Religion In Radical Transition:

Religion in Radical Transition Jeffrey K. Hadden, 1973-01-01 Religion in Radical Transition. Edited by Jeffrey K. Hadden Jeffrey K. Hadden, **Religion and Psychology in Transition** James W. Jones, 2008-10-01 In this thought provoking book clinical psychologist and professor of religious studies James W. Jones presents a dialogue between contemporary psychoanalytic thinking and contemporary theology. He sheds new light on the interaction of religion and psychology by viewing it from the perspective of world religions, providing an epistemological framework for the psychology of religion that draws on contemporary philosophy of science and bringing out the importance of gender as a category of analysis. Developments in psychoanalysis provide new resources for theological reflection. Jones contends the Freudian view that human nature is isolated and instinctual has shifted to a vision of the self as constituted in and through relationships. Jones uses this relational model of human nature to explore the convergence between contemporary psychoanalysis, feminist theorizing, and themes in religious thought found in a variety of traditions. He also critiques the reductionism inherent in Freud's discussion of religion and proposes nonreductionistic and genuinely psychoanalytic ways for psychoanalysis to treat religious topics. For therapists, psychologists, theologians, and others interested in spiritual or psychological issues, Jones offers illuminating clinical material and insightful analysis. *Transitions and Transformations in the History of Religions* Reynolds, T. H. M. Ludwig, 2018-11-13 **Transitions and Transformations in the History of Religions** Joseph Mitsuo Kitagawa, Frank E. Reynolds, Theodore M. Ludwig, 1980-01-01 **Self and Self-Transformation in the History of Religions** David Shulman, Director of the Institute for Advanced Studies, Guy S. Stroumsa, Martin Buber Professor of Comparative Religion, both at Hebrew University of Jerusalem, 2002-03-18 This book brings together scholars of a variety of the world's major civilizations to focus on the universal theme of inner transformation. The idea of the self is a cultural formation like any other, and models and conceptions of the inner world of the person vary widely from one civilization to another. Nonetheless, all the world's great religions insist on the need to transform this inner world. Such transformations often ritually enacted, reveal the primary intuitions, drives, and conflicts active within the culture. The individual essays study dramatic examples of these processes in a wide range of cultures, including China, India, Tibet, Greece, and Rome. Late Antiquity, Islam, Judaism, and medieval and early modern Christian Europe. **Self and Self-transformation in the History of Religions** David Dean Shulman, Guy G. The Learned Practice of Religion in the Modern University

Donald Wiebe, 2019-11-14 In these essays Donald Wiebe unveils a significant problem in the academic study of religion in colleges and universities in North America and Europe that studies almost always exhibit a religious bias To explore this issue Wiebe looks at the religious and moral agendas behind the study of religion showing that the boundaries between the objective study of religion and religious education as a tool for bettering society have become blurred As a result he argues religious studies departments have fostered an environment where religion has become a learned or scholarly practice rather than the object of academic scrutiny This book provides a critical history of the failure of 20th and 21st century scholars to follow through on the 19th century ideal of an objective scientific study of religious thought and behaviour Although emancipated from direct ecclesiastical control and to some extent from sectarian theologizing Wiebe argues that research and scholarship in the academic department of religious studies has failed to break free from religious constraints He shows that an objective scientific study of religious thought and practice is not only possible but the only appropriate approach to the study of religious phenomena

Religion and Politics in the United States

Kenneth D. Wald, Allison Calhoun-Brown, 2018-01-23 Using an evidenced based social scientific approach to religion Kenneth D Wald and Allison Calhoun Brown challenge the perception that religious influence in American politics is a problem to be solved Instead they contend that religion is a form of social identification that not only shapes our ideas about politics but it also shapes the behavior of political elites and ordinary citizens the interpretation of public laws and the development of government programs Ultimately the authors show how religion plays a fascinating and crucial role in our nation s political process and in our culture at large The eighth edition of Religion and Politics in the United States has been fully updated to include the latest scholarship and coverage of the 2016

presidential election It also features a new discussion of the religious right center and left as well as the impact of religion on the fight for equality based on gender and sexual orientation Additional student resources include all new discussion questions and further readings at the end of each chapter as well as a companion website featuring self quizzes *Research in the Social Scientific Study of Religion, Volume 13* Ralph L.
