## **Religious Consciousness And Lifeworlds:**

Religious Consciousness and Life-worlds T. S. Rukmani, 1988 Contributed papers presented at a seminar organized by the Indian Institute of Advanced Study Shimla in May 1987      **Lifeworlds of Islam** Mohammed A. Bamyeh, 2019-04-22 How do old ideas continue to appear relevant in a modern world A sociological approach to Islam allow us to approach an answer to this question In *Lifeworlds of Islam* Mohammed A Bamyeh shows that Islam has typically operated not in the form of standard dogmas but more often as a compass for practical individual orientations or lifeworlds Through a comprehensive sociological analysis of Islam he maps out how Muslims have employed the faith to foster global networks public philosophies and engaged civic lives both historically and in the present Bamyeh further argues that all three fields are poorly understood in recent literature which tends to focus on one specific problem or another and does not take into account the variety of lifeworlds in which Islam operates The book contends that the larger preoccupations of ordinary Muslims how to imagine a global society how to guide life in the manner of a total philosophy and how to relate to the world of daily struggles in organized or semi organized civic forums and social movements are neither unique to the present period nor to religious life They are rather shared universal quandaries A focused empirical lens on the career of a religion *Lifeworlds of Islam* contributes to the larger literature and provides insight into the nature of global citizenship the philosophical needs of individuals and the ethical values that foster social participation      *Lifeworlds and Ethics* Margaret Chatterjee, 2007      J.L. Mehta on Heidegger, Hermeneutics and Indian Tradition William J. Jackson, 2023-11-27 This book presents a selection of essays by the Indian philosopher J L Mehta on the topics of hermeneutics and phenomenology containing many original reflections on questions of interpretation and the creative retrieval and renewal of meanings from ancient traditions Beginning with essays on sources of modern phenomenological methods the work goes on to articulate principles of phenomenology and to apply them to the interpretation of Hindu traditions and texts The final group of essays consider the problems of East West understanding and issues of intercultural relationships and the possibilities of planetary thinking In the fourteen essays brought together here Mehta elucidates the contributions of continental philosophers such as Husserl Heidegger and Gadamer and interprets meanings of the Rig Veda Krishna in the Mahabharata and the life of Sri Aurobindo He also critically examines Western perceptions of India as a culture steeped in its own dreams and explores the processes of rediscovering and re appropriating through interpretation and translation one's ideological roots The book contains an introductory and a concluding essay by the editor contextualizing Mehta's life and studies Thoughtful and provocative pieces by Wilhelm Halbfass and Raimondo Panikkar lead into the main body of the work This is an especially useful work because Mehta was a rare kind of international thinker In his mature essays his thinking came full circle having grown from Hindu origins expanding through Western psychology and continental philosophy and returning to re assess profound questions in Indian thought      Religion and Rabindranath Tagore Translated from Bengali with an introduction by Amiya P.

Sen,2014-06-12 This work focuses exclusively on Rabindranath Tagore s sermons addresses and miscellaneous prose writings in Bengali With a substantive introduction by Amiya P Sen identifying various stages in the evolution of Tagore s religious thoughts beginning from about the 1880s the book includes representative writings from each of the stage so identified It brings to light some of Tagore s speeches and writings on religion in the pre Gitanjali phase which are largely unknown and un appreciated The sermons collectively known as Santiniketan delivered between 1908 and 1914 and which perhaps carry his deepest spiritual insights is a case in this point Among other important essays of this genre yet un translated and relatively unknown are those included in the collections Dharma Religion Alochana Criticism Parichay Introduction and Sanchay Collection This volume intends to recover them in translation     Understanding Climate Change through Religious Lifeworlds David L. Haberman,2021-05-04 How can religion help to understand and contend with the challenges of climate change Understanding Climate Change through Religious Lifeworld edited by David Haberman presents a unique collection of essays that detail how the effects of human related climate change are actively reshaping religious ideas and practices even as religious groups and communities endeavor to bring their traditions to bear on mounting climate challenges People of faith from the low lying islands of the South Pacific to the glacial regions of the Himalayas are influencing how their communities understand earthly problems and develop meaningful responses to them This collection focuses on a variety of different aspects of this critical interaction including the role of religion in ongoing debates about climate change religious sources of environmental knowledge and how this knowledge informs community responses to climate change and the ways that climate change is in turn driving religious change Understanding Climate Change through Religious Lifeworlds offers a transnational view of how religion reconciles the concepts of the global and the local and influences the challenges of climate change     The Phenomenology of Religious Life Martin Heidegger,2021-12-22 Scrupulously prepared and eminently readable this volume presents Heidegger s most important lectures on religion from 1920 21 Choice In the early 1920s Martin Heidegger delivered his famous lecture course Introduction to the Phenomenology of Religion at the University of Freiburg He also prepared notes for a course on The Philosophical Foundations of Medieval Mysticism that was never delivered Though he never prepared this material for publication it represents a significant evolution in his philosophical perspective Heidegger s engagements with Aristotle Neoplatonism St Paul Augustine and Martin Luther give readers a sense of what phenomenology would come to mean in the mature expression of his thought Heidegger reveals an impressive display of theological knowledge protecting Christian life experience from Greek philosophy and defending Paul against Nietzsche     Derrida and Technology: Life, Politics, and Religion Björn Sjöstrand,2021-10-05 This book is the first monograph that takes a comprehensive approach to Jacques Derrida as a philosopher of technology It refines and complements his mainstream image as a philosopher of language and deconstructionist of classical literary and philosophical texts This volume outlines the key features of Derrida s alternative philosophy of technology a philosophy which

