Religious Movements Genesis Exodus And Numbers:

Religious Movements Rodney Stark,1985 **The Flourishing of Jewish Sects in the Maccabean Era: An Interpretation** Albert I. Baumgartner,2021-12-06 This volume asks why Jewish groups Sadducees Pharisees Essenes and the Dead Sea Scroll sect flourished during the Maccabean era It argues that such a result is uncommon requiring special explanation In the introduction sectarianism is defined and its varieties in Second Temple Judaism assessed Among the causes of the known results suggested are the encounter with an outside culture that seemed to be weakening the external national perimeter the impact of expanded literacy the move to the city from the farm as well as eschatological hope aroused by Maccabean victory In proposing these conclusions full advantage is taken of recently published Qumran sources such as 4QMMT The objective is to discover the connection between context and consequence which will explain why sectarianism was so prominent at that time **The Routledge Companion to the Study of Religion** John Hinnells,2009-09-10 The Routledge Companion to the Study of Religion is a major resource for courses in Religious Studies It begins by explaining the most important methodological approaches to religion including psychology philosophy anthropology and comparative study before moving on to explore a wide variety of critical issues such as gender science fundamentalism ritual and new religious movements Written by renowned international specialists this new edition includes eight new chapters including post structuralism religion and economics religion and the environment religion and popular culture and sacred space surveys the history of religious studies and the key disciplinary approaches explains why the study of religion is relevant in today s world highlights contemporary issues such as globalization diaspora and politics includes annotated reading lists a glossary and summaries of key points to assist student learning **The Routledge Companion to the Study of Religion** John R. Hinnells,2005 The Routledge Companion to the Study of Religion contains everything a student needs for a full understanding of theory and methods in religious studies It begins by explaining the most important methodological approaches to religion including psychology philosophy anthropology and comparative study before moving on to explore a wide variety of critical issues Written entirely by renowned international specialists and using clear and accessible language throughout it is the perfect guide to the problems and questions found in courses and exams *The Sacred in a Secular Age* Phillip E. Hammond,2023-11-15 This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1985 [In Gods We Trust](#) Thomas Robbins,2017-07-12 Much has changed since publication of the first edition of this established text in the sociology of religion Revised and expanded this edition emphasizes new patterns of religious change and conflict emerging in the United States in the latter part of the twentieth century Leading scholars describe and analyze developments in five main areas The fundamentalist and evangelical revival

challenge and renewal in mainline churches spiritual innovation and the so called New Age women s movements and issues and their impact and politics and civil religion Chapters include an examination of religious movements responses to AIDS Christian schools quasi religions healing rites and goddess worship recruitment of women to charismatic and Hassidic groups televangelists and the Christian Right racist rural populism contemporary Mormonism and its growth cults and brainwashing Jonestown dissidence in the Catholic church and trance channeling among other topics A new introductory chapter by the editors establishes an integrating framework in terms of three themes increasing conflict and controversy associated with American religion increasing focus on various forms of power in American religion and challenges to models of secularization and modernization inherent in religious revival innovation and politicization A concluding chapter by the editors looks at new trends and assesses their possible impact in coming years Like its predecessor this outstanding collection is a significant contribution to the literature as well as a valuable resource for the classroom **American Journal of Islamic Social**

Sciences 17:1 Syed Abdul Hamid al-Junaaid & Syed Aziz Anwar, M. Habib Chirzin, Mahmoud Dhaouadi, The American Journal of Islamic Social Sciences AJISS established in 1984 is a quarterly double blind peer reviewed and interdisciplinary journal published by the International Institute of Islamic Thought IIIT and distributed worldwide The journal showcases a wide variety of scholarly research on all facets of Islam and the Muslim world including subjects such as anthropology history philosophy and metaphysics politics psychology religious law and traditional Islam *Misunderstanding Cults* Benjamin Zablocki, Thomas Robbins, 2001-12-01 *Misunderstanding Cults* provides a uniquely balanced contribution to what has become a highly polarized area of study Working towards a moderate third path in the heated debate over new religious movements or cults this collection includes contributions from both scholars who have been characterized as anticult and those characterized as cult apologists The study incorporates multiple viewpoints as well as a variety of theoretical and methodological perspectives with the stated goal of depolarizing the discussion over alternative religious movements A prominent section within the book focuses explicitly on the issue of scholarly objectivity and the danger of partisanship in the study of cults The collection also includes contributions on the controversial and much misunderstood topic of brainwashing as well as discussions of cult violence children brought up in unconventional religious movements and the conflicts between alternative religious movements and their critics Unique in its breadth this is the first study of new religious movements to address the main points of controversy within the field while attempting to find a middle ground between opposing camps of scholarship *The Rajneesh Papers* Susan J. Palmer, Arvind Sharma, 1993-01-01 Contributed articles *Routledge Library Editions: Sociology of Religion* Various, 2021-07-14 This set collects together in 19 volumes a wealth of texts on Sociology of Religion An invaluable reference resource it contains classic books on a wide range of topics including religion and violence religion and family life religion and society culture and class **The Future of Religion** Rodney Stark, William Sims Bainbridge, 2023-04-28 Religion is alive and well in the modern world and the social scientific study of religion is undergoing

