Religions Of Late Antiquity In Practice Princeton Readings:

Religions of Late Antiquity in Practice Richard Valantasis, 2000 This is an unprecedented collection of nearly seventy Late Antique primary religious texts. These texts, all in new English translation and many appearing in English for the first time, represent every major religious current from the late first century until the rise of Islam. Produced through the efforts of thirty-six leading scholars in the field, they constitute a comprehensive view of religious practice in Late Antiquity. Religious life and performance during this period comprised diverse, often unusual practices. Philosophical ascent, magic, legal pronouncement, hymnography, dietary and sexual restriction, and rhetoric were all part of this deeply fascinating world. Religious and political identity often intertwined, as reflected in the Roman persecution of Christians. And a fluid boundary between religion and superstition was contested in daily life. Many practices, including ascetic training, crossed religious boundaries. Others, such as incubation at specific temples and certain divination rites, were distinctive practices of individual groups and orders. Intrinsically interesting, the practice of religion in the Late Antique also edifies modern-day religious life. As this volume shows, the origins of the contemporary Western religious terrain can be gleaned in this period. Rabbinic Judaism flourished and spread; Christianity developed still important theological categories and structures. And even movements that did not survive intact, such as Neoplatonism and the once powerful Manichaean churches, continue to influence religion today. This rich sourcebook includes discussions of asceticism, religious organization, ritual, martyrdom, religion's social implications, law, and theology. Its unique emphasis on practice and its inclusion of texts translated from lesser-known languages advance the study of religious history in several directions. A strong interdisciplinary orientation will reward scholars and students of religion, theology, gender studies, classical literatures, and history. Each text is accompanied by an introduction and a bibliography for further reading and research, making the book appropriate for use in any university or seminary classroom.

D. Lee, 2013-01-15 Between the deaths of the Emperors Julian 363 and Justinian 565 the Roman Empire underwent momentous changes. Most obviously control of the west was lost to barbarian groups during the fifth century and although parts were recovered by Justinian the empire's centre of gravity shifted irrevocably to the east with its focal point now the city of Constantinople. Equally important was the increasing dominance of Christianity not only in religious life but also in politics, society and culture. Doug Lee charts these and other significant developments which contributed to the transformation of ancient Rome and its empire into Byzantium and the early medieval west. By emphasising the resilience of the east during late antiquity and the continuing vitality of urban life and the economy, this volume offers an alternative perspective to the traditional paradigm of decline and fall.

Divining Gospel Jeff W. Childers, 2020-03-23 Ancient manuscripts of John's Gospel containing hermeneiai have long puzzled scholars provoking debate about their origins, purpose and use. The fragmentary nature of the early evidence has impeded progress towards a better understanding of these specialized books. The present study shows that these books are Divining Gospels, editions of John's Gospel incorporating lot divination materials for use in fortune telling. The study centers on material presented here for the first time: the text and translation of a unique sixth-century Syriac manuscript, the earliest and most complete example of a hermeneia Gospel. An analysis of the Syriac along with evidence from Greek, Coptic, Latin and Armenian versions shows they all preserve vestiges of the same apparatus disseminated widely at an early time throughout many different Christian communities. These books must be situated squarely within the development of divinatory practices in early and late antique Christianity. However, they represent a true hermeneutic, a method by which interpreters brought the potency of the Bible to bear on the everyday concerns of people who consulted them for help. Furthermore, the Divining Gospel draws on the special aura that John's Gospel held in the Christian imagination both as text and as textual object. An analysis of the interplay between the biblical text and sacred codex, the oracles, the ritual practitioner and the client, enriches our appreciation of this distinctive hermeneutic. Contextualizing these materials in popular use illuminates the fraught relationships between the ecclesial establishment, ritual experts operating on the margins of orthodox respectability and lay clients seeking knowledge and help.

Inherited Land Whitney A. Bauman, Richard R. Bohannon II, Kevin J. O'Brien, 2011-08-04 Religion and ecology has arrived. What was once a niche interest for a few academics concerned with environmental issues and a few environmentalists interested in religion has become an established academic field with classic texts, graduate programs, regular meetings at academic conferences and growing interest from other academics and the mass media. Theologians, ethicists, sociologists and other scholars are engaged in a broad dialogue about the ways religious studies can help understand and address environmental problems, including the sorts of methodological, terminological and substantive debates that characterize any academic discourse. This book recognizes the field that has taken shape, reflects on the ways it is changing and anticipates its development in the future. The essays offer analyses and reflections from emerging scholars of religion and ecology, each

addressing her or his own specialty in light of two questions 1 What have we inherited from the work that has come before us and 2 What inquiries concerns and conversation partners should be central to the next generation of scholarship The aim of this volume is not to lay out a single and clear path forward for the field Rather the authors critically reflect on the field from within outline some of the major issues we face in the academy and offer perspectives that will nurture continued dialogue
