Phillips on Religious Language, Religious Truth, and God Hyoseok Kim, 2022-02-25 D Z Phillips 1934 2006 was one of the most influential ingenious and perhaps controversial thinkers in the Anglo American philosophy of religion In particular he is widely regarded as a leading proponent of a Wittgensteinian approach to the philosophy of religion While almost every book on religious language or Anglophone philosophy of religion deals with Phillips thought or at least mentions his name all too frequently his position has been grossly misunderstood and has often attracted unwarranted criticism from various sides Seeking to offer a constructive presentation and critical discussion of Phillips view of philosophy religious language religious truth and God Hyoseok Kim endeavors to resolve some misunderstandings refute undue criticisms of Phillips position and make some suggestions concerning directions in which his view might and ought to be further developed *Religion, Truth, and Social Transformation* Lambert Zuidervart, 2016-04-01 Reformational philosophy rests on the ideas of nineteenth century educator church leader and politician Abraham Kuyper and it emerged in the early twentieth century among Reformed Protestant

thinkers in the Netherlands Combining comprehensive criticisms of Western philosophy with robust proposals for a just society it calls on members of religious communities to transform harmful cultural practices social institutions and societal structures Well known for his work in aesthetics and critical theory Lambert Zuidervaart is a leading figure in contemporary reformational philosophy In *Religion Truth and Social Transformation* the first of two volumes of original essays from the past thirty years he forges new interpretations of art politics rationality religion science and truth In dialogue with modern and contemporary philosophers among them Immanuel Kant G F Hegel Martin Heidegger Theodor Adorno Jürgen Habermas and reformational thinkers such as Herman Dooyeweerd Dirk Vollenhoven and Hendrik Hart Zuidervaart explains and expands on reformational philosophy's central themes This interdisciplinary collection offers a normative critique of societal evil a holistic and pluralist conception of truth and a call for both religion and science to serve the common good Illustrating the connections between philosophy religion and culture and daring to think outside the box *Religion Truth and Social Transformation* gives a voice to hope in a climate of despair

Revival: Psychology and Religious Truth (1942) Thomas Hywel Hughes, 2018-04-20 An attempt is made in this book to open a new line of thought in theology with the aid of Psychology The author strives to throw light on the basic truths of religion from a new angle and to adopt a different attitude to that usually taken by theologians He believes that there is still more light which psychology can throw regarding these truths but its findings are not yet adequate nor sufficiently clear for this Here the lectures cover the bearing of psychology on The Origin of Religion The Idea of God Religious Life Religious Truth and Belief The Trinity The Person of Christ The Atonement and The Future Life

The Question of Theological Truth, 2012-01-01 In today's world the boundaries within which Christian theologians operate are becoming ever more permeable and Christian theology is increasingly influenced and challenged by multiple outside factors In Western Europe two such factors stand out in particular the so called turn to religion in continental philosophy and religious diversity Theologians working with contemporary continental philosophers and theologians engaging the multireligious world tend to work quite separately from one another The aim of the present book is therefore to initiate a conversation between these two groups of theologians The question of truth was chosen because it is both a key issue in

contemporary philosophical debates in the continental and analytic traditions and one that arises in complex and problematic ways in the praxis of and theoretical reflection on interreligious dialogue Some of the pressing questions that are addressed by the contributors to this volume are What is truth What is theological truth How does the issue of truth arise from interreligious encounter To what extent can or should the nature of truth be discussed explicitly during interreligious dialogue Or should the question of truth be rather postponed in the interest of successful interreligious encounter Is there a hermeneutical concept of truth and if so how can it be of help for theological reflection on the question of truth and on the role and place of truth in the context of dialogue between religions **The Truth of Religion** Rudolf Eucken,1913

Social Domains of Truth Lambert Zuidervart,2023-03-10 Truth is in trouble In response this book presents a new conception of truth It recognizes that prominent philosophers have questioned whether the idea of truth is important Some have asked why we even need it Their questions reinforce broader trends in Western society where many wonder whether or why we should pursue truth Indeed some pundits say we have become a post truth society Yet there are good reasons not to embrace the cultural Zeitgeist or go with the philosophical flow reasons to regard truth as a substantive and socially significant idea This book explains why First it argues that propositional truth is only one kind of truth an important kind but not all important Then it shows how propositional truth belongs to the more comprehensive process of truth as a whole This process is a dynamic correlation between human fidelity to societal principles and a life giving disclosure of society The correlation comes to expression in distinct social domains of truth where either propositional or nonpropositional truth is primary The final chapters lay out five such domains science politics art religion and philosophy Anyone who cares about the future of truth in society will want to read this pathbreaking book Demonstration of the Truth of the Christian Religion Alexander Keith,1838 **Science, Truth, Religion and Ethics as Foundations of a Rational Philosophy of Life** Harry Mann Gordin,1924