a renaissance For much of this century respected social theorists predicted the death of religion as inevitable consequence of science education and modern economics But they were wrong Stark and Bainbridge set out to explain the survival of religion Using information derived from numerous surveys censuses historical case studies and ethnographic field expeditions they chart the full sweep of contemporary religion from the traditional denominations to the most fervent cults This wealth of information is located within a coherent theoretical framework that examines religion as a social response to human needs both the general needs shared by all and the desires specific to those who are denied the economic rewards or prestige enjoyed by the privileged By explaining the forms taken by religions today Stark and Bainbridge allow us to understand its persistence in a secular age and its prospects for the future This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1985 Religion is alive and well in the modern world and the social scientific study of religion is undergoing a renaissance For much of this century respected social theorists predicted the death of religion as inevitable consequence of science education

Researching New Religious Movements Elisabeth Arweck, 2006 This cutting edge analysis of American and European new religious movements explores the controversies between religious groups and the majority interests which oppose them It asks how modern societies can best respond to new religious movements

The Sociology of Religion Malcolm B. Hamilton, 2002-06-01 The Sociology of Religion is a comprehensive and wide ranging introduction to theoretical debates in the sociology of religion placing these theories in the context of specific religious beliefs and practices Using examples as diverse as primitive religions Buddhism millennial movements the Protestant Ethic secularisation cults and the new religious movements Malcolm Hamilton demonstrates the multiplicity of religious traditions and enables readers to place their own experiences in a wider context He draws on both historical and anthropological perspectives in his examination of religious practices and outlines the work of major sociological theorists including Marx Durkheim Malinowski and other Functionalists Frazer and Weber in the examination of world religion bringing these theories up to date The significance of each theoretical perspective is illustrated by chapters on particular beliefs and practices

The Craft of Religious Studies NA NA, 2016-04-30 Unlike other humanistic disciplines the academic study of religion must contend with a phenomenon that touches every dimension of human experience For scholars so engaged the study of religion often becomes a cross cultural as well as a necessarily interdisciplinary endeavor In this collection of original essays Jon R Stone has brought together the intellectual autobiographies of fourteen senior scholars all with national or international reputations in their respective fields each of whom reflects upon his or her own theoretical assumptions and methodological approaches to the study of religion Taken together these essays represent the variety of research methods and interpretive rigor mature scholars bring to the task of

examining religious phenomena religious actions religious movements and religious ideas Introduction to New and Alternative Religions in America William M. Ashcraft, Eugene V. Gallagher, 2006-10-30 Most new or alternative religions are gravely misunderstood by members of the religious mainstream. Labeled cults or sects, groups and their members are often ridiculed or otherwise disregarded as weird and potentially dangerous by the populace at large. Despite their efforts at educating the general public, the various anti and counter cult activists have in fact promoted much more misunderstanding than accurate understanding of the religious lives of some of their fellow citizens. Consequently, they have helped to create a very hostile environment for anyone whose religious practices do not fit within a so-called mainstream. This set rectifies the situation by presenting accurate, comprehensive, authoritative and accessible accounts of various new and alternative religious movements that have been and are active in American society and it addresses ways of understanding new and alternative religions within a broader context. Determining what actually constitutes a new or alternative religion is a subject of constant debate. Questions arise as to a new faith's legitimacy, beliefs, methods of conversion and other facets of a religious movement's viability and place in a given culture. How a religion gains recognition by the mainstream, which often labels such new movements as cults, is fraught with difficulty, tension and fear. Here experts delineate the boundaries and examine the various groups, beliefs, movements and other issues related to new faiths and alternative beliefs. Readers will come away with a fuller understanding of the religious landscape in America today.

