those traditions By focusing on philosophical questions each reader should be challenged to do their own investigations that may reveal the heart of these traditions Another stance that this project takes that distinguishes it from other texts in the discipline is that it advocates an inclusivist perspective regarding the world religions Pluralism which is the predominate assumption today ends either in contradiction or in the development of a metatheory that dismisses crucial distinctions between the various traditions or eliminates some ancient religions because they do not fit the metatheory By taking an open inclusivist approach all religious traditions may engage at the table of dialogue The final essay is about justice and social affairs While that discussion is couched within the context of a particular tradition each religious tradition must have the discussion But it must be more than an intrareligious dialogue it must become an interreligious dialogue The Wiley Blackwell Companion to Religion and Ecology John Hart, 2017-05-30 In the face of the current environmental crisis which clearly has moral and spiritual dimensions members of all the world's faiths have come to recognize the critical importance of religion's relationship to ecology The Wiley Blackwell Companion to Religion and Ecology offers a comprehensive overview of the history and the latest developments in religious engagement with environmental issues throughout the world Newly commissioned essays from noted scholars of diverse faiths and scientific traditions present the most cutting edge thinking on religion's relationship to the environment Initial readings explore the ways traditional concepts of nature in Christianity Judaism Islam Buddhism and other religious traditions have been shaped by the environmental crisis Readings then address the changing nature of theology and religious thought in response to the challenges of protecting the environment Various conceptual issues and themes that transcend individual traditions climate change bio ethics social justice ecofeminism and more are then analyzed before a final section examines some of the immediate challenges we face in caring for the Earth while looking to the future of religious environmentalism Timely and thought provoking Companion to Religion and Ecology offers illuminating insights into the role of religion in the ongoing struggle to secure the future well being of our natural world With a foreword by Ecumenical Patriarch Bartholomew I and an Afterword by John Cobb **Traditional Churches, Born Again Christianity, and Pentecostalism** Yonatan N. Gez, 2018-09-08 In Kenya's vibrant urban religious landscape where Pentecostal and traditional churches of various orientations live side by side religious identity tends to overflow a single institutional affiliation While Kenya's Christianity may offer modes of coping with the fragilities of urban life it is subject to repeated crises and schisms often fueled by rumors and accusations of hypocrisy In order to understand the unfolding of Kenyans' dynamic religious identities and inspired by the omnipresent distinction between religious membership and church visits Yonatan N. Gez considers the complementary relations between a center of religious affiliation and expansion towards secondary practices Building on this basic distinction the book develops a theoretical innovation in the form of the religious repertoire model which maps individuals' religious identities in terms of three intertwined degrees of practice *Religions in the Modern World* Linda Woodhead, Christopher Partridge, Hiroko Kawanami, 2016-01-13 Religions

in the Modern World Traditions and Transformations Third Edition is the ideal textbook for those coming to the study of religion for the first time as well as for those who wish to keep up to date with the latest perspectives in the field This third edition contains new and upgraded pedagogic features including chapter summaries key terms and definitions and questions for reflection and discussion The first part of the book considers the history and modern practices of the main religious traditions of the world while the second analyzes trends from secularization to the rise of new spiritualities Comprehensive and fully international in coverage it is accessibly written by practicing and specialist teachers Singing with the Dogon Prophet Walter E.A. van Beek,Oumarou S. Ongoiba,Atimè D. Saye,2022-04-25 In the Dogon funeral proceedings a major song cycle called baja ni is performed in a session of at least seven hours The texts of the chants are attributed to a legendary figure called Abir who as a blind singer in the nineteenth century roamed the heartland of the Dogon The baja ni songs have escaped scholarly attention thus far Singing with the Dogon Prophet by Walter E A van Beek Oumarou S Ongoiba and Atim D Saye provides their first publication in English as well as an analysis of these songs These texts deal with the relations between man and woman man s ambivalent dependency on the otherworld and with life and death the whole night performance is one of the high points of the funeral Additionally Abir is a prophet and during his life has uttered a great number of prophecies on a wide range of topics from local issues to the relation of the Dogon with the Fulbe herdsman and from the arrival of the colonials to ecological transformation This book examines how these prophecies with these songs offer an inside view of the way the Dogon construct the present in a continuous dialogue with their past and their projected future

Re-imagining African Christologies Victor I. Ezigbo,2010-02-08 Who do you say that I am Mark 8 29 is the question of Christology By asking this question Jesus invites his followers to interpret him from within their own contexts history experience and social location Therefore all responses to Jesus s invitation are contextual But for too long many theologians

particularly in the West have continued to see Christology as a universal endeavor that is devoid of any contextual influences. This understanding of Christology undermines Jesus's expectations from us to imagine and appropriate him from within our own contexts. In *Reimagining African Christologies*, Victor I. Ezigbo presents a constructive exposition of the unique ways that many African theologians and lay Christians from various church denominations have interpreted and appropriated Jesus Christ in their own contexts. He also articulates the constructive contributions that these African Christologies can make to the development of Christological discourse in non-African Christian communities. **Faith in African Lived Christianity**

,2019-09-16 *Faith in African Lived Christianity: Bridging Anthropological and Theological Perspectives* offers a comprehensive empirically rich and interdisciplinary approach to the study of faith in African Christianity. The book brings together anthropology and theology in the study of how faith and religious experiences shape the understanding of social life in Africa. The volume is a collection of chapters by prominent Africanist theologians, anthropologists, and social scientists who take people's faith as their starting point and analyze it in a contextually sensitive way. It covers discussions of positionality in the study of African Christianity, interdisciplinary methods and approaches, and a number of case studies on political, social, and ecological aspects of African Christian spirituality. *The Gender of Piety*, Wendy Urban-Mead, 2015-07-15. *The Gender of Piety* is an intimate history of the Brethren in Christ Church in Zimbabwe or BICC as related through six individual life histories that extend from the early colonial years through the first decade after independence. Taken together, these six lives show how men and women of the BICC experienced and sequenced their piety in different ways. Women usually remained tied to the church throughout their lives, while men often had a more strained relationship with it. Church doctrine was not always flexible enough to accommodate expected masculine gender roles, particularly male membership in political and economic institutions or participation in important male communal practices. The study is based on more than fifteen years of extensive oral history research supported by archival work in Zimbabwe, the United Kingdom, and the United States. The oral accounts make it clear, official versions to the contrary, that the church was led by spiritually powerful women and that maleness and mission church notions of piety were often incompatible. The life history approach illustrates how the tension of gender roles both within and without the church manifested itself in sometimes unexpected ways, for example, how a single family could produce both a legendary woman pastor credited with mediating multiple miracles and a man, her son, who joined the armed wing of the Zimbabwe African People's Union nationalist political party and fought in Zimbabwe's liberation war in the 1970s. Investigating the lives of men and women in equal measure, *The Gender of Piety* uses a gendered interpretive lens to analyze the complex relationship between the church and broader social change in this region of southern Africa.
