Refugee Manipulation War Politics And The Abuse Of Human Suffering:

Refugee Manipulation Stephen John Stedman, Dr. Fred Tanner, 2004-05-13 Since World War II refugee organizations have faced a recurrent challenge the manipulation of refugees by warring parties to further their own aims Some armies in civil wars facing military defeat use refugees as assets to establish the international legitimacy of their cause treat refugee camps as sanctuaries and recruitment pools and limit access to refugees to ensure that they will not repatriate Focusing on the geopolitical security environment surrounding militarized camps and the response of humanitarian agencies the contributors to this volume examine the ways armed groups manipulate refugees and how and why international actors assist their manipulation They then offer suggestions for reducing the ability of such groups to use the suffering of refugees to their own advantage The contributors examine three cases Cambodian refugees along the Thai border in the 1970s and 1980s Afghan refugees in Pakistan in the 1980s and 1990s and Rwandan refugees in Eastern Zaire from 1994-96 They argue that refugee manipulation occurs because warring parties gain resources in their fight for power and other actors often the host government and regional and major powers encourage and support it Manipulation is allowed to occur because the international refugee regime and major states have not identified a consistent approach to stopping it In the post Cold War era the United Nations and its members have chosen to treat the issue as a humanitarian problem instead of a security problem As the contributors make clear however manipulation of refugees has important ramifications for international security turning some civil wars into larger protracted regional wars They argue that the geopolitics of refugee manipulation leads to sanguine conclusions about stopping it Solutions must change the moral political and strategic calculations of states that are implicated in the manipulation As long as the problem is not deemed a security threat

Refugee Manipulation Stephen John Stedman, Fred Tanner, 2003 Includes statistics

Anti-Refugee Violence and African Politics Ato Kwamena Onoma, 2013-10-07 Using comparative cases from Guinea Uganda and the Democratic Republic of Congo this study explains why some refugee hosting communities launch large scale attacks on civilian refugees whereas others refrain from such attacks even when encouraged to do so by state officials Ato Kwamena Onoma argues that such outbreaks only happen when states instigate them because of links between a few refugees and opposition groups Locals embrace these attacks when refugees are settled in areas that privilege residence over indigeneity in the distribution of rights ensuring that they live autonomously of local elites The resulting opacity of their lives leads locals to buy into their demonization by the state Locals do not buy into state denunciation of refugees in areas that privilege indigeneity over residence in the distribution of rights because refugees in such areas are subjugated to locals who come to know them very well Onoma reorients the study of refugees back to a focus on the disempowered civilian refugees that constitute the majority of refugees even in cases of severe refugee militarization

Humanitarianism, War, and Politics Peter J. Hoffman, Thomas G. Weiss, 2017-06-27 What is humanitarianism This authoritative book provides a comprehensive analysis of the original idea and its evolution exploring

its triangulation with war and politics Peter J Hoffman and Thomas G Weiss trace the origins of humanitarianism its social movement and the institutions international humanitarian law and organizations providers of assistance and protection that comprise it They consider the international humanitarian system s ability to regulate the conduct of war to improve the wellbeing of its victims and to prosecute war criminals Probing the profound changes in the culture and capacities that underpin the sector and alter the meaning of humanitarianism they assess the reinventions that constitute revolutions in humanitarian affairs The book begins with traditions and perspectives ranging from classic international relations approaches to Critical Humanitarian Studies and reviews seminal wartime emergencies and the creation and development of humanitarian agencies in the late nineteenth and twentieth centuries The authors then examine the rise of new humanitarianisms after the Cold War s end and contemporary cases after 9 11 The authors continue by unpacking the most recent revolutions the International Criminal Court and the Responsibility to Protect as well as such core challenges as displacement camps infectious diseases eco refugees and marketization They conclude by evaluating the contemporary system and the prospects for further transformations identifying scholarly puzzles and the acute operational problems faced by practitioners

Mobilising the Diaspora Alexander Betts, Will Jones, 2016-11-17 Over half the world lives under authoritarian regimes For these people the opportunity to engage in politics moves outside the state s territory Mobilising across borders diasporas emerge to challenge such governments This book offers an in depth examination of the internal politics of transnational mobilisation Studying Rwandan and Zimbabwean exiles it exposes the power interests and unexpected agendas behind mobilisation revealing the surprising and ambivalent role played by outsiders Far from being passive victims waiting for humanitarian assistance refugees engage actively in political struggle From Rwandans resisting their repatriation to Zimbabweans preventing arms shipments political exiles have diverse aims and tactics Conversely the governments they face also deploy a range of transnational strategies and those that purport to help them often do so with hidden agendas This shifting political landscape reveals the centrality of transnationalism within global politics the historical and political contingency of diasporas and the precarious agency of refugees

