Reformed Faith and Economics Robert L. Stivers, 1989 Churches in the Reformed tradition have historically sought to bring the gospel of Jesus Christ into dialogue with social institutions on ethical issues These papers on economic justice seek to bring this dialogue into the late 20th century by relating the Bible and Reformed theology to contemporary problems These thirteen essays share a distinctly Reformed Presbyterian perspective and stress the contributions of John Calvin and a long line of Reformed witnesses on contemporary issues Sections include Introduction Reformed Faith and Economic Justice Part I Biblical Perspectives Part II The Reformed Tradition on Economic Justice Part III Contemporary Policy Issues Part IV Church Responses Co published with the Presbyterian Church USA *Economic Shalom* John Bolt, 2013-11-01 This Reformed Christian primer on work and faith champions the glory of God in all of life's endeavors by tracing four key themes of economics in Christian confession and commitment and examining markers for human flourishing in the real world of economics commerce and markets With scholarly passion and pastoral wisdom tempered by the insight of economists John Bolt presents a winsome case for how God uses the market economy to meet human needs Written to raise questions and invite further discussion Bolt offers a robust Reformed perspective on stewardship property capital and morality From this he explores a variety of issues including the human need for liberty the challenge of consumerism concerns about fairness and justice and evangelicalism's mixed history in applying Christian compassion in politics and economics What stands in the way of the human quest for improvement How does the reality of sin affect the degree to which we can achieve economic shalom today And despite every good intention how do we avoid the horrific track record of failed utopias that have spilled oceans of blood and created mountains of misery Read learn and respond as Bolt leads a rousing Reformed discussion of faith work and economics *The Oxford Handbook of Christianity and Economics* Paul Oslington, 2014 The new interdisciplinary field of Christianity and economics deals with the important and difficult questions that cluster at the boundary of these disciplines drawing on contemporary theory and empirical findings in both fields with roots in older discourses This landmark volume surveys the field and advances the discussion It deploys historical economic and theological analysis to search for answers

Wilson, 1997-02-24 There is a revival of interest by economists in ethical issues and beliefs and by moral

philosophers and theologians in economics This book is intended to make a contribution to this cross fertilisation of ideas Rodney Wilson has undertaken an extensive survey of Jewish Christian and Muslim views on economics and reviewed the rapidly expanding business ethics literature from a religious perspective The juxtaposition of the work of theologians and moral philosophers with that of economists results in some interesting comparisons **The Market Economy and Christian Ethics** Peter H. Sedgwick,1999-10-07 Peter Sedgwick explores the relation of a theology of justice to that of human identity in the context of the market economy and engages with critics of capitalism and the market He examines three aspects of the market economy first how does it shape personal identity through consumption and the experience of paid employment in relation to the work ethic Second what impact does the global economy have on local cultures Finally as manufacturing changes out of all recognition through the impact of technology and global competition what is the effect in terms of poverty Drawing on the response of the Catholic Church both in the United States and in papal encyclicals to the market economy from 1985 1991 Sedgwick argues that its involvement deserves to be better known Moreover he recommends that the Churches remain part of the debate in reforming and humanizing the market economy **Religious Ethics in the Market Economy** Karl G. Dean,A. M. C. Waterman,1999 To follow up the 1994 Economics and Religion Are They Distinct which explored how the two systems of thought could be harmonized within normative social theory a number of case studies were conducted and the reports and sent as a group to a second group of authors These commentators composed interpretive essays to address whether the attempts to combine into a normative social theory the putative insights of theology with the putative scientific knowledge supplied by economics are intellectually defensible and or actually fruitful The volume contains both the case studies and the essays Annotation copyrighted by Book News Inc Portland OR **Economics and Empire in the Ancient Near East** Matthew J. M. Coomber,2023-02-28 Over the past few decades biblical economics has developed into an

*Economics of Faith* Esther Chung-Kim, 2021-04-02 Economics of Faith examines the role of religious leaders in the development of poor relief institutions in early modern Europe As preachers policy makers advocates and community leaders these reformers offered a new interpretation of salvation and good works that provided the religious foundation for poor relief reform Although poverty was once associated with the religious image of piety reformers no longer saw it as a spiritual virtue Rather they considered social welfare reform to be an integral part of religious reform and worked to modify existing poor relief institutions or to set up new ones Population growth economic crises and migration in early modern Europe caused poverty and begging to be an ever increasing concern and religious leaders encouraged the development and expansion of poor relief institutions This new cadre of reformers served as catalysts organizers stabilizers and consolidators of strategies to alleviate poverty the most glaring social problem of early modern society Although different roles emerged from varying relationships and negotiations with local political authorities and city councils reform minded ministers and lay leaders shaped a variety of institutions to address the problem of poverty and to promote social and communal responsibility As religious options multiplied within Christianity one's understanding of community determined the boundaries albeit contested and sometimes fluid of responsible poor relief This goal of communal care would be especially relevant for religious refugees who as foreigners and strangers became responsible for caring for their own group

**Reforming the Morality of Usury** David W. Jones, 2003-12-30 In the early years of the sixteenth century the Church experienced a dramatic shift in its moral perception of the practice of usury Leaders of the continental Protestant Reformation Lutheran Calvinist and Anabaptist all grappled with the Roman Catholic Church's moral teaching on the practice of lending money at interest Although these three theological streams addressed the same moral problem at relatively the same time they each responded differently

**Reforming the Morality of Usury** examines how the leaders of each major stream in the continental Protestant Reformation adopted a different approach to reforming moral teaching on the practice of usury

