Dark Religion Vladislav Šolc, George J. Didier, 2018-12-01 Jungian analysts Vlado Solc and George J. Didier set out to explore the psychological dynamics and causes of religious fundamentalism and fanaticism The book offers an in depth psychological analysis of what happens when a person becomes possessed by the unconscious energies of the Self Dark Religion also reveals that spirituality is an inherent dimension of human life and one of its most essential needs It only becomes dark when it denies ignores or separates itself from its vital roots The authors coin the term dark religion to describe all forms of fanatical radical and extreme religions Their study shows how dark religion leads to profound conflicts on both the personal and cultural level including terrorism and wars surveys the vast contemporary cultural and religious landscapes All the while discovering the emergent forms of spiritual praxis in light of postmodernism and the rise of fundamentalism in the new millennium

The Ambivalence of the Sacred Scott R. Appleby, 2000 This text explains what religious terrorists and religious peacemakers share in common and what causes them to take different paths in fighting injustice

Where does religion end? Marcelo da Luz, 2017-08-31 The author's decision to leave religion after experiencing a profound growth crisis founded itself in the free action of one who after walking tenaciously has extinguished an existential possibility and reached a new realm of understanding about the realities of the consciousness and the universe The inner freedom encountered to make this kind of decision was the result of a gradual self confrontation This author perceived the necessity to dispel the fear associated with questioning his habitual suppositions and to look beyond the limits of the indoctrination he had received For a long time while still religious he named this fearlessness a quest for wisdom or the spirituality of an unsettled heart Nowadays in light of the experiences had he prefers to emphasize the courage to evolve which requires five years after the abjuration the assumption of speaking publicly about the dissidence that was effected When dissidents of ideologies or institutions start talking or writing about their experiences it is necessary to observe the kind of motivation and intention implicit in the decision made The former militant

the former integrant the former partisan the former something in spite of the effort to affirm that they are no longer part of the institution to which they once belonged may continue to define themselves based on the institution In this case the person is still a former in relation to what they intend to deny Perhaps in their eagerness to critically speak out about the reasons underlying their abandonment of a certain idea or organization they still flaunt the previous condition as a trophy unfurling the pride of being a former The ambiguity in question lies in the fact that the person's point of reference continues to be in the no longer desired way of living or thinking

Alternative Sociologies of Religion James V

Spickard, 2018-03-06 Uncovers what the sociology of religion would look like had it emerged in a Confucian Muslim or Native American culture rather than in a Christian one Sociology has long used Western Christianity as a model for all religious life As a result the field has tended to highlight aspects of religion that Christians find important such as religious beliefs and formal organizations while paying less attention to other elements Rather than simply criticizing such limitations James V Spickard imagines what the sociology of religion would look like had it arisen in three non Western societies What aspects of religion would scholars see more clearly if they had been raised in Confucian China What could they learn about religion from Ibn Khaldun the famed 14th century Arab scholar What would they better understand had they been born Navajo whose traditional religion certainly does not revolve around beliefs and organizations Through these thought experiments Spickard shows how non Western ideas understand some aspects of religions even of Western religions better than does standard sociology The volume shows how non Western frameworks can shed new light on several different dimensions of religious life including the question of who maintains religious communities the relationships between religion and ethnicity as sources of social ties and the role of embodied experience in religious rituals These approaches reveal central aspects of contemporary religions that the dominant way of doing sociology fails to notice Each approach also provides investigators with new theoretical resources to guide them deeper into their subjects The volume makes a compelling case for adopting a global perspective in the social sciences

Encounters for Change Dagmar Grefe, 2011-11-14

Weaving together insights from social psychology theology and experiences of interfaith religious leaders Dagmar Grefe develops practical strategies that support interreligious contact at a grassroots level She shows that by working together religious communities can more effectively address global and local problems that all people face poverty environmental destruction and armed conflict Grefe describes interreligious cooperation at work in local communities She develops tools that equip religious leaders with the interreligious competence needed for spiritual care and counseling with individual persons in crisis Cooperation is not only effective in the care for communities and persons in crisis it also heals distant and strained interreligious relationships In the process of working together perceptions of each other can transform

European Social Problems Stuart

Isaacs, 2017-06-26 European Social Problems is the first book to examine social issues in Europe from the perspective of the social sciences It considers many of these social problems following the UK's leave vote Key topics examined here include

immigration multiculturalism and religion health inequalities education riots and protest drugs and crime sexuality These core issues run as a thread through Europe and are experienced by Europeans themselves as social problems As such this text facilitates students direct engagement with some of the problematic constituents in their own lives This text is suitable for those studying social policy sociology politics international relations criminology and education studies In this way it functions as an accessible reader for final year undergraduates as well as postgraduate students

Under the Banner of Islam Gülay Türkmen,2021-01-22 Sunni Islam has played an ambivalent role in Turkey s Kurdish conflict both as a conflict resolution tool and as a tool of resistance Under the Banner of Islam uses Turkey as a case study to understand how religious ethnic and national identities converge in ethnic conflicts between co religionists G lay T rkmen asks a question that informs the way we understand religiously homogeneous ethnic conflicts today Is it possible for religion to act as a resolution tool in these often violent conflicts In search for answers to this question in Under the Banner of Islam T rkmen journeys into the inner circles of religious elites from different backgrounds non state appointed local Kurdish meles state appointed Kurdish and Turkish imams heads of religious NGOs and members of religious orders Blending interview data with a detailed historical analysis that goes back as far as the nineteenth century she argues that the strength of Turkish and Kurdish nationalisms the symbiotic relationship between Turkey s religious and political fields the religious elites varying conceptualizations of religious and ethnic identities and the recent political developments in the region particularly in Syria all contribute to the complex role religion plays in the Kurdish conflict in Turkey Under the Banner of Islam is a specific story of religion ethnicity and nationalism in Turkey s Kurdish conflict but it also tracks a broader narrative of how ethnic and religious identities are negotiated when resolving conflicts

