Religion In Modern Times An Interpretive Anthology:

Religion in Modern Times Linda Woodhead, Paul Heelas, 2000-04-07 This book brings together over 300 important readings on religion in modern times offering a new framework and language for making sense of religion today *Religion in Modern Times* Linda Woodhead, Paul Heelas, 2000-04-07 This book brings together over 300 important readings on religion in modern times offering a new framework and language for making sense of religion today **Religions of Modernity** Stef Aupers, Dick Houtman, 2010 Religions of Modernity challenges the social scientific orthodoxy that once unleashed the modern forces of individualism science and technology inevitably erode the sacred and evoke the profane The book's chapters some by established scholars others by junior researchers document instead in rich empirical detail how modernity relocates the sacred to the deeper layers of the self and the domain of digital technology Rather than destroying the sacred tout court then the cultural logic of modernization spawns its own religious meanings unacknowledged spiritualities and magical enchantments The editors argue in the introductory chapter that the classical theoretical accounts of modernity by Max Weber Emile Durkheim and others already hinted at the future emergence of these religions of modernity **Religion in the Media Age** Stewart M. Hoover, 2006-11-22 Looking at the everyday interaction of religion and media in our cultural lives Religion in the Media Age is an exciting new assessment of the state of modern religiosity Modernities, Memory and Mutations Abby Day, Mia Lövhelm, 2016-03-03 Grace Davie one of the world's most influential scholars in contemporary sociology of religion has furthered a tradition developed by David Martin and others in comparative sociology of religion and modernity in European and international perspective Davie's writings on belief and belonging particularly in a context outside active Church participation have contributed important understandings of the cultural role of religion as memory and practice in contemporary European societies Through her most recent work on new roles of religion in relation to the political legal and welfare sectors of society she has addressed debates on the resurgence of religion and the post secular condition Modernities Memory and Mutations presents an overview and critical engagement with contemporary themes in the sociology of religion which will inform current and forthcoming generations of scholars Reflecting on how Grace Davie's contributions have influenced their own work and wider debates in the field leading international scholars engage with themes Davie has critically explored across religious studies and mainstream sociology evolving a new research agenda for sociology of religion *Being Catholic in the Contemporary Philippines* Jayeel Serrano Cornelio, 2016-06-23 This book based on extensive original research examines the nature of Catholicism in the contemporary Philippines It shows how Catholicism is apparently flourishing with good attendance at Sunday Masses impressive religious processions and flourishing charismatic groups and with interventions by the Catholic hierarchy in national and local politics However focusing in particular on the beliefs and practices of young people the book shows that young people are often adopting a different more individualised approach to Catholicism which is frequently out of step with the official position It considers the features of

this a more personal and experiential relationship with God a new approach to morality in which right living is seen as more important than right believing and a critical view of what is seen as the Catholic hierarchy's misguidedness The book argues that this reinterpreting of religion by young people has the potential to alter fundamentally the nature of Catholicism in the Philippines but that nevertheless young people's new approach involves a solid enduring commitment and a strong view of their own Catholic religious identity

Religion in the Neoliberal Age François Gauthier, 2016-04-08 This book together with a complementary volume Religion in Consumer Society focuses on religion neoliberalism and consumer society offering an overview of an emerging field of research in the study of contemporary religion Claiming that we are entering a new phase of state religion relations the editors examine how this is historically anchored in modernity but affected by neoliberalization and globalization of society and social life Seemingly distant developments such as marketization and commoditization of religion as well as legalization and securitization of social conflicts are transforming historical expressions of religion and religiosity yet these changes are seldom if ever understood as forming a coherent structured and systemic ensemble Religion in the Neoliberal Age includes an extensive introduction framing the research area and linking it to existing scholarship before looking at four key issues 1 How changes in state structures have empowered new modes of religious activity in welfare production and the delivery of a range of state services 2 How are religion state relations transforming under the pressures of globalization and neoliberalism 3 How historical churches and their administrations are undergoing change due to structural changes in society and what new forms of religious body are emerging 4 How have law and security become new areas for solving religious conflicts Outlining changes in both the political institutional and cultural spheres the contributors offer an international overview of developments in different countries and state of the art representation of religion in the new global political economy

The Oxford Handbook of the Study of Religion Michael Stausberg, Steven Engler, 2016 The Oxford Handbook of the Study of Religions provides a comprehensive overview of the academic study of religions Written by an international team of leading scholars its fifty one chapters are divided thematically into seven sections The first section addresses five major conceptual aspects of research on religion Part two surveys eleven main frameworks of analysis interpretation and explanation of religion Reflecting recent turns in the humanities and social sciences part three considers eight forms of the expression of religion