Sj strand argues avoids the problems associated with on the one hand a Heideggerian orientation which completely separates thinking and technology and on the other an empirically oriented post phenomenology that can be said to be hegemonic within the field today Based on a sustained interpretation of Derrida and a robust coherent philosophy of technology a phenomenology of technology is developed that in a radical way extends the concept of technology to cover the entire field of phenomenology This places the technological not in opposition to humanity but rather always already in close proximity to man and consequently to life ethics politics democracy and religion Strikingly this important aspect of Derrida s thinking is only rarely analyzed or discussed by his many exegetes This text appeals to graduates and researchers working on Derrida phenomenology and the philosophy of technology

The Genesis of Heidegger's Being and Time Theodore Kiesel, 1995-03-24 This book ten years in the making is the first factual and conceptual history of Martin Heidegger s Being and Time 1927 a key twentieth century text whose background until now has been conspicuously absent Through painstaking investigation of European archives and private correspondence Theodore Kiesel provides an unbroken account of the philosopher s early development and progress toward his masterwork Beginning with Heidegger s 1915 dissertation Kiesel explores the philosopher s religious conversion during the bleak war years the hermeneutic breakthrough in the war emergency semester of 1919 the evolution of attitudes toward his phenomenological mentor Edmund Husserl and the shifting orientations of the three drafts of Being and Time Discussing Heidegger s little known reading of Aristotle as well as his last minute turn to Kant and to existentialist terminology Kiesel offers a wealth of narrative detail and documentary evidence that will be an invaluable factual resource for years to come A major event for philosophers and Heidegger specialists the publication of Kiesel s book allows us to jettison the stale view of Being and Time as a great book frozen in time and instead to appreciate the erratic starts finite high points and tentative conclusions of what remains a challenging philosophical path

Mother Tongue Theologies Darren J. N. Middleton, 2010-01-01 Recognizing that one third of the world s Christians practice their faith outside Europe and North America the fourteen essays in Mother Tongue Theologies explore how international fiction depicts Christianity s dramatic movement South and East of Jerusalem as well as North and West Structured by geographical region this collection captures the many ways in which people around the globe receive Christianity It also celebrates postcolonial literature s diversity And it highlights non Western authors biblical literacy addressing how and why locally rooted Christians invoke Scripture in their pursuit of personal as well as social transformation Featured authors include Fyodor Dostoevsky Constantine Cavafy Scott Cairns Chinua Achebe Madam Afua Kuma Earl Lovelace V S Reid Ernesto Cardenal Helena Parente Cunha Arundhati Roy Mary Martha Sherwood Marguerite Butler R M Ballantyne Rudyard Kipling Nora Okja Keller Amy Tan Albert Wendt and Louise Erdrich Individual essayists rightly come to different conclusions about Christianity s global character Some connect missionary work with colonialism as well as cultural imperialism for example and yet others accentuate how indigenous cultures amalgamate with Christianity s foreignness to produce mesmerizing multiple identities

