Religion Civilization And Civil War Since 1945 An Empirical Study:

Religion, Civilization, and Civil War Jonathan Fox, 2004-01-01 In Religion Civilization and Civil War author Jonathan Fox carves out a new space of research and interrogation in conflict studies Covering over five decades this study provides the most comprehensive and detailed empirical analysis of the impact of religion and civilization on domestic conflict to date and will become a critical resource for both international relations and political science scholars

Religion, Civilization, and Civil War Jonathan Fox, 2004 In Religion Civilization and Civil War author Jonathan Fox carves out a new space of research and interrogation in conflict studies As a preeminent observer of religious trends on domestic conflicts Fox utilizes new statistical analysis in the Minorities at Risk MAR dataset which tracks several hundred politically active ethnic groups across the globe to examine the impact of religion and religious practice on rebellion protest discrimination and international intervention Fox also employs the State Failure SF dataset which tracks internal wars and failed governances Fox expertly uses this information to analyze ethnic wars mass killings and civil wars between 1948 and 2001 Covering over five decades this study provides the most comprehensive and detailed empirical analysis of the impact of religion and civilization on domestic conflict to date and will become a critical resource for both international relations and political science scholars Like his first book Ethnoreligious Conflict in the Late 20th Century A General Theory which was touted as closing gaps in the concept of ethnoreligious conflict Religion Civilization and Civil War provides the data to substantiate expand and transform the way scholars understand global conflict since World War Two

Eurasian Corridors of Interconnection Susan M. Walcott, Corey Johnson, 2013-11-12 Connectivity as well as conflict characterizes Eurasia This edited volume explores dynamic geopolitical and geo economic links reconfiguring spaces from the eastern edge of Europe through the western edge of Asia seeking explanation beyond description The ancient Silk Road tied together space much as pipelines railroads telecommunications infrastructure and similar cultural and constructed links ease the mobility of people and products in modern Eurasia This book considers Eurasia along an interlinked corridor with chapters illustrating the connections as a discussion foundation focusing on the shared interactions of a set of nation states through time and across space generating more positive considerations of the resurgently important region of Eurasia China's interests fall into three chapters the southeastern border with Vietnam the southwestern Himalayan edge and the western Muslim regions Russia's recovery relates events to a larger landmass context and focuses on the importance of historic mobility A geo history of the Caspian considers this petroleum rich area as a zone of cultural and economic interconnection The final focus on Central Asia treats the traditional heart of Eurasia The concluding chapter pulls together strands linking subregions for a new concept of Eurasia as an area linked by vital interests and overlapping histories

Religion and Human Security in Africa Ezra Chitando, Joram Tarusarira, 2019-01-23 Across diverse countries and contexts in Africa religion has direct implications for human security While some individuals and groups seek to manipulate and control through the deployment of religion

religious belief is also a common facet of those working towards peace and reconciliation. Despite the strategic importance of religion to human security in Africa, there are few contemporary publications that explore this issue on an international scale. This volume redresses that imbalance by examining religion's impact on human security across Africa. Written by an international team of contributors, this book looks in detail at the intersection of religion and security in a variety of African contexts. Case studies from a diverse set of countries including Nigeria, Ghana, South Africa, Burkina Faso, and more are used to illustrate wider trends across the continent. Acknowledging that religion can be used to incite violence as well as encourage peace, the chapters employ an interdisciplinary exploration of the ethics, sociology, and politics around these issues. This is a much-needed volume on religion's capacity to effect human security. It will therefore be of significant interest to any scholar of religious studies, African studies, political science, the sociology of religion, and anthropology, as well as peace, conflict, and reconciliation studies.