Part four provides a discussion of the ways societies and religions or religious organizations are shaped by different forms of allocation of resources i.e. economy. Other chapters in this section consider law, the media, nature, medicine, politics, science, sports, and tourism. Part five reviews important developments, distinctions, and arguments for each of the selected topics. The study of religion addresses religion as a historical phenomenon, and part six looks at seven historical processes. Religion is studied in various ways by many disciplines, and this Handbook shows that the study of religion is an academic discipline in its own right. The disciplinary profile of this volume is reflected in part seven, which considers the history of the discipline and its relevance. Each chapter in the Handbook references at least two different religions to provide fresh and innovative perspectives on key issues in the field. This authoritative collection will advance the state of the discipline and is an invaluable reference for students and scholars.

A New Old Spirituality? Tone Stangeland Kaufman, 2017-07-11. How do pastors live their spiritual lives both as private persons and as professionals? How can their spirituality be characterized and understood? Drawing on in-depth interviews with Norwegian clergy as well as literature from the fields of Christian spirituality, practical theology, congregational studies, and the sociology of religion, this book offers a nuanced understanding of clergy spirituality. Tone Stangeland Kaufman identifies three locations and sources of spiritual nurture for pastors: the ministry itself, vocational spirituality, daily life, everyday spirituality, and spiritual practices located at the margins of daily life, intentional spirituality. The participants in this study engage in classic Christian practices yet approach them in a subjective and new way that also potentially revitalizes their spiritual lives. Hence, the author makes the case that their spirituality can aptly be described as a new old spirituality. The book also seeks to nuance Paul Heelas's and Linda Woodhead's *Spiritual Revolution* claim and thus engages in the broader spirituality vs. religion discourse. *A New Old Spirituality* is an exciting example of how qualitative empirical research can be used in creative ways to make a practical theological argument. It is a book for scholars, students, and practitioners.

Political Religion, Everyday Religion: Sociological Trends Pål Repstad, 2019-04-09. As the title suggests, *Political Religion, Everyday Religion: Sociological Trends* reflects upon two important trends that have recently emerged in the sociology of religion. Firstly, there is an increasing interest in the interplay between religion and politics. Religion has moved from being almost ignored by sociologists to being acknowledged, some would even say overrated, as an important political factor. Secondly,

ordinary people's everyday religion has likewise become an important topic for many researchers. In this book James Beckford, Inger Furseth and other prominent scholars present critical discussions and empirical studies of both political and everyday religion and the editor Pål Repstad shows how these two trends should enter into a closer dialogue. The book is essential for both students and experienced researchers in the sociology of religion. Contributors are James A. Beckford, Inger Furseth, Kristina Grundetjern, Jan Olav Henriksen, Ida Marie Heg Nils Martinus Justvik, Bjarte Leer, Helgesen Paul, Leer Salvesen, Anne L. vland, Tomas Rasmussen, Pål Repstad, Tale Steen Johnsen and Irene Trysnes. Religion, Media and Culture: A Reader Gordon Lynch, Jolyon Mitchell, Anna Strhan, 2012-02-13. This major new reader introduces students to the new and growing field of religion and everyday culture. *Secular Music, Sacred Space* April Stace, 2017-06-13. Easter Sunday 2009 was the Sunday heard round the evangelical internet NewSpring Church, the second largest church in the Southern Baptist Convention and among the top one hundred largest churches in the US, had begun their service with the song Highway to Hell by hard rock band AC/DC. They had brazenly crossed the sacred/secular musical divide on the most important Sunday of the year and commentary abounded on the value of such a step. Many were offended at the desecration of such a holy day, deriding NewSpring as the theater of the absurd. Others cheered NewSpring's engagement with the culture and suggested that music could be used to convert non-Christians. No mere debate over stylistic preferences; many expressed that foundational aspects of evangelical identity were at stake. While many books have been written about religious music that utilizes popular music styles, aka contemporary Christian music, there has yet to be a scholarly treatment of how and why popular/secular music is utilized by churches. This book addresses that lacuna by examining this emerging trend in evangelical and emerging churches in America. What is the motivation behind using music that seemingly has no connection to Christian theology, values or themes such as music by Katy Perry, AC/DC or Van Halen, and what can we learn about post-denominational evangelical churches in America by uncovering these motives? In this book April Stace uncovers several themes from an ethnographic study of these churches: the increasingly porous boundary between the sacred and the secular; the importance placed on authenticity in contemporary American culture; how evangelicals are responding to what they perceive is an increasingly secular society; the turn to the subject of contemporary culture; the desire to leave a space for expression of doubt in the worship service without fully authorizing that doubt; and the individualization of the construction of religious identity in the modern era. *Promising Practices: Women Volunteers in Contemporary Japanese Religious Civil Society* Paola Cavaliere, 2015-01-27. Based upon a survey of five faith-based volunteer groups, *Promising Practices* offers valuable insights and fresh perspectives into the ways women's participation in religious/civic organizations may work as a gateway toward participatory democracy. By approaching women's faith-based volunteering as a social practice, the book engages with three of the most important dimensions of civil society: gender, religion, and democracy. Cavaliere teases out the complexity of interactions among these three dimensions of civic life through stories of individual women who volunteer for

