**The Synaptic Gospel** Christopher D. Rodkey, 2012-01-06 In this book Christopher D Rodkey asks how the brain worships and responds by engaging ideas from neurological science philosophy ritual theory and religious education From this exploration two new paradigms for pastoral ministry emerge First Rodkey proposes a pan generational principle advocating an empathy based approach for fostering faith communities a principle that is radically inclusive to all generations Second Rodkey argues that worship and religious education should converge to include a shared goal of teaching individuals to live liturgically In *The Synaptic Gospel* Rodkey argues that living and thinking liturgically are learned behaviors that may be promoted through pan generational worship The book concludes with a special emphasis on practical suggestions for youth ministry *The Synaptic Gospel* will prove to be a useful theoretical tool for pastors religious educators youth ministers church music professionals and seminary students

*International Handbook of the Religious, Moral and Spiritual Dimensions in Education* Marian de Souza, Gloria Durka, Kathleen Engebretson, Robert Jackson, Andrew McGrady, 2007-06-04 Traditionally spirituality has resided and been contained within religious frameworks but while the links between the two areas are still acknowledged by many in the contemporary world spirituality is perceived by some as an aspect of human life that is distinct from religion Consequently many are searching for meaning within and without religious traditions today and seeking answers to ethical and moral questions that have been generated by the knowledge and technological explosion One outcome is the renewed interest in the religious spiritual and moral dimensions of education throughout the life cycle This *International Handbook* presents the research and professional practice of scholars who are daily engaged in the consideration of these dimensions in education The result is a collection of essays which reflects the discipline in all of its internationality as it is today Embedded within the chapters is also an agenda for the future where the religious moral and spiritual dimensions in education are proposed as an exciting and challenging way forward for educators at all levels in society As well it offers a vision for the emergence of a peaceful and just world
