficiency of the European Economic and Monetary Union s core elements its political instruments and macroeconomic assumptions as can be seen in the role of the Stability and Growth Pact and the stance of the European Central Bank The title of this collective volume refers to the country where the European sovereign debt crisis began while its contents concentrate on the extent to which this crisis should be a national or a European concern Moreover the focus on Greece stimulates discussion about the neglected factor of the shadow economy and the potential to boost government revenue through its successful transfer to the formal economy The chapters address the inefficiencies of both euro area institutions and policies adopted to exit the current predicament Experts from several disciplines review the literature and critically evaluate the existence of issues such as contagion effects domino effects deflationary spirals institutional efficiency and the reality of the option to exit the euro area

**Philosophical Reflections on Antiquity** Paul Fairfield, 2020-09-02 Philosophical Reflections on Antiquity Historical Change addresses the question of whether there is a logic of historical change and whether the collapse of teleology should deter us from inquiring anew whether any recurring patterns and themes show themselves amid the complexity of historical life Paul Fairfield argues that if any conception of universal history remains possible it is one that rejects teleology and causal laws while identifying thematic tendencies that afford some semblance of unity including the enduring phenomena that are interlocution the struggle for predominance and the endless back and forth that play out between them This book examines the transitional periods of archaic Greece and late antiquity the ostensible birth and death of the ancient west Fairfield argues that an interpretation of the social political and intellectual history of these important turning points brings to light some philosophical understanding of the dynamics of change itself observing that the transition from archaic to classical Greece was no miracle while the end of the Roman era can no longer be conceived as a story of decline and fall Rather Fairfield posits these were not complete breaks but relative beginnings and endings in narratives that are ongoing Scholars of philosophy history and anthropology will find this book particularly useful

*Crisis in Ukraine. Perspectives, Reflections, International Reverberations* Karol Kujawa,Valeriy Morkva,Klaus Bachmann,Monika Byrska ,Filiz Çoban,Soner Karagül,Marta Králiková,Jan Muś,Sezai Ozcelik,Didem Saygin,Emanuele Scimia,Ercüment Tezcan,Mehlika Özlem Ultan,Andrei Vardomatski,2015-12-30 This book is a collective attempt to present a wide ranging picture of international attitudes towards the events currently ongoing in Ukraine As some experts have already tended to claim in 2014 this post Soviet state lying in the Eastern part of the European continent has become a scene of the most serious geopolitical standoff since the end of the Cold war It would be in place here to remind a well known clear cut

maxim formulated by Zbigniew Brzezinski in late 1990s and concerning Ukraine's key role in shaping the Russian imperial self identity Without Ukraine Russia ceases to be a Eurasian empire So what may readers expect to find in this book It has been divided into two parts reflecting the perspectives on Ukrainian crisis first the perspective of Ukraine's close neighbours from Central Eastern Europe and Turkey second the perspectives of the global players like the EU the US or China We hope that such a publication focused on the above mentioned problems and embedded in the actual reality will be useful both for professionals in the field of political science as well as for those who have an influence on the shape of the foreign policy

*Spartan Reflections* Paul Cartledge, 2003-07-17 This is a book that scholars will read with pleasure and a book from which advanced undergraduates and graduates will gain a sense of what Sparta was like as a culture and just as important the nature and state of play of contemporary Spartan studies And it will be accessible for the well informed lay reader as well Josiah Ober author of *Political Dissent in Democratic Athens* Paul Cartledge's aim in this powerful collection of essays is to shed light in dark places to demythicize Cartledge is shrewd realistic and far from starry eyed Over a quarter century's exhaustive research now updated has gone into these densely documented and tightly argued essays These Spartans in the last resort are exploitative slave drivers obsessed with keeping their serfs down by annually killing off any resisters among other things Modern idealizers of cold baths black broth mindless discipline and long route marches should read this book and hopefully have second thoughts Peter Green author of *Alexander to Actium* *The Muse of History* Oswyn Murray, 2024 Oswyn Murray charts the shifting uses of the ancient past showing how three centuries of scholars interpreted ancient Greece in the light of contemporary political interests Rich in stories and portraits of influential thinkers *The Muse of History* is a powerful reminder that the meaning of the past is always made in and for the present **Universal History** Lord Alexander Fraser Tytler Woodhouselee, 1838 **Critical Times, Critical Thoughts** Natasha Lemos, Eleni

Yannakakis, 2016-01-14 While no member of the public could have missed the Greek crisis it has been represented only by the refraction in journalism of the views of politicians economists and international bureaucrats The voice of artists the antennae of the race has been so far unheard In specially commissioned essays by major Greek writers and critics which appear for the first time in any language the reader of this book will find new insights into the crisis its causes and its wider ramifications It will interest not only students of Greece but anyone concerned with the highly topical and intertwined issues of nationalism historical memory otherness migration and xenophobia By being simultaneously a reflection on and a reflection of a society in deep crisis this book also offers a model for future studies **Open Dialogue Around the World - Implementation, Outcomes, Experiences, and Perspectives** David Mosse, Raffaella Pocobello, Rob Saunders, Jaakko Seikkula, Sebastian von Peter, 2025-07-30 Open Dialogue OD is a low hierarchical mental health service model that originated in Finland in the 1980s following a change on two different levels First a culture of dialogical communication between staff users and caregivers was established Secondly community based multi disciplinary teams were organized to offer primarily outpatient services

Immediate help in crisis continuity of support by the same team a low medication and primarily psychotherapeutically oriented approach are key principles of OD that have been further elaborated upon overtime during the past decades OD promotes mutual trust and open exchange between the involved stakeholders It is based on a mental health care epistemology that prioritizes human values everyday relationships and context bound understandings over symptoms and clinical diagnostics Transparency is of high value All information is shared and all voices are to be heard thereby recognizing diversity and reflecting power differentials during the whole process of support OD is now practiced in various regions around the globe i e in several countries in Europe as well as in Australia Japan Latin America and the USA Studies in Western Lappland demonstrated various outcomes such as reducing the prevalence and incidence of so called chronic mental illness need for disability benefits and intake of neuroleptic medication while increasing functional remission and taking up work on the first labour market However these outcomes primarily originate in studies that have investigated the OD in countries of its origin leading to the question of whether they are transferrable to other healthcare contexts This question is crucial since OD varies internationally in its adaption to local health care systems and contingencies instead of representing a clearly demarcated intervention This Research Topic is interested in gaining an international perspective on OD It will assemble papers and contributions that report and comment on local OD practices describe and analyze their outcomes and impact and inform future directions worldwide Manuscripts that are co authored by peers survivors and user researchers are especially welcomed All manuscripts will be peer reviewed We are interested in Qualitative quantitative and mixed method original research on OD reporting on empirical research such as the results of intervention studies clinical or pilot trials Systematic reviews or mini reviews that summarize the results of empirical studies on OD Case reports that highlight an unexpected situation or outcome of an OD course of support Policy and practice reviews on local regulations and guidelines that are relevant for OD Hypotheses papers that present novel arguments interpretations or theoretical models in relation to OD Perspective articles that present a viewpoint on a specific area of investigation in relation to OD Conceptual analysis articles that explore the concepts and issues behind OD Papers on training and instructions that describe innovative curricula courses and teaching formats concerning OD Data report presenting a description or a research dataset on OD Brief research report that presents original research and or preliminary findings on OD with fewer detail Commentary and opinion papers that provide critical comments or contribute viewpoints on recent research findings