Quoting God Claire Badaracco,2005 *Quoting God* charts the many ways in which media reports religion news how media uses the quoted word to describe lived faith and how media itself influences and is influenced by religion in the public square The volume intentionally brings together the work of academics who study religion as a crucial factor in the construction of identity and the work of professional journalists who regularly report on religion in an age of instant and competitive news This book clearly demonstrates that the relationship between media culture and spiritual culture is foundational and multi directional that the relationship between news values and religion in political life is influential and that the relationship amongst modernity belief and journalism is pivotal

Buddhist and Protestant Korean Immigrants Okyun Kwon,2003 Kwon explores how Korea s two major religious groups Buddhists and Protestants have emigrated and how their religious beliefs affect their adjustments after immigration Kwon bases his study on a survey of 114 Korean congregations participatory observation of a Buddhist temple and a Protestant church and in depth interviews with 109 devout immigrants He finds that non religious variables urban background educational level and social class have a greater effect on adjustment to the host society than religion does Religious congregations promote members social capital for adjustment but at the same religious participation serves as a

barrier to assimilation **Reforging the White Republic** Edward J. Blum, 2015-06-15 During Reconstruction former abolitionists in the North had a golden opportunity to pursue true racial justice and permanent reform in America But after the sacrifice made by thousands of Union soldiers to arrive at this juncture the moment soon slipped away leaving many whites throughout the North and South more racist than before Edward J Blum takes a fresh look at the reasons for this failure in *Reforging the White Republic* focusing on the vital role that religion played in reunifying northern and southern whites into a racially segregated society A blend of history and social science *Reforging the White Republic* offers a surprising perspective on the forces of religion as well as nationalism and imperialism at a critical point in American history

Dynamics of Contention Doug McAdam, Sidney Tarrow, Charles Tilly, 2001-09-10 In recent decades the study of social movements revolution democratization and other non routine politics has flourished And yet research on the topic remains highly fragmented reflecting the influence of at least three traditional divisions The first of these reflects the view that various forms of contention are distinct and should be studied independent of others Separate literatures have developed around the study of social movements revolutions and industrial conflict A second approach to the study of political contention denies the possibility of general theory in deference to a grounding in the temporal and spatial particulars of any given episode of contention The study of contentious politics are left to area specialists and or historians with a thorough knowledge of the time and place in question Finally overlaid on these two divisions are stylized theoretical traditions structuralist culturalist and rationalist that have developed largely in isolation from one another This book was first published in 2001 **Social Movements, 1768 - 2012** Charles Tilly, Lesley J. Wood, 2015-12-22 The updated and expanded third edition of Tilly's widely acclaimed book brings this analytical history of social movements fully up to date Tilly and Wood cover such recent topics as the economic crisis and related protest actions around the globe while maintaining their attention to perennially important issues such as immigrants rights new media technologies and the role of bloggers and Facebook in social movement activities With new coverage of colonialism and its impact on movement formation as well as coverage and analysis of the 2011 Arab Spring this new edition of *Social Movements* adds more historical depth while capturing a new cycle of contention today New to the Third Edition Expanded discussion of the Facebook revolution and the significance of new technologies for social movements Analysis of current struggles including the Arab Spring and pro democracy movements in Egypt and Tunisia Arizona's pro and anti immigration movements the Tea Party and the movement inspired by Occupy Wall Street Expanded discussion of the way the emergence of capitalism affected the emergence of the social movement

A History of Christianity in Asia, Vol. II Samuel Hugh Moffett, 2014-07-30 The story of Christianity in the West has often been told but the history of Christianity in the East is not as well known The seed was the same the good news of Jesus Christ for the whole world which Christians call the gospel But it was sown by different sowers it was planted in different soil it grew with a different flavor and it was gathered by different reapers It is too often forgotten that the faith

moved east across Asia as early as it moved west into Europe Western church history tends to follow Paul to Philippi and to Rome and on across Europe to the conversion of Constantine and the barbarians With some outstanding exceptions only intermittently has the West looked beyond Constantinople as its center It was a Christianity that has for centuries remained unashamedly Asian A History of Christianity in Asia makes available immense amounts of research on religious pluralism of Asia and how Christianity spread long before the modern missionary movement went forth in the shelter of Western military might Invaluable for historians of Asia and scholars of mission it is stimulating for all readers interested in Christian history

as aspects of the country's politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Uzbekistan **Edward Said's Rhetoric of the Secular** Mathieu E. Courville, 2011-10-20 Edward Said's Rhetoric of the Secular provides an important new reading of Edward W Said's work emphasizing not only the distinction but also the fuzzy borders between representations of the religious and the secular found within and throughout his oeuvre and at the core of some of his most customary rhetorical strategies Mathieu Courville begins by examining Said's own reflections on his life before moving on to key debates about Said's work within Religious Studies and Middle Eastern Studies and his relationship to French critical theorists Through close attention to Said's use of the literal and the figurative when dealing with religious national and cultural matters Courville discerns a pattern that illuminates what Said means by secular Said's work shows that the secular is not the utter opposite of religion in the modern globalized world but may exist in a productive tension with it Encyclopedia of Hinduism Constance Jones, James D. Ryan, 2006 An illustrated A to Z reference containing more than 700 entries providing information on the theology people historical events institutions and movements related to Hinduism
