*The Regensburg Legacy* Jack M. Bickham, 1980      **Nicholas of Cusa - A Companion to his Life and his Times** Morimichi Watanabe, Edited by Gerald Christianson, 2016-05-06 This work is a guide to the life thought and activities of Nicholas of Cusa 1401 1464 the great fifteenth century philosopher theologian jurist author of mystical and ecclesiastical treatises cardinal and reformer It is intended not only for advanced scholars but also for beginners and those simply curious about a man who has been called one of the greatest Germans of the fifteenth century and a medieval thinker for the modern age The book provides a series of detailed but readable essays on ideas persons and places a work developed over the course of nearly three decades First it contains articles on the important events and concepts that affected Cusanus philosophical religious intellectual and political Then it turns to his precursors and contemporaries both friendly and critical These include philosophers theologians politicians and canon lawyers And third the book follows the footsteps of the man from Kues and examines various sites where he lived studied or visited Because the author has also visited many of these sites he can contribute personal observations to enliven the journey To add to the book s usefulness as a resource and reference tool each entry is followed by a bibliography containing both recent and older works The purpose of the volume is to gain a greater appreciation of Cusanus and his legacy by striving for a total view of his thought and experience instead of narrowly focusing on specific philosophical theological or intellectual ideas or certain periods of his activities in isolation from other facets of this compelling figure      **EHealth** Bernd Blobel, 2008      **Ottonian Imperial Art and Portraiture** Eliza Garrison, 2017-07-05 Ottonian Imperial Art and Portraiture represents the first art historical consideration of the patronage of the Ottonian Emperors Otto III 983 1002 and Henry II 1002 1024 Author Eliza Garrison analyzes liturgical artworks created for both rulers with the larger goal of addressing the ways in which individual art objects and the collections to which they belonged were perceived as elements of a material historical narrative and as portraits Since these objects and images had the capacity to stand in for the ruler in his physical absence she argues they also performed political functions that were bound to their ritualized use in the liturgy not only during the ruler s lifetime but even after his death Garrison investigates how treasury objects could relay officially sanctioned information in a manner that texts alone could not offering the first full length exploration of this central phenomenon of the Ottonian era      *Montezuma's Revenge* Harry Harrison, 1987      Regensburg Legacy Outlet, Outlet Book Company Staff, Random House Value Publishing Staff, 1988-12-01      Twilight of the Renaissance Daniel A. Crews, 2008-10-22 Diplomat courtier and heretic Juan de Vald s c 1500 1541 was one of the most famous humanist writers in Renaissance Spain In this biography Daniel A Crews paints a lively portrait of a complex and fascinating figure by focusing on Vald s s service as an imperial courtier and how his employments in Italy after brushes with the Spanish Inquisition influenced both Spanish diplomacy and his own religious thought *Twilight of the Renaissance* focuses on Vald s s political activities in Charles V s Italian alliance system and negotiations with the papacy

while painting a lively portrait of an intriguing and complex Renaissance figure Crews examines how Vald s who was praised by two popes and the emperor was also branded a heretic almost immediately after his death By considering Vald s spirituality as well as egotism this incisive work reveals how the libertine atmosphere of the late Renaissance challenges the saintly Socratic image Vald s fashioned for himself in his writings

**Blood Libel** Magda Teter,2020-01-28 A landmark history of the antisemitic blood libel myth how it took root in Europe spread with the invention of the printing press and persists today Accusations that Jews ritually killed Christian children emerged in the mid twelfth century following the death of twelve year old William of Norwich England in 1144 Later continental Europeans added a destructive twist Jews murdered Christian children to use their blood While charges that Jews poisoned wells and desecrated the communion host waned over the years the blood libel survived Initially blood libel stories were confined to monastic chronicles and local lore But the development of the printing press in the mid fifteenth century expanded the audience and crystallized the vocabulary images and facts of the blood libel providing a lasting template for hate Tales of Jews killing Christians notably Simon of Trent a toddler whose body was found under a Jewish house in 1475 were widely disseminated using the new technology Following the paper trail across Europe from England to Italy to Poland Magda Teter shows how the blood libel was internalized and how Jews and Christians dealt with the repercussions The pattern established in early modern Europe still plays out today In 2014 the Anti Defamation League appealed to Facebook to take down a page titled Jewish Ritual Murder The following year white supremacists gathered in England to honor Little Hugh of Lincoln as a sacrificial victim of the Jews Based on sources in eight countries and ten languages Blood Libel captures the long shadow of a pernicious myth

