Marcel Pagnol Brett Bowles, 2021-06-15 Though long ignored or dismissed by film critics and scholars Marcel Pagnol 1895 1974 was among the most influential auteurs of his era This comprehensive overview of Pagnol s career now available in paperback highlights his unique place in French cinema as a self sufficient writer producer director and his contribution to the long term evolution of filmmaking in a broader European context In addition to reassessing the converted playwright s controversial prioritisation of speech over image the book juxtaposes Pagnol s sunny rural melodramas with the dark urban variety of poetic realism practised by influential peers such as Jean Renoir and Marcel Carn In his penchant for outdoor location shooting and ethnographic authenticity as well as his stubborn attachment to independent artisanal production values Pagnol served as a precursor to the French New Wave and Italian Neo Realism inspiring the likes of Jean Luc Godard Fran ois Truffaut Vittorio De Sica and Roberto Rossellini *Catalog of the Theatre and Drama Collections: Theatre*

The Hollywood Reporter, 1939 **Twayne's World Authors Series**, 1977 **French Writers and the Politics of Complicity** Richard J. Golsan, 2006-02 Focusing on the political commitments of three French writers who collaborated with the Vichy Regime and Nazi Germany during World War II and on those of three leading French intellectuals of the 1990s whose misplaced political idealism led them to support xenophobic authoritarian regimes and dangerous historical revisionisms Richard J Golsan reexamines the notion of political commitment or engagement in two difficult periods in modern French history Discussing the fiction essays and journalism of Henry de Montherlant Jean Giono and Alphonse de Chateaubriant Golsan explores the complexity of artistic and intellectual collaboration during the German Occupation He demonstrates that in this context complicity with political evil often derived from nonpolitical motives including sexual

orientation antimodern aesthetics and dangerously skewed religious beliefs Turning to the post cold war era of the 1990s Golsan examines the philosopher Alain Finkielkraut s support for Croatian independence the mediologist Rgis Debray s pro Serb stance during the bombing of Kosovo and the historian St phane Courtois s revisionist comparison of Nazi and Communist crimes during the 1997 debate surrounding the publication of *The Black Book of Communism* In these three cases laudable motives and misguided historical comparisons with Vichy Nazism and the Occupation period that marked the political and intellectual discourses of France in the 1990s resulted paradoxically in antidemocratic engagements profoundly at odds with the original motivations behind these intellectuals commitments In each of these case studies political complicity derives from a combination of passions and ideals whether positive or negative emotional or intellectual as well as a desire to make the present conform to a particular and generally skewed vision of the past The full implications of these involvements are neither fully grasped nor understood by their authors either through lack of objectivity rationality or imagination or through willful ignorance The results are always unfortunate and often disastrous Considered together these six intellectuals serve as sobering reminders that political commitments are never as simple or straightforward as they seem and that admirable motives for political involvement can have dangerous and destructive consequences in historical practice
