History given annually for the best book on medieval military history **John Gower, Poetry and Propaganda in Fourteenth-century England** David Richard Carlson, 2012 John Gower's works examined as part of a tradition of official writings on behalf of the Crown Richard II Anthony Goodman, James Gillespie, 2003 In this reassessment of Richard II an outstanding group of international contributors re-evaluates the frequently biased evidence to create a new and rounded portrait of this fascinating and much maligned king They investigate Richard's contemporary reputation and key aspects of his policies covering topics which include the conventions of co-operation between kings and communities discourse on the nature and purpose of rule monarchy as spectacle the cultural expression of royal personality and the fiscal basis of government They highlight the seriousness of the problems affecting the exercise of kingship and show how the traditional and innovative panaceas attempted by a conventionally minded prince resulted in his downfall It is a study which repositions the reign within the evolution of English kingship London Literature, 1300-1380 Ralph Hanna, 2005-06-08 Ralph Hanna charts the generic and linguistic features particular to London writing Every Inch a King, 2012-11-13 The role of kings the source of their authority and the nature of the practical restraints on their power have exercised political and religious philosophers historians competing candidates for rule and subject populations from the time of the earliest documented human societies How the kingly image is created and presented and how the ruler performs his or her function as the source of justice are among the topics addressed in this volume which also covers the role of queens in maintaining dynastic succession yet being the target of tales of adultery This volume is of particular interest in bringing together studies of kingly power from Cyrus the Great and Alexander in the ancient world to Shah Abbas in the seventeenth century and covering the European Middle Ages as well as Iran and the Muslim world **Johannes XXII., Avignon und Europa** Sebastian Zanke, 2013-09-12 Die Studie Johannes XXII Avignon und Europa widmet sich mit einem innovativen Ansatz einem kontrovers diskutierten Pontifikat und ordnet hierbei anhand der in den päpstlichen Registerserien berlieferten kurialen Korrespondenz klassische Themen wie die Auseinandersetzung zwischen Kaisertum und Papsttum in einen europäischen Vergleichshorizont ein Fallstudien die von den Britischen Inseln bis zum Mittelmeer reichen geben daneben den Mechanismen Strukturen und Akteuren der päpstlichen Politik eine deutliche Kontur wobei auch die grundsätzliche Rolle des Papsttums im spätmittelalterlichen Europa aus einem neuen Blickwinkel betrachtet wird By implementing a European approach the study offers a new view on the controversial pontificate of John XXII Through examination of the correspondence preserved in the papal registers classic topics like the dispute between papacy and empire can be interpreted within a broader context while case studies ranging from the British Isles to the Mediterranean reveal the mechanisms and actors of papal politics in late medieval Europe *England's Northern Frontier* Jackson W. Armstrong, 2020-11-12 The three counties of England's northern borderlands have long had a reputation as an exceptional and peripheral region within the medieval kingdom preoccupied with local turbulence as a result of the proximity of a hostile frontier with Scotland Yet in the fifteenth century

open war was an infrequent occurrence in a region which is much better understood by historians of fourteenth century Anglo Scottish conflict or of Tudor responses to the so called border reivers This first book length study of England s far north in the fifteenth century addresses conflict kinship lordship law justice and governance in this dynamic region It traces the norms and behaviours by which local society sought to manage conflict arguing that common law and march law were only parts of a mixed framework which included aspects of feud as it is understood in a wider European context Addressing the counties of Northumberland Cumberland and Westmorland together Jackson W Armstrong transcends an east west division in the region s historiography and challenges the prevailing understanding of conflict in late medieval England setting the region within a wider comparative framework

Shipping the Medieval Military Craig L. Lambert, 2011 Mariners made a major but neglected contribution to England's warfare in the middle ages Here their role is examined anew showing their importance During the fourteenth century England was scarred by famine plague and warfare Through such disasters however emerged great feats of human endurance Not only did the English population recover from starvation and disease but thousands of the kingdom's subjects went on to defeat the Scots and the French in several notable battles Victories such as Halidon Hill Neville's Cross Crècy and Poitiers not only helped to recover the pride of the English chivalrous class but also secured the reputation of Edward III and the Black Prince Yet what has been underemphasized in this historical narrative is the role played by men of more humble origins none more so than the medieval mariner This is unfortunate because during the fourteenth century the manpower and ships provided by the English merchant fleet underpinned every military expedition The aim of this book is to address this gap Its fresh approach to the sources allows the enormous contribution of the English merchant fleet to the wars conducted by Edward II and Edward III to be revealed the author also explores the complex administrative process of raising a fleet and provides career profiles for many mariners examining the familial relationships that existed in port communities and the shipping resources of English ports Craig L Lambert is Research Assistant at the University of Hull Disunited Kingdoms

Michael Brown, 2014-07-10 In the last decades of the thirteenth century the British Isles appeared to be on the point of unified rule dominated by the lordship law and language of the English However by 1400 Britain and Ireland were divided between the warring kings of England and Scotland and peoples still starkly defined by race and nation Why did the apparent trends towards a single royal ruler a single elite and a common Anglicised world stop so abruptly after 1300 And what did the resulting pattern of distinct nations and extensive borderlands contribute to the longer term history of the British Isles In this innovative analysis of a critical period in the history of the British Isles Michael Brown addresses these fundamental questions and shows how the national identities underlying the British state today are a continuous legacy of these years Using a chronological structure to guide the reader through the key periods of the era this book also identifies and analyses the following dominant themes throughout the changing nature of kingship and sovereignty and their links to wars of conquest developing ideas of community and identity key shifts in the nature of aristocratic societies across the isles the European context particularly the roots and course of the Hundred Years War This is essential reading for undergraduates studying the history of late Medieval Britain or Europe but will also be of great interest for anyone who wishes to understand the continuing legacy of the late medieval period in Britain The Black Prince and the Capture of a King Marilyn
