## **Reframing Abstract Expressionism Subject:**

**Reframing Abstract Expressionism** Michael Leja, 1993-01-01 In the wake of World War II the paintings of Jackson Pollock Mark Rothko Barnett Newman Willem de Kooning and other New York School artists participated in a culture wide initiative to reimagine the self At a time when widely held beliefs about human nature and the human condition were coming to seem to many commentators increasingly outdated and inadequate Abstract Expressionism gave compelling visual form to a new subjectivity a new experience and idea of self In this original and wide ranging study Michael Leja argues that the interest of these artists in tapping primitive and unconscious components of self aligns them with many contemporary essayists Hollywood filmmakers journalists and popular philosophers who were turning like the artists to psychology anthropology and philosophy in the effort to reformulate individual identity Taking Pollock s paintings and their reception as a case study Leja shows that critics located in Pollock s abstract forms a web of metaphors including spatial entrapment conflicted production energy flow gendered opposition and unconsciousness that situated the paintings in mainstream cultural discourses on the individual s sense of self and identity In this interpretative frame the cultural and ideological character of the art is illuminated According to Leja Abstract Expressionism effectively enacted and represented the new conflicted layered subjectivity a feature that helps to account for the support and interest it garnered from cultural and political institutions alike

**The Poetics of Slumberland** Scott Bukatman, 2012-03-26 In The Poetics of Slumberland Scott Bukatman celebrates play plasmatic possibility and the life of images in cartoons comics and cinema Bukatman begins with Winsor McCay s Little Nemo in Slumberland to explore how and why the emerging media of comics and cartoons brilliantly captured a playful rebellious energy characterized by hyperbolic emotion physicality and imagination The book broadens to consider similar animated behaviors in seemingly disparate media films about Jackson Pollock Pablo Picasso and Vincent van Gogh the musical My Fair Lady and the story of Frankenstein the slapstick comedies of Jerry Lewis and contemporary comic superheroes drawing them all together as the purveyors of embodied utopias of disorder

**Acrobatic Modernism from the Avant-Garde to Prehistory** Jed Rasula, 2020-02-27 This is a book about artistic modernism contending with the historical

transfigurations of modernity As a conscientious engagement with modernity's restructuring of the lifeworld the modernist avant garde raised the stakes of this engagement to programmatic explicitness But even beyond the vanguard the global phenomenon of jazz combined somatic assault with sensory tutelage Jazz like the new technologies of modernity re-calibrated sensory ratios The criterion of the new as self-making also extended to names pseudonyms and heteronyms The protocols of modernism solicited a pragmatic arousal of bodily sensation as artistic resource validating an acrobatic sensibility ranging from slapstick and laughter to the pathos of bereavement Expressivity trumped representation The artwork was a diagram of perception not a mimetic rendering For artists the historical pressures of altered perception provoked new models and Ezra Pound's slogan Make It New became the generic rallying cry of renovation The paradigmatic stance of the avant garde was established by Futurism but the discovery of prehistoric art added another provocation to artists Paleolithic caves validated the spirit of all-over composition unframed and dynamic Geometric abstraction Constructivism and Purism and Surrealism were all in quest of a new mythology Making it new yielded a new pathos in the sensation of radical discrepancy between futurist striving and remotest antiquity The Paleolithic cave and the USSR emitted comparable siren calls on behalf of the remote past and the desired future As such the present was suffused with the pathos of being neither but subject to both

Lee, 2020-03-17 How the approaches and methods of think tanks including systems theory operational research

and cybernetics paved the way for a peculiar genre of midcentury modernism In *Think Tank Aesthetics* Pamela Lee traces the complex encounters between Cold War think tanks and the art of that era Lee shows how the approaches and methods of think tanks including systems theory operations research and cybernetics paved the way for a peculiar genre of midcentury modernism and set the terms for contemporary neoliberalism Lee casts these shadowy institutions as sites of radical creativity and interdisciplinary practice in the service of defense strategy Describing the distinctive aesthetics that emerged from such institutions as the RAND Corporation she maps the multiple and overlapping networks that connected nuclear strategists mathematicians economists anthropologists artists designers and art historians Lee recounts among other things the decades long colloquy between Albert Wohlstetter a RAND analyst and his former professor the famous art historian Meyer Schapiro the anthropologist Margaret Mead s deployment of innovative visual aids that recall midcentury abstract art and the combination of cybernetics and modernist design in an Opsroom for the short lived socialist government of Salvador Allende in 1970s Chile and its restaging many years later as a work of art Lee suggests that we think of these connections less as disciplinary border crossings than as colonization of the specific interests of arts by the approaches and methods of the sciences Hearing the echoes of think tank aesthetics in today s pursuit of the interdisciplinary and in academia s science infused justification of the humanities Lee wonders what territory has been ceded in a laboratory approach to the arts

*Peter Lanyon* Andrew Causey, 2013-06-01 British painter Peter Lanyon transformed the art of landscape rescuing it from picturesque depictions of the English countryside and resituating it as an art form capable of expressing radical ideas The old European tradition of landscape mostly concerned with ownership and leisure and not the daily life of the working class was of no interest to Lanyon His work instead reframed the consequences of war and industrialization upon a rapidly changing coastal landscape In Peter Lanyon Andrew Causey sets out to explain just how this transformation occurred Lanyon's family resided in West Cornwall for generations and Causey asserts that the artist's concern with regional identity along with his resistance to what he saw as a history of outsider exploitation of St Ives and the surrounding areas were integral to his art Drawing on recent work by cultural geographers anthropologists and archeologists Causey makes sense of Lanyon's relationship to the landscape and the pre capitalist economy of his region Provocative and insightful Peter Lanyon is a thoroughly illuminating examination of the modern life of a landscape artist
