Phenomenology of Religion Archana Barua, 2009-01-01 Out of the wide variety of themes covered by Husserl's phenomenology and later developed by Heidegger Merleau Ponty and others in different possible directions the present work attempts to indicate the few features of the method that derives from Edmund Husserl's basic themes of the phenomenological movement and its methodology Barua explores the manner in which this method has been applied to the study of art and religion by other phenomenologists and accordingly introduces the problem of this profound bulk namely the phenomenological approach to religion mostly in their terms

The Comic Vision and the Christian Faith Conrad Hyers, 2003-10-15 Is comedy an inconsequential part of life useful primarily for relaxation and escape Conrad Hyers asserts that comedy is central to all aspects of existence In *The Comic Vision and the Christian Faith* Hyers offers the first detailed study of the special

significance of comic and religious themes to show that the comic tradition enriches and informs as well as entertains. Maintaining that comedy constitutes its own mythology, Hyers examines the great array of comic figures: tricksters, clowns, jesters, fools, humorists, comedians, and the like, and shows their historical significance in giving meaning to the major issues with which humankind has been concerned. Finally, Hyers shows us that when we appreciate the importance of the comic vision, we gain a keener, fresher, and more meaningful outlook.

Ninian Smart on World Religions: Religious experience and philosophical analysis. I. Autobiographical. 'Methods in my life' Ninian Smart, 2009. The editor, John Shepherd, was Principal Lecturer in Religion and Philosophy at the University of Cumbria. The Sacred and its Scholars Idinopulos, Yonan, 1996-10-01. This volume of essays is devoted to a careful examination of the importance of methodology in the study of primary religious data. The essays focus on the Sacred as an ultimate object of descriptive analysis and critical scrutiny on the part of a select number of North American and European methodologists in the study and teaching of the history of religions and its allied disciplines. The central question to which the contributors respond are these: What is the Sacred? Is it a being or a concept of a being? Is it a mental state or an objective reality or something else entirely? Can the Sacred be described as an empirical fact or as a formal rule for religious inquiry? If the Sacred is a valid category in the study and teaching of religion, then what can be said about the antithesis of the sacred, namely the profane or the secular? This volume probes these questions with great

care in order to justify a number of ways the Sacred can be construed as an indispensable notion for the study and teaching of religion **Syncretism in Religion** Anita Maria Leopold, Jeppe Sinding Jensen, 2016-05-06 Long a fascinating but problematic category of religious studies syncretism is an elastic term that describes a wide range of practices characterized by the mixing or overlap of traditions Syncretism in Religion offers the student a broad selection of essays both classical contributions to the study of syncretism and new essays commissioned especially for this volume Some important selections appear here in English for the first time Also included is a list of references for further reading **Dreams and Dream**
