Ogden,2018-11-06 As artists not uncommonly keep sketchbooks so thinkers often write notebooks Schubert Ogden is a thinker for whom writing notebooks has been an essential discipline throughout his long career of trying to think

as a Christian systematic theologian By his own confession constantly writing down his thoughts so he could discover what he wanted to think has always been as necessary to learning how to think theologically as constantly reading in order to think fruitfully with the minds of others This volume is a selection from the indefinitely larger corpus of Ogden s notebooks now archived in the Drew University Library All arising from his thinking as a theologian the entries selected are addressed to some of the more fundamental and therefore mainly philosophical issues now facing anyone who would do Christian theology systematically While each entry stands on its own and may well be read discretely they together make up a single many sided argument for a distinctive way of doing theology today by resolutely pursuing a comparably distinctive way of doing metaphysics and ethics *African Initiated Churches Facing HIV and AIDS in Zimbabwe* Ezra Chitando,2021-07-07

This book examines the responses of African Initiated Churches to HIV in Zimbabwe It describes the changing attitudes of African Initiated Churches to the pandemic exploring the adjustments that have been undertaken to both doctrine and practice within the movement The contributors show how the rigidity that often characterizes African Initiated Churches such as opposing the use of condoms insisting on polygamy and insisting exclusively on faith healing have gradually given way to more constructive approaches to HIV and AIDS Religious Studies Gregory D. South African Journal of Philosophy ,2004 Religion in Southern Africa ,1985 The Pragmatics of Defining Religion Platvoet, Arie Molendijk, 2018-11-13 This volume promotes a pragmatic anti essentialist and anti hegemonic approach to the problem of the definition of religion It argues that definitions of religion are context bound strategies for pursuing a variety of purposes extra academic as well as academic Religions being immensely varied complex and multi functional phenomena they need to be studied by several academic disciplines from many different perspectives It is therefore legitimate and useful that many definitions of religions are developed The volume has contributions from scholars in Philosophy of Religion the Comparative Study of Religions Anthropology of Religion Sociology of Religion and Psychology of Religion It has chapters on the polemics of defining religion in modern contexts the history of the concept of religion and the methodology of its definition it includes several definition proposals **Biblical Studies, Theology, Religion and Philosophy** N.

Amanze, 2012-06-28 This book introduces the study of Biblical studies theology religion and philosophy from an African perspective The book comprises twenty six chapters divided into four sections The first section deals with Biblical studies the second with theology the third with religion and the fourth with philosophy The contributions are from 20 eminent scholars from African and Caribbean universities Journal for the Study of Religion ,2005 **Reinventing Religion** Peter

Moore, 2020-10-07 Many of us proponents and critics alike commonly make assumptions about religion We may presume that

religion is mainly about having beliefs or being good or that it is concerned with spiritual rather than material issues or that religious ideas and practices are meant to be somehow timeless Such views Peter Moore argues work only to obscure the truth that religion is essentially humanity's quest to become fully human This enlightening exposition questions our very understanding of faith and contends that religions should remain open to reinventing themselves both practically and intellectually rediscovering neglected traditions and finding new ways forward Written with subtlety and passion this book gets to the heart of ongoing debates about the validity and purpose of religion *Philosophy of Religion in the Twenty-First Century* D. Phillips, T. Tessin, 2001-10-25 This book offers the rare opportunity to assess within a single volume the leading schools of thought in contemporary philosophy of religion Their exponents seek to meet objections made to their point of view and to relate it to the other schools represented Further discussions between adherents of the different schools make it an ideal text for assessing the deep proximities and divisions which characterize contemporary philosophy of religion The schools of thought represented are Philosophical Theism Reformed Epistemology Wittgensteinianism Postmodernism Critical Theory and Process Thought *An Introduction to the Phenomenology of Religion* James Cox, 2010-02-10 In this thoroughly revised edition James Cox provides an easily accessible introduction to the phenomenology of religion which he contends continues as a foundational method for the academic study of religion in the twenty first century After dealing with the problematic issue of defining religion he describes the historical background to phenomenology by tracing its roots to developments in philosophy and the social sciences in the early twentieth century The phenomenological method is then outlined as a step by step process which includes a survey of the important classifications of religious behaviour The author concludes with a discussion of the place of the phenomenology of religion in the current academic climate and argues that it can be aligned with the growing scholarly interest in the cognitive science of religion
