**Depth Psychology** Dennis Patrick Slattery, 2004-10 Developed in the spirit of C G Jung and extended by the work of James Hillman *Depth Psychology Meditations in the Field* grows directly from the soil of the Romantic Movement of the 19th century itself a rebellion against the legacy of Enlightenment fundamentalism which emphasized the literal reality of the world and feasted on Measurement and the quantification of all knowledge **Faith, Science and the Future** Charles P. Paloutzian, 2014-10-13 This is a special thematic edition of the *International Journal for the Psychology of Religion* Volume 9 Number 9 from 1999 The main topic is the religious orientation and authoritarianism in a cross cultural perspective If research such as that published in this journal issue were extended to other cultures and peoples it would facilitate international dialogue about the research on religious

orientation which has been a cornerstone of Western empirical psychology of religion for the past 30 years The articles assembled in this issue of the journal present data from non Western populations and the results of a translation of religious orientation measures into a language other than English Data sets in the four articles in this issue come from Canada Ghana The United States and Poland **The Certainty of Uncertainty** Mark Schaefer,2018-08-23 The world is full of people who are very certain in politics in religion in all manner of things In addition political religious and social organizations are marketing certainty as a cure all to all life s problems But is such certainty possible Or even good The Certainty of Uncertainty explores the question of certainty by looking at the reasons human beings crave certainty and the religious responses we frequently fashion to help meet that need The book takes an in depth view of religion language our senses our science and our world to explore the inescapable uncertainties they reveal We find that the certainty we crave does not exist As we reflect on the unavoidable uncertainties in our world we come to understand that letting go of certainty is not only necessary it s beneficial For in embracing doubt and uncertainty we find a more meaningful and courageous religious faith a deeper encounter with mystery and a way to build strong relationships across religious and philosophical lines In The Certainty of Uncertainty we see that embracing our belief systems with humility and uncertainty can be transformative for ourselves and for our world

**Journeys of Faith** Mike Brock,2023-06-20 Journeys of Faith examines the contributions of the leading figures of the humanistic psychology movement with particular attention to their spiritual journeys Rising to prominence in America during the post World War II years humanistic psychology is experiencing a resurgence in the present day in response to the need for a psychological approach that addresses meaning and purpose in life The key players Abraham Maslow Carl Rogers Erich Fromm and Rollo May all rejected the orthodoxy of their religious inheritance in favor of a more humanistic approach and in the process discovered a renewed spirituality that they hoped would address the concerns of a world yearning for something to believe in While the humanistic psychologists confronted the world s problems through the lens of psychology other thinkers such as the evolutionary biologist Julian Huxley approached them through different though equally humanistic perspectives Others still such as Paul Tillich Martin Buber and Pierre Teilhard de Chardin confronted the times through a religious lens The influence of the centuries long Jewish tradition of scholarship and social justice and the frequent examples of friendship and professional cooperation between the secular and the religious worlds provide critical subthemes for the lasting appeal of humanistic psychology **Psychotherapy and Spirituality** Agneta Schreurs,2002 Schreurs presents a range of therapeutic situations analogies and case studies in which spiritual concerns may arise and explores them from spiritual and psychological perspectives showing how they connect and differ This engaging book is essential reading for all therapists who feel out of their depth when patients raise spiritual concerns

**Religious Confessions and Confessants** Anna Robeson Brown Burr,1914 **The Soul of Popular Culture** Mary Lynn Kittelson,1998 In The Soul of Popular Culture leading writers and critics many of them influenced by the thought of C G Jung draw upon the insights of depth psychology to

delve into the meanings of TV programs like Star Trek and Faulty Towers movies such as The Piano and The Silence of the Lambs and other contemporary media as well as the public preoccupation with such issues as abortion AIDS the O J Simpson trial and our enduring fascination with Elvis      *The Bride of Christ - A Metaphor for the Church* Norbert Schnell,2021-11-30 Lumen gentium the Dogmatic Constitution on the Church of the Second Vatican Council uses various images to speak about the Church This study is about the Church as the Bride of Christ Unlike the great images of the Church as the People of God and the Body of Christ the image of the Church as the Bride of Christ has never been extensively examined since the Second Vatican Council The current research is a biblical and systematic theological study of this image Its main question is what this metaphor can tell us about the essence of the Church and what its consequences are for the life of the Church today

**A People Apart** Daniel H. Frank,1993-01-01 Philosophical speculations on chosenness and ritual in Judaism      **Bodies in Society** Margaret R. Miles,2008-08-01 Education is about learning to think Much of what we call thinking however is a hodge podge of repetitious self talk opinion and cutting and pasting of second hand ideas Moreover thinking in the present has often been alien to scholars who were tempted to think abstractly But life and thought belong together and require each other as Plotinus pointed out many centuries ago The object of contemplation is living and life and the two together are one Ennead 3 8 8 Presently many women and men in the academic world are thinking concretely within the context of their own lives and with acknowledged accountability to broader communities with whom they think and to whom they are answerable The essays in this volume consider Christianity as an aspect of North American culture bringing the critical tools of the academy to thinking about some of the perplexing and pressing problems of contemporary public life Three interactive and interdependent themes traverse these essays gender the effects of media culture and institutions Each of these themes has been central to Margaret Miles s work for thirty years Each understands corporeality as fundamental both to subjectivity and society Miles finds that Christianity critically appropriated provides ideas and methods for thinking concretely about life in North American society
