

Types of Reform: Reorganization vs. reform

- In political science and public administration, **reorganization** usually refers to government reorganization, but one can talk about legislative reorganization and judicial reorganization as well.
- Reorganization refers to the imposition of a new way of organizing, which often involves an extensive alteration of the structure of government.

was ranked first for the competence of its public officials from 1999 to 2002 by The Global Competitiveness Report This book intends to provide a detailed study of public administration Singapore style Reform As Reorganization Royce Hanson,1974 **The Air Force Law Review** , Public Administration in the Third World V. Subramaniam,1990-06-26 This multiauthor reference handbook gives a detailed objective picture of the evolution structure and processes of public administration in representative Third World countries Written by an international group of specialists with first hand knowledge of the subject it presents empirical studies of developing nations in Asia the Middle East North and Sub Saharan Africa the West Indies and Latin America The resulting data are shaped by the editor into a theoretical framework delineating the complex relationships of state bureaucracy and class in the Third World Subramaniam s introduction provides a critical overview of development literature in the field Each case study begins with an historical introduction and discusses the political executive and the administrative structures and processes Among the specific topics covered are public enterprises administrative departments personnel financial administration and regional and local administrative units The majority of the systems studied are affected by the unregulated power of public enterprises the persistence of colonial legacies and the elitism of the bureaucracy The concluding section relates these common elements to the sociohistorical characteristics of the middle class groups that dominate both politics and public administration Offering new research findings and a useful theoretical synthesis this study will promote a clearer understanding of the internal political processes of Third World nations and be of compelling interest to specialists and students concerned with Third World political economy comparative government and international political economy Do Reorganization Costs Matter for Efficiency? Xavier Gine,Inessa Love,2006 The authors study the effect of reorganization costs on the efficiency of bankruptcy laws They develop a simple model that predicts that in a regime with high costs the law fails to achieve the efficient outcome of liquidating unviable businesses and reorganizing viable ones The authors test the model using the Colombian bankruptcy reform of 1999 Using data from 1 924 firms filing for bankruptcy between 1996 and 2003 they find that the pre reform reorganization proceeding was so inefficient that it failed to separate economically viable firms from inefficient ones In contrast by substantially lowering reorganization costs the reform improved the selection of viable firms into reorganization In this sense the new law increased the efficiency of the bankruptcy system in Colombia World Bank web site *Leadership and Public Sector Reform in Asia* Evan Berman,Eko Prasajo,2018-04-06 Present day knowledge about public sector reforms in Asia is quite scattered and seldom focuses on the challenges of leadership This book seeks to address this issue by presenting country cases that reflect the great diversity of the region **Civil Service Reform and Reorganization** United States Accounting Office (GAO),2018-06-17 Civil Service Reform and Reorganization *Intergovernmental Perspective* ,1975 Each issue concentrates on a different topic **Public Administration in South Asia** Meghna Sabharwal,Evan M. Berman,2017-09-25 A state of the art one stop resource Public Administration in South Asia India Bangladesh and Pakistan

examines public administration issues and advances in the Indian subcontinent. The book fulfills a critical need. These nations have the largest public administration programs in South Asia yet existing knowledge on them is fragmented at best. Bringing together leading scholars from these countries, this book provides both an insider perspective and a scholarly look at the challenges and accomplishments in the region. Focusing on the machinery of government, the book explores questions such as: What is the history of public administration development? How are major decisions made in the agencies? Why are anti-corruption efforts so much a challenge? What is the significance of intergovernmental relations? What is the success of administrative reform? What are examples of successful social development programs? How successful is e-government and what are its challenges? Why is civil service reform difficult to achieve? How is freedom of information being used as a means to combat corruption and invoke grassroots activism? What can be learned from the successes and failures? While public administration practice and education have become considerably professionalized in the last decade, a sufficiently in-depth and well-rounded reference on public administration in these countries is sorely lacking. Most available books tackle only aspects of public administration such as administrative reforms, civil service, economic developments, or public policy and are country-specific. None provide the in-depth analysis of the sphere of public action in South Asia found in this book. It supplies an understanding of how public administration can be either the source of or solution to so many of the problems and achievements in the Indian subcontinent.