The Social Significance of Religion in the Enlarged Europe Olaf

Müller, 2016-02-24. Engaging with some of the central issues in the sociology of religion, this volume investigates the role and significance of churches and religion in contemporary Western and Eastern Europe. Based on an extensive international research project, it offers case studies of various countries including Finland, Ireland, Portugal, Germany, Poland, Russia, Estonia, Hungary, and Croatia, as well as cross-country comparisons. Researching more precisely the present social relevance of church and religion at different levels, *The Social Significance of Religion in the Enlarged Europe* raises and responds to both descriptive and explanatory questions: Can we observe tendencies of religious decline in the various Western and Eastern European countries? Are we witnessing trends of religious individualization? To what extent has there been a religious upswing in the last few years? And what are the factors causing the observed processes of religious change? Marked by its broad range of data and a coherent conceptual framework, in accordance with which each chapter assesses the extent to which three important theoretical approaches in the sociology of religion—secularization theory, the market model of religion, and the individualization thesis—are applicable to the data, this book will be of interest to scholars of sociology, politics, and religion exploring religious trends and attitudes in contemporary Europe.

Routledge Handbook of Civil Wars Edward Newman, Karl DeRouen, Jr., 2014-02-18. This comprehensive new Handbook explores the significance and nature of armed intrastate conflict and civil war in the modern world. Civil wars and intrastate conflict represent the principal form of organised violence since the end of World War II and certainly in the contemporary era. These conflicts have a huge impact and drive major political change within the societies in which they occur, as well as on an international scale. The global importance of recent intrastate and regional conflicts in Afghanistan, Pakistan, Iraq, Somalia, Nepal, Côte d'Ivoire, Syria, and Libya, amongst others, has served to refocus academic and policy interest upon civil war. Drawing together contributions from key thinkers in the field who discuss the sources, causes, duration, nature, and recurrence of civil wars, as well as their political meaning and international impact, the Handbook is

organised into five key parts Part I Understanding and Explaining Civil Wars Theoretical and Methodological Debates Part II The Causes of Civil Wars Part III The Nature and Impact of Civil Wars Part IV International Dimensions Part V Termination and Resolution of Civil Wars Covering a wide range of topics including micro level issues as well as broader debates Routledge Handbook of Civil Wars will set a benchmark for future research in the field This volume will be of much interest to students of civil wars and intrastate conflict ethnic conflict political violence peace and conflict studies security studies and IR in general *Handbook on Religion and International Relations* Haynes, Jeffrey, 2021-07-31 This comprehensive Handbook examines the relationship between religion and international relations mainly focusing on several world religions Christianity Islam Hinduism and Judaism Providing a timely update on this understudied topic it evaluates how this complex relationship has evolved over the last four decades looking at a variety of political contexts regions and countries **Church and Religion in Contemporary Europe** Gert Pickel, Olaf Müller, 2009-09-15 *Book Review Index Cumulation* Dana Ferguson, 2005-09 Book Review Index provides quick access to reviews of books periodicals books on tape and electronic media representing a wide range of popular academic and professional interests The up to date coverage wide scope and inclusion of citations for both newly published and older materials make Book Review Index an exceptionally useful reference tool More than 600 publications are indexed including journals and national general interest publications and newspapers Book Review Index is available in a three issue subscription covering the current year or as an annual cumulation covering the past year Scriptures, Shrines, Scapegoats, and World Politics Zeev Maoz, Errol A Henderson, 2020-03-19 The effect of religious factors on politics has been a key issue since the end of the Cold War and the subsequent rise of religious terrorism However the systematic investigations of these topics have focused primarily on the effects of religion on domestic and international conflict Scriptures Shrines Scapegoats and World Politics offers a comprehensive evaluation of the role of religion in international relations broadening the scope of investigation to such topics as the relationship between religion and cooperation religion and conflict and the relationship between religion and the quality of life Religion is often manipulated by political elites to advance their principal goal of political survival Zeev Maoz and Errol A Henderson find that no specific religion is either consistently more bellicose or consistently more cooperative than other religions However religious similarity between states tends to reduce the propensity of conflict and increase the opportunity for security cooperation The authors find a significant relationship between secularism and human security *GLOBAL SECURITY AND INTERNATIONAL POLITICAL ECONOMY - Volume I* P. Values - Politics - Religion: The