three different religious organizations The volume examines how faith based volunteering is experienced by women in contemporary Japan and how it becomes a site of empowering and disempowering practices through which women balance the benefits and the costs of personal shifts socio economic changes and democratic transformation **Faith Schools** Roy Gardner, Denis Lawton, Jo Cairns, 2005 Provides an accessible overview of the debates issues and practicalities of faith based education It sets out the challenges and opportunities of different approaches to faith schools and addresses the choices faced by parents Post-Secular Society Gustaaf Geeraerts, 2017-07-28 Post Secular Society argues for several characteristics of the secular the experience of living in a secular age and the experience of living without religion as a normal condition Religion in the West is often seen as marked by both innovation and disarray In spite of differing approaches and perspectives of secularization rational choice and de secularization many scholars agree that the West is experiencing a general resurgence of religion across most Western societies Post Secular Society discusses the changes in religion related to globalization and New Age forms of popular religion The contributors review religion that is rooted in the globalized political economy and the relationship of post secularism to popular consumer culture Also reviewed is innovative discourse as a religious belief system theories of the post secular religious and spiritual well being and healing practices in Finland and environmentalism This paperback edition includes a new preface by Peter Nynas **Religious Pluralism and the City** Helmuth Berking, Silke Steets, Jochen Schwenk, 2018-04-05 Religious Pluralism and the City challenges the notion that the city is a secular place and calls for an analysis of how religion and the city are intertwined It is the first book to analyze the explanatory value of a number of typologies already in use around this topic from holy city to secular city from fundamentalist to postsecular city By intertwining the city and religion urban theory and theories of religion this is the first book to provide an international and interdisciplinary analysis of post secular urbanism The book argues that given the rise of religiously inspired violence and the increasing significance of charismatic Christianity Islam and other spiritual traditions the master narrative that modern societies are secular societies has lost its empirical plausibility Instead we are seeing the pluralization of religion the co existence of different religious worldviews and the simultaneity of secular and religious institutions that shape everyday life These particular constellations of religious pluralism are above all played out in cities Including contributions from Peter L Berger and Nezar Alsayyad this book conceptually and empirically revokes the dissolution between city and religion to unveil its intimate relationship and offers an alternative view on the quotidian state of the global urban condition **International Bibliography of Sociology** Compiled by the British Library of Political and Economic Science, 2002-12 IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge on the social sciences *Religions and Development* Emma Tomalin, 2013-07-03 Religion has been excluded from development studies for decades Religious traditions have contributed greatly towards development work yet major international players have tended to

ignore its role Recent years have shown a noticeable shift in development policy practice and research to recognize religion as a relevant factor This text provides a comprehensive insight into different approaches towards the understanding the relationships between religions and development studies policy and practice It guides readers through current debates presenting explaining and critically evaluating a broad range of literature and locating it within a theoretical context The text explores the role of religion within development from positive contributions such as the important role that many faith based organizations play in education or health care to more complicated and contested notions of impact such as religiously inspired violence or gender inequality The book begins with three background chapters outlining the relevance of religions for development studies policy and practice and introducing the reader to the study of development and of religions Following these the focus then shifts to examine a number of thematic areas including religion gender and development and the implications of the rise of religion for mainstream development studies policy and practice in the 21st century Each chapter contains a range of features to assist undergraduate learning including learning objectives for each chapter discussion of key concepts summaries discussion questions further reading and websites The book also contains over sixty boxed case studies to provide further definition explanation and examples of the interactions between religions and development globally This innovative text presents religions as something that can both obstruct and aid development encouraging readers to engage critically with the multiple ways that religion impacts on both the conceptualization of development as well the resulting project interventions This will be of interest to undergraduate postgraduate students and scholars interested in religious studies development studies and the broader study of societies and cultures