Tiemstra, 2012-12-19 A Christian approach to economic analysis requires that humans be thought of not as maximizing their own private economic welfare but rather as making moral choices with their resources Professor Tiemstra lays out the methodology of this approach in the first section of this book He then applies it to real economic problems including poverty and economic justice environmental sustainability and globalization

**Essays in Public Theology** Dirkie Smit, 2007-04-01 What is the role of the church in society What role did the church play in South Africa during apartheid in the struggle against apartheid and during the period of transformation The essays collected and published in this volume deal with questions such as these They are all occasional pieces They were written over two decades and reflect the times in which they originated always intended for specific audiences always addressing issues of the particular moment

Essays on the Real Church Dirk J. Smit, 2024-08-15 The spirit of the Reformation is often expressed in the well known slogan that Reformed churches are always being reformed according to God's Word *ecclesia reformata semper reformanda secundum verbum Dei* Over the last century the spirit of this slogan motivated someone like Dietrich Bonhoeffer to argue that the visible form and life of the church should reflect the truth and message of the church Already in his doctoral dissertation called *Sanctorum Communio* the communion of the saints the young Bonhoeffer combined theological claims and traditions with social theory and analysis in this spirit in an innovative way to study the nature and integrity and witness of the church At the time this was a radical claim with major consequences and challenges for Protestant churches Their life which meant their order structure actions statements convictions public presence and role was

to be measured by their gospel which meant their message proclamation convictions claims They could no longer proclaim one truth yet live a different life It was this spirit which led to the well known Theological Declaration of Barmen in 1934 and to the formation of the Confessing Church in Nazi Germany Many called this a moment of truth a status confessionis It was this same spirit which later inspired the struggle in South Africa for the integrity and faithfulness of the church and for the credibility of its message proclamation and witness The contributions in this volume 52 papers essays sermons studies were all produced in this spirit Most of them have not been published before They were all occasional pieces written over several decades in different contexts and for different purposes and audiences yet they all breathe this self critical spirit of the Reformation considering whether the real church the concrete every day actual living church that people know and experience and perhaps belong to truly strives to embody the gospel itself the message which it claims and proclaims They all inquire under different circumstances and in diverse ways about different social forms of the real church from worship to congregation from denomination to ecumenical church from individual believers to movements and organisations whether and how they embody the truth of the church or not Together these contributions tell a story the story of this spirit in South African circles over several decades but also in the ecumenical church in our globalizing world They offer one small glimpse into different concrete moments in the story of this spirit in the life of this tradition and community of faith Hopefully some of these accounts may resonate with others who also shared the same spirit and still share it today in new and ongoing ways

*Social Movements and World-System Transformation* Jackie Smith, MICHAEL GOODHART, Patrick Manning, John Markoff, 2016-10-26 At a particularly urgent world historical moment this volume brings together some of the leading researchers of social movements and global social change and other emerging scholars and practitioners to advance new thinking about social movements and global transformation Social movements around the world today are responding to crisis by defying both political and epistemological borders offering alternatives to the global capitalist order that are imperceptible through the modernist lens Informed by a world historical perspective contributors explain today's struggles as building upon the experiences of the past while also coming together globally in ways that are inspiring innovation and consolidating new thinking about what a fundamentally different more equitable just and sustainable world order might look like This collection offers new insights into contemporary movements for global justice challenging readers to appreciate how modernist thinking both colors our own observations and complicates the work of activists seeking to resolve inequities and contradictions that are deeply embedded in Western cultural traditions and institutions Contributors consider today's movements in the longue dur e that is they ask how Occupy Wall Street the Arab Spring and other contemporary struggles for liberation reflect build upon or diverge from anti colonial and other emancipatory struggles of the past Critical to this volume is its exploration of how divisions over gender equity and diversity of national cultures and class have impacted what are increasingly intersectional global movements The contributions of feminist and indigenous movements come to the fore

in this collective exploration of what the movements of yesterday and today can contribute to our ongoing effort to understand the dynamics of global transformation in order to help advance a more equitable just and ecologically sustainable world

**Biblical Economic Ethics** Albino Barrera, 2013-08-31 Written in non technical language accessible to non specialist readers this book is a theological synthesis of the findings of scripture scholars and ethicists on what the Bible teaches about economic life It proposes a biblical theology of economic life that addresses three questions namely What do the individual books of Sacred Scripture say about proper economic conduct How do these teachings fit within the larger theology and ethics of the books in which they are found Are there recurring themes underlying patterns or issues running across these different sections of the Bible when read together as a single canon The economic norms of the Old and New Testament exhibit both continuity and change Despite their diverse social settings and theological visions the books of the Bible nonetheless share recurring themes care for the poor generosity wariness over the idolatry of wealth the inseparability of genuine worship and upright moral conduct and the acknowledgment of an underlying divine order in economic life Contrary to most people's first impression that the Bible offers merely random economic teachings without rhyme or reason there is in fact a specific vision undergirding these scriptural norms Moreover far from being burdensome impositions of do's and don'ts this book finds that the Bible's economic norms are in fact an invitation to participate in God's providence To this end we have been granted a threefold benefaction the gift of divine friendship the gift of one another and the gift of the earth Thus biblical economic ethics is best characterized as a chronicle of how God provides for humanity through people's mutual solicitude and hard work The economic ordinances aphorisms and admonitions of the Old and New Testament turn out to be an unmerited divine invitation to participate in God's governance of the world Our economic conduct provides us with a unique opportunity to shine forth in our creation in the image and likeness of God Often extremely demanding hard and even fraught with temptations and distractions economic life nevertheless is at its core an occasion for humans to grow in holiness charity and perfection