European Values Study Regina Polak, Patrick Rohs, 2023-07-18 This open access book analyses the international data of the European Values Study EVS 1990 2017 with a focus on the impact of religious on political values from empirical as well as theoretical perspectives i.e. sociology political and cultural studies philosophy ethics theology and the law It interprets results from interdisciplinary perspectives including the viewpoints of social ethics sociology and cultural studies law and practical theology In the political and public as well as media debates of the European Union the recourse to above all European and also Christian values has played a central and controversial role in the field of politics and religion for several decades This collection is a contribution to a qualified discourse on values in Europe by providing empirical hermeneutical and ethical criteria for a responsible use of the concept of values In addition to a comparison of political value systems in Western and Eastern Europe and the possible role of religion in this context the book also deals with topics such as f.i. solidarity economics and values value formation and law and values Additionally specific population groups such as the socio culturally marginalized strata are examined more closely Besides current scientific analyses and interpretations of interest to researchers from various disciplines this book also offers valuable impulses and suggestions for various multipliers in political civil society and religious organisations as well as a sound overview for graduate students

A Quarter Century of the "Clash of Civilizations" Jeffrey Haynes, 2021-05-11 The clash of civilizations focuses on conflict and cooperation between and within states Dealing with the clash is essential for a peaceful and harmonious world The clash of civilizations is a topic of great interest around the world and constitutes an important dimension of religion and international relations In the quarter century since Huntington first aired his controversial framework inter civilizational clash and dialogue have become mainstream issues both in international relations and in many Western countries domestic concerns The book examines a key question how does Samuel Huntington's clash of civilizations paradigm help explain current Western governments responses to Muslim migration and related security issues Understanding relations between the West Westerners and Muslim majority societies Muslims is impossible without being aware that right wing populist politicians in the West as well as some policy makers and commentators seem to view all Muslims in a malign way This indicates a lack of willingness to make a distinction between on the one hand the mass of moderate ordinary and peaceful Muslims and on the other hand a small minority of Islamist extremists and even smaller number of Islamist terrorists The result is a crucial topic of our times how do different civilizations coexist in a small and increasingly congested planet without conflict The chapters in this book were originally published as a special issue of The Review of Faith International Affairs

States and Peoples in Conflict Michael Stohl, Mark I. Lichbach, Peter Grabosky, 2017-04-07 This volume evaluates the state of the art in conflict studies Original chapters by leading scholars survey theoretical and empirical research on the origins processes patterns and consequences of most forms and contexts of political conflict protest repression and rebellion Contributors examine key pillars of conflict studies including civil war religious conflict ethnic conflict transnational conflict terrorism revolution

genocide climate change and several investigations into the role of the state The research questions guiding the text include inquiries into the interactions between the rulers and the ruled authorities and challengers cooperation and conflict accommodation and resistance and the changing context of conflict from the local to the global

Religion, Identity, and Global Governance Patrick James, 2011-01-01 This volume addresses essential themes in international relations today asking how we can establish when religious identity is a relevant factor in politics when and how religion can be applied to advance positive peace oriented agendas in global governance and how governments can reconsider their foreign and domestic policies

Democracy Protests Dawn Brancati, 2016-09-08 Why do democracy protests emerge in some countries at certain times but not in others Why do governments accommodate these protests undertaking sweeping reforms in some cases and in others find ways to suppress protests In *Democracy Protests* Brancati highlights the role of economic crises in triggering protests She argues that crises increase discontent with governments and authoritarianism in particular and also increase support for opposition candidates who are more likely to organize protests especially during election periods Economic crises are also shown to create chances for opportunists to capitalize on anti regime sentiment and mobilize support against governments However if crises are severe and protests concomitantly large governments are likely to be compelled to make accommodations with protestors regardless of their likelihood of retaining office Brancati's argument rests on a rich statistical analysis of the causes and consequences of democracy protests around the globe between 1989 and 2011 combined with qualitative case studies