Differences notwithstanding Mother Tongue Theologies delves into the moral and spiritual issues that arise out of the cut and thrust of native responses to Western Christian presence and pressure Ultimately this anthology suggests the reward of listening for and to such responses particularly in literary art will be a wider and deeper discernment of the merits and demerits of post Western Christianity especially for Christians living in the so called post Christian West List of Contributors Isabel Asensio Sierra Di Gan Blackburn Mini Chandran Evgenia V Cherkasova John Estes Jack A Hill J A Jackson Ellin Sterne Jimmerson Ymitri Mathison Catherine Winn Merritt Darren J N Middleton Mozella G Mitchell Sinead Moynihan J Stephen Pearson Eric J Sterling     Deathworlds to Lifeworlds Valerie Malhotra Bentz, James Marlatt, 2021-08-02 Deathworlds are places on planet earth that can no longer sustain life These are increasing rapidly We experience remnants of Deathworlds within our Lifeworlds for example traumatic echoes of war genocide oppression Many practices and policies directly or indirectly are Deathworld Making They undermine Lifeworlds contributing to community decline illnesses climate change and species extinction This book highlights the ways in which writing about and sharing meaningful experiences may lead to social and environmental justice practices decreasing Deathworld Making Phenomenology is a method which reveals the connection between personal suffering and the suffering of the planet earth and all its creatures Sharing can lead to collaborative relationships among strangers for social and environmental justice across barriers of culture politics and language Deathworlds into Lifeworlds wakes people up to how current economic and social forces are destroying life and communities on our planet as I have mapped in my work The chapters by scholars around the world in this powerful book testify to the pervasive consequences of the proliferation of Deathworld making and ways that collaboration across cultures can help move us forward Saskia Sassen is the Robert S Lynd Professor of Sociology at Columbia University and a Member of its Committee on Global Thought Recognizing the inseparability of experience consciousness environment and problematics in rebalancing life systems this book offers solutions from around the world Four Arrows aka Don Trent Jacobs author of Sitting Bull s Words for A World in Crises et al This unique book brings together 78 participants from 11 countries to reveal the ways in which phenomenology the study of consciousness and phenomena can lead to profound personal and social transformation Such transformation is especially powerful when Deathworlds physical or cultural places that no longer sustain life are transformed into lifeworlds through collaborative sharing even when or perhaps especially when the sharing is among strangers across different cultures The contributors share a truly wide range of human experiences from the death of a child to ecological destruction in offering ways to affirm life in the face of what may seem to be hopeless death affirming challenges Richard P Appelbaum Ph D is Distinguished Research Professor Emeritus and former MacArthur Foundation Chair in Global and International Studies and Sociology at the University of California Santa Barbara He is also a founding Professor at Fielding Graduate University where he heads the doctoral concentration in Sustainability Leadership Deathworlds is a love letter for the planet our home By documenting places that no longer sustain life the authors collectively

Flood,2019-02-14 Religion and the Philosophy of Life considers how religion as the source of civilization transforms the fundamental bio sociology of humans through language and the somatic exploration of religious ritual and prayer Gavin Flood offers an integrative account of the nature of the human based on what contemporary scientists tell us especially evolutionary science and social neuroscience as well as through the history of civilizations Part one contemplates fundamental questions and assumptions what the current state of knowledge is concerning life itself what the philosophical issues are in that understanding and how we can explain religion as the driving force of civilizations in the context of human development within an evolutionary perspective It also addresses the question of the emergence of religion and presents a related study of sacrifice as fundamental to religions views about life and its transformation Part two offers a reading of religions in three civilizational blocks India China and Europe the Middle East particularly as they came to formation in the medieval period It traces the history of how these civilizations have thematised the idea of life itself Part three then takes up the idea of a life force in part three and traces the theme of the philosophy of life through to modern times On the one hand the book presents a narrative account of life itself through the history of civilizations and on the other presents an explanation of that narrative in terms of life **The Multidimensionality of Hermeneutic Phenomenology** Babette

model of the phenomenological method employed on an international scale It exemplifies the final developmental stage postulated by Husserl of an inter subjective phenomenology which would take its point of departure not from individual subjectivity but from transcendental intersubjectivity Vatican II accordingly offers a unique application of a universal transcendental philosophy in the field of religious reflection for the practical purposes of moral and socio cultural renewal Phenomenology as a distinctively European development is relatively un known in America at least in its pure form Our contact with this style of 1 intuitive reflection is usually filtered through psychology or sociology How ever Edmund Husserl The Father of Phenomenology was originally trained in mathematics and he entered the field of philosophy because he recognized 2 that the theoretical foundations of modern science were disintegrating He foresaw that unless this situation were rectified modern men would eventually slip into an attitude of absolute scepticism relativism and pragmatism After the First World War he saw this theoretical problem mirrored more and more in the social turbulence of Europe and his thoughts turned to the need for a 3 renewal at all levels of life In 1937 when Nazism was triumphant in Germany and Europe on the brink of World War II he wrote his last major work The 4 Crisis of European Sciences and Transcendental Philosophy

Mobile Lifeworlds Christopher A.