No Refuge Robert Muggah, 2013-04-04 Africa s refugee and IDP camps are a cause of major concern to the international community Millions of men women and children endure situations of protracted displacement in deplorable conditions In the absence of more durable solutions refugees and IDPs in many situations are exceptionally susceptible to militarization No Refuge describes how the phenomenon of refugee militarization threatens to undermine asylum and protection This edited volume is a timely and invaluable resource for governments UNHCR protection officers UN agencies and NGOs It is a must read for all concerned with improving the safety and rights of refugees and IDPs on the ground Antonio Guterres United Nations High Commissioner for Refugees No Refuge provides a timely analysis by a group of Africa experts of the causes and consequences of refugee militarization in Africa It should prove invaluable for practitioners policy makers and academics in their quest to find

practical and effective remedies for this growing humanitarian and security problem I highly recommend it Professor Gil Loescher Centre for International Studies University of Oxford The militarization of refugees and internally displaced persons IDPs is a persistent and tragic feature of protracted displacement situations especially in Africa The phenomenon threatens access to asylum and protection core pillars of refugee law and the mandates of aid agencies But while policy debates rage over how best to disarm refugees and prevent them from destabilizing neighbouring states there is surprisingly little evidence explaining why displaced people arm themselves or precisely how militarization affects hosting communities No Refuge analyses the experience of refugee and IDP militarization in several African countries affected by and emerging from civil war including Guinea Rwanda Uganda and Tanzania It provides a considered overview of the historical political and regional dimensions of refugee and IDP militarization in Africa as well as international and national efforts to contain it

Biopolitics, Necropolitics, Cosmopolitics C.L. Quinan, Kathrin Thiele, 2021-03-25 The concepts of biopolitics and necropolitics have increasingly gained scholarly attention particularly in light of today's urgent and troubling issues that mark some lives as more or less worthy than others including the migration crisis rise of populism on a global scale homonationalist practices and state sanctioned targeting of gender sexual racial and ethnic others This book aims to nuance this conversation by emphasising feminist and queer investments and interventions and by adding the analytical lens of cosmopolitics to ongoing debates around life living and death dying in the current political climate In this way we move forward toward envisioning feminist and queer futures that rethink categories such as human and subjectivity based on classical modern premises Informed by feminist queer studies postcolonial theory cultural analysis and critical posthumanism Biopolitics Necropolitics Cosmopolitics engages with longstanding questions of biopolitics and necropolitics in an era of neoliberalism and late capitalism but does so by urging for a more inclusive and less violent cosmopolitical framework Taking account of these global dynamics that are shaped by asymmetrical power relations this fruitful posthumanist and post

decolonial approach allows for visions of transformation of the matrix of inclusion and exclusion into feminist queer futures that work towards planetary social justice This book is a significant new contribution to feminist and queer philosophy and politics and will be of interest to academics researchers and advanced students of gender studies postcolonial studies sociology philosophy politics and law The chapters in this book were originally published as a special issue of the Journal of Gender Studies

The Oxford Handbook of Late Colonial Insurgencies and Counter-Insurgencies Martin Thomas, Gareth Curless, 2023-10-10 The lethality of conflicts between insurgent groups and counter insurgent security forces has risen markedly since the Second World War just as those of conventional or inter state wars have declined For several decades conflicts within states rather than between them have been the prevalent form of organised political violence worldwide Recent conflicts in Afghanistan Iraq and Syria have fired interest in colonial experiences of rebellion while current western interventions in sub Saharan Africa have prompted accusations of militarist humanitarianism Yet despite mounting interest in counter insurgency and empire comparative investigation of colonial responses to insurrection and civil disorder is sparse Some scholars have written of a golden age of counter insurgency which began with Britain's declaration of a Malayan Emergency in 1948 and ended with the withdrawal of US ground troops from Vietnam in 1973 It is with this period if not with any presumed golden age that this volume is concerned This Handbook connects ideas about contested decolonization and the insurgencies that inspired it with an analysis of patterns and singularities in the conflicts that precipitated the collapse of overseas empires It attempts a systematic study of the global effects of organized anti colonial violence in Asia and Africa The objective is to reconceptualize late colonial violence in the European overseas empires by exploring its distinctive character and the globalizing processes underpinning it

Diplomacy, Communication, and Peace William Maley, 2020-11-15 This book is composed of interconnected essays which reflect on challenging new issues related to diplomacy communication and peace This book begins by drawing out some of the challenges for diplomacy that arise from modern theories of semantics and of strategic communication as well as those posed by the need for secrecy and by the activities of agents of influence It then proceeds to examine important issues in contemporary diplomacy including refugee diplomacy humanitarian diplomacy sovereignty norms and consular activities It concludes with an exploration of dilemmas that confront attempts to promote peace through multilateral means such as the limitations of peacemaking diplomacy the difficulty of promoting democratic governance and the problems associated with dealing with morally repugnant actors The book is grounded in the conception of diplomacy as a social practice with multiple players and recognises that the state has many different elements and that state actors live in worlds shaped not just by their relations with other states but also by their own complex domestic politics This book will be of much interest to students of diplomacy foreign policy and International Relations