*Kepler's Somnium* Johannes Kepler,2003-01-01 Both a scientific treatise on lunar astronomy and a science fiction story about a voyage to the moon Kepler s Somnium went unrecognized for centuries This edition presents a full translation from the original Latin

*Early Modern European Diplomacy* Dorothee Goetze,Lena Oetzel,2023-12-31 New Diplomatic History has turned into one of the most dynamic and innovative areas of research especially with regard to early modern history It has shown that diplomacy was not as homogenous as previously thought On the contrary it was shaped by a multitude of actors practices and places The handbook aims to characterise these different manifestations of diplomacy and to contextualise them within ongoing scientific debates It brings together scholars from different disciplines and historiographical traditions The handbook deliberately focuses on European diplomacy although non European areas are taken into account for future research in order to limit the framework and ensure precise definitions of diplomacy and its manifestations This must be the prerequisite for potential future global historical perspectives including both the non European and the European world

*Pope Benedict XVI* John L. Allen,2001-09-01 A vivid blow by blow of the controversies that have wracked the Catholic Church during the past twenty years Liberation theology birth control women s ordination inclusive language radical feminism homosexuality religious pluralism human rights in the church and the roles of bishops and theologians one man has stood at the dead center

of all these controversial issues Cardinal Joseph Ratzinger A teenage American POW as the Third Reich crumbled and a progressive wunderkind at the Second Vatican Council Ratzinger for twenty years has been head of the Congregation for the Doctrine of the Faith until 1908 known as the Sacred Congregation of the Roman and Universal Inquisition or Holy Office The book goes a long way toward explaining the central enigma surrounding Ratzinger How did this erstwhile liberal end up as the chief architect of the third great wave of repression in Catholic theology in the twentieth century Based on extensive interviews with Ratzinger s students and colleagues as well as research in archives in both Bavaria and the United States Allen s account shows that Ratzinger s deep suspicion of the world his preoccupation with human sinfulness and his demand for rock solid loyalty to the church run deep They reach into his childhood in the shadow of the Nazis and reflect his formative theological influences Augustine Bonaventure and Martin Luther rather than the world affirming Thomas Aquinas When the cardinals of the Catholic Church next gather in the Sistine Chapel to elect a pope Allen argues they will in effect be deciding whether to continue the policies Ratzinger has been the central force in shaping The servility of the sycophants of those who shy from and shun every collision who prize above all their calm complacency is not true obedience What the church needs today as always are not adulators to extol the status quo but men whose humility and obedience are not less than their passion for the truth men who love the church more than the ease and the unruffled course of their personal destiny Joseph Ratzinger 1962 *Wondrous in His Saints* Philip M. Soergel, 2024-06-28 At the close of the sixteenth century despite Protestant attempts to discourage popular devotion to saints and shrines the Roman Church in Bavaria initiated a propagandistic campaign through the publishing of pilgrimage books and pamphlets Philip Soergel s cogent exploration of this little known pilgrimage literature yields a vivid portrait of religion before during and after the Reformation and Counter Reformation These advertisements combining testimonies of miracles with fantastic legends about shrines fueled the conflict between Catholics and Protestants and helped shape a distinctive Catholic historical consciousness Soergel stresses the power of the printed word as a defense of traditional authority testing other historians assertions about the neglect of printing and literacy in the Counter Reformation This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1993 **The White Mantle of Churches** Nigel Hiscock, 2003 When a monk living at the beginning of the last millennium described Europe cladding itself everywhere in a white mantle of churches he precipitated several questions for historians to answer Was there a surge in church building at the time If so what were the causes of this and what were the purposes Does it help to explain our understanding of Romanesque architecture and art Was there a connection between the white mantle of churches and the millennium Did people believe the world was coming to an end The supposition of apocalyptic expectations at the time was

until recently dismissed as romantic myth but the arrival of our new millennium has brought a revival in interest in the dawn of the second millennium and new evidence of millennial fears Yet millennial studies and architectural history largely continue to follow separate parallel paths This book therefore aims to add the architectural evidence to the millennial debate and to examine this formative period in relation to the evolution of Romanesque architecture and art As our own millennium gets under way with continuing hesitancy between European aspiration and national identity it is also of interest to compare our time with the Europe of a thousand years ago Nigel Hiscock is an architect and senior lecturer in architectural history theory and design at Oxford Brookes University His interests include medieval architectural design and practice and has published and presented papers widely on this subject [The Life and Legacy of Franz Xaver Hauser](#) Dale A.

Jorgenson,1996 In this remarkable biography Dale A Jorgenson discloses the great legacy left by Hauser for future generations Hauser s finest contribution was his achievement in cataloging all of Bach s known works and his collecting and disseminating for live performance all the original manuscripts and authentic copies of Bach s work he could obtain materials he than made available to the Bach Society founded in Leipzig in 1850 **The Great Spy Pictures II** James Robert

philosopher Robert Spaemann provides an important contribution to a number of contemporary debates in philosophy and theology opening up possibilities for conversation between these disciplines He engages in a dialogue with classical and contemporary positions and often formulates important and original insights which lie beyond common alternatives In this study Holger Zaborowski provides an analysis of the most important features of Spaemann s philosophy and shows the unity of his thought The question Who is a person is of increasing significance Are all human beings persons Are there animals that can be considered persons What does it mean to speak of personal identity and of the dignity of the person Spaemann provides an answer to these questions Every human being he argues is a person and therefore has his nature in freedom In order to understand the person Spaemann explains we have to think about the relation between nature and freedom and avoid the reductive accounts of this relation prevalent in important strands of modern thought Spaemann develops a challenging critique of modernity incorporating analysis of modern anti modernisms and showing that these are also subject to a dialectical development perpetuating the problematic shortcomings of many features of modern reasoning If we do not want to abolish ourselves as persons Spaemann reasons we need to find a way of understanding ourselves that evades the dialectic of modernity Thus he reminds his readers of self evident knowledge insights that we have once already known but tend to forget **Meanings of Community across Medieval Eurasia** ,2016-06-10 This volume explores some of the many

different meanings of community across medieval Eurasia How did the three universal religions Christianity Islam and Buddhism frame the emergence of various types of community under their sway The studies assembled here in thematic

clusters address the terminology of community genealogies urban communities and monasteries or enclaves of learning in particular in early medieval Europe medieval South Arabia and Tibet and late medieval Central Europe and Dalmatia It includes work by medieval historians social anthropologists and Asian Studies scholars The volume presents the results of in depth comparative research from the Visions of Community project in Vienna and of a dialogue with guests offering new and exciting perspectives on the emerging field of comparative medieval history Contributors are in order within the volume Walter Pohl Gerda Heydemann Eirik Hovden Johann Heiss Rüdiger Lohrker Elisabeth Gruber Oliver Schmitt Daniel Mahoney Christian Opitz Birgit Kellner Rutger Kramer Pascale Hugon Christina Lutter Diarmuid Riain Mathias Fermer Steven Vanderputten Jonathan Lyon and Andre Gingrich

**National-Socialist Archaeology in Europe and its Legacies** Martijn Eickhoff, Daniel Modl, Katie Meheux, Erwin Nuijten, 2023-08-14 This edited volume is dedicated to national socialist archaeology as a Europe wide phenomenon It analyses national socialist attempts to denationalize the archaeologies of European nations by creating a new unifying European archaeology on a racial basis From the beginning of the nineteenth century archaeology began to develop into an important force behind processes of nation building At the same time structures of transnational academic collaboration contributed strongly to the internal dynamics of the research field which was primarily organized on a national basis In those European countries that were confronted with national socialist occupation and repression between 1939 and 1945 these transnational archaeological networks were to prove crucial for the development of national socialist archaeological policies This volume will reveal how national socialist archaeology was to an extent valued positively in its time as highly innovative even influencing the archaeology of non occupied countries Although in the final instance it generally failed to displace the national archaeologies in Europe the volume also analyses the long term impact of national socialist rule on the development of European archaeology How did the attempts to create a unified European archaeology after 1945 continue to influence networks methods and terminologies institutional structures or popular representations of the early past

*Changing Heritage* Francesco Bandarin, 2024-04-09 *Changing Heritage* presents the most comprehensive analysis of heritage issues available today Critically analysing the complexity of the current and forthcoming issues faced by heritage it presents insightful directions for the future Drawing on the author's many years of experience working in senior positions at UNESCO the book presents discussions of heritage sites all around the world Today our cultural and natural legacies face significant threats due to social and economic developments political pressures and unresolved historical issues This book delves into these threats from two distinct perspectives internal tensions and external pressures The internal tensions include the disregard for human rights and gender equality the increasing exploitation of heritage for political purposes the development of post colonial perspectives and the necessity to reassess the established notion of universal value External pressures stem from global processes unsustainable tourism political conflicts ethnic clashes and religious strife that are causing destruction in numerous parts of the world Examining the dynamics

between heritage and these internal tensions and external pressures Bandarin offers insights into the challenges faced and emphasises the imperative role of civil society in safeguarding the value of heritage for present and future generations Changing Heritage explores a wide range of issues surrounding the crisis in heritage management on an international level It will be essential reading for heritage scholars students and professionals