Refugees in International Relations Alexander Betts, Gil Loescher, 2011 Drawing together the work and ideas of a combination of the world's leading and emerging International Relations scholars *Refugees in International Relations* provides a comprehensive and challenging overview of the international politics of forced migration

Global Politics of Health Sara Davies, 2010-02 International responses to the outbreak of SARS the spread of HIV AIDS and the promotion of health as a human right all demonstrate how global politics have a profound effect on the way we think about and respond to major health challenges Despite a growing interest in the relationship between health and international relations there has yet to be a systematic study of the links between them *Global Politics of Health* aims to fill this gap ultimately showing how world politics can be good or bad for your health This book calls for a more nuanced understanding of the nature of the current global health crisis and the political dilemmas faced by those responsible for the development and implementation of responses to it By charting these debates and showing how they shape the way actors think about key issues relating to health such as people movement infectious disease the business of health and the consequences of war this volume provides an innovative and comprehensive introduction to health and international relations for students of global politics health studies and related disciplines

Asymmetrical Neighbors Enze Han, 2019 Is the process of state building a unilateral national venture or is it something more collaborative taking place in the interstices between adjoining countries To answer this question *Asymmetrical Neighbors* takes a comparative look at the state building process along China Myanmar and Thailand's common borderland area It shows that the variations in state building among these neighboring countries are the result of an interactive process that occurs across national boundaries Departing from existing approaches that look at such processes from the angle of singular bounded territorial states the book argues that a more fruitful method is to examine how state and nation building in

one country can influence and be influenced by the same processes across borders It argues that the success or failure of one country's state building is a process that extends beyond domestic factors such as war preparation political institutions and geographic and demographic variables Rather it shows that we should conceptualize state building as an interactive process heavily influenced by a neighborhood effect Furthermore the book moves beyond the academic boundaries that divide arbitrarily China studies and Southeast Asian studies by providing an analysis that ties the state and nation building processes in China with those of Southeast Asia

Extreme Politics Charles King, 2010-01-14 Why do some violent conflicts endure across the centuries while others become dimly remembered ancient struggles among forgotten peoples Is nationalism really the powerful force that it appeared to be in the 1990s This wide ranging work examines the conceptual intersection of nationalist ideology social violence and the political transformation of Europe and Eurasia over the last two decades The end of communism seemed to usher in a period of radical change an era of extreme politics that pitted nations ethnic groups and violent entrepreneurs against one another from the wars in the Balkans and Caucasus to the apparent upsurge in nationalist mobilization throughout the region But the last twenty years have also illustrated the incredible diversity of political life after the end of one party rule Extreme Politics engages with themes from the micropolitics of social violence to the history of nationalism studies to the nature of demographic change in Eurasia Published twenty years since the collapse of communism Extreme Politics charts the end of Eastern Europe as a place and chronicles the ongoing revolution in the scholarly study of the post communist world

The UNHCR and the Afghan Crisis Giulia Scalettaris, 2023-11-10 Today the UNHCR is present in more than 130 countries and takes care of some 90 million people This book looks at how it is deployed and who its agents are By taking the reader through the offices in charge of the Afghan refugee crisis during the 2000s in Geneva and in Kabul the book shows the internal functioning of this international

organization It provides analysis of Afghan refugee policies from an original position with the author being both agency official and anthropologist and articulates multiple levels of analysis the micropolitics of practices as much as the institution and the multi scalar power relations that shape its environment Ethnic Politics after Communism Zoltan Barany, Robert G. Moser, 2018-07-05 The Soviet Union encompassed dozens of nationalities and ethnicities and in the wake of its collapse the politics of ethnicity within its former borders and throughout Eastern Europe have undergone tremendous changes In this book Zoltan Barany and Robert G Moser bring together eminent scholars whose theoretically diverse and empirically rich research examines various facets of ethnicity in postcommunist Europe and Eurasia ethnic identity and culture mobilization parties and voting conflict and ethnic migration The contributors consider how ethnic forces have influenced political outcomes that range from voting to violence and protest mobilization to language acquisition Conversely each chapter demonstrates that political behavior itself has an impact on the forms and strength of ethnic identity Thus ethnicity is deemed to be a contested malleable and constructed force rather than a static characteristic inherent in the attributes of groups and individuals with a common religion race or national origin **Legitimising Rejection** Sara Ellen Davies, 2008 This book examines Southeast Asia s rejection of international refugee law through extensive archival analysis and argues that this rejection was shaped by the region s response to its largest refugee crisis in the post 1945 era the Indochinese refugee crisis from 1975 1996