Volume 1: History and Controversies discusses the foundations of new and alternative religions in the United States and addresses the controversies that surround them. This volume helps readers better understand what makes a new or alternative belief system a religion and the issues involved.

Volume 2: Jewish and Christian Traditions explores the various new religions that have grown out of these two Abrahamic faiths. Groups such as the Shakers, the People's Temple, the Branch Davidians, Jehovah's Witnesses and others are examined.

Volume 3: Metaphysical, New Age and Neopagan Movements looks at Shamanism, Spiritualism, Wicca and Paganism among other movements as they have developed and grown in the U.S. These faiths have found new and devoted followers yet are often misunderstood.

Volume 4: Asian Traditions focuses on those new and alternative religions that have been inspired by Asian religious traditions. From Baha'i to Soka Gakkai, from Adidam to the Vedanta Society, contributors look at a full range of groups practicing and worshiping in the U.S. today.

Volume 5: African Diaspora Traditions and Other American Innovations examines the various traditions linked to the African diaspora, such as Rastafarianism, Santeria and the Nation of Islam, alongside traditions that are truly American incarnations like Scientology, UFO religions and Heaven's Gate. Some of the new and alternative religions covered in these pages include Shamanism, Wicca, Black Israelites, Santeria, Scientology, Elan Vital, Hare Krishna, Soka Gakkai and many more.

Public Religions in the Modern World José Casanova, 2011-08-29 In a sweeping reconsideration of the relation between religion and modernity, José Casanova surveys the roles that religions may play in the public sphere of modern societies. During the 1980s, religious traditions around the world, from Islamic

fundamentalism to Catholic liberation theology began making their way often forcefully out of the private sphere and into public life causing the deprivatization of religion in contemporary life No longer content merely to administer pastoral care to individual souls religious institutions are challenging dominant political and social forces raising questions about the claims of entities such as nations and markets to be value neutral and straining the traditional connections of private and public morality Casanova looks at five cases from two religious traditions Catholicism and Protestantism in four countries Spain Poland Brazil and the United States These cases challenge postwar and indeed post Enlightenment assumptions about the role of modernity and secularization in religious movements throughout the world This book expands our understanding of the increasingly significant role religion plays in the ongoing construction of the modern world **Acts of Faith** Rodney Stark, Roger Finke, 2000-08-01 Finally social scientists have begun to attempt to understand religious behavior rather than to discredit it as irrational ignorant or foolish and Rodney Stark and Roger Finke have played a major role in this new approach Acknowledging that science cannot assess the supernatural side of religion and therefore should not claim to do so Stark and Finke analyze the observable human side of faith In clear and engaging prose the authors combine explicit theorizing with animated discussions as they move from considering the religiousness of individuals to the dynamics of religious groups and then to the religious workings of entire societies as religious groups contend for support The result is a comprehensive new paradigm for the social scientific study of religion *The Odyssey of a New Religion* Phillip Charles Lucas, 1995-02-22 solid scholarship It will not only serve as a model for those studying the New Religious Movements of the late twentieth century but will offer help to mainline and other religious institutions who are struggling with problems of identity and change in our complex society today Church History a thoroughly enjoyable book that would fit well into a graduate readings seminar on new religious movements The book deserves a wide reading Nova Religio Lucas s study provides a model of how best to combine the methodologies and analyses of the history of religions and sociology He has provided the groundwork for continued tracking of developments in this new religious movement for comparative purposes Journal of the American Academy of Religion a carefully researched and well written history of one of the important new religious movements to appear in the United States during the 1960s the volume can be heartily recommended to all students of American religion American Historical Review Lucas has written one of the best informed studies of the evolution of a metaphysical cult into mainline eastern orthodoxy The Reader s Review This is an important book for libraries with holdings in American religion Choice a fascinating narrative a rich feast for the investigator of the subculture of esoteric religion American Studies International especially welcome It offers an in depth meticulously documented history of a church the Holy Order of MANS that arose from the Christian esoteric mystery tradition and then metamorphosed into a traditionalist Orthodox Christian sect This unlikely tale has more twists and turns than a whodunit this volume is that rarest of finds an academic book that is a delight to read Gnosis Magazine Traces the journey of a new religious movement from its start as a monastic style New Age

order to its transformation into the more conventional Christ the Savior Brotherhood an Eastern Orthodox sect A remarkable story of social and spiritual change in contemporary America

Concepts of the Other in Near Eastern Religions Ilai Alon, Itamar Gruenwald, Itamar Singer, 2023-08-14 This text examines the philosophical concept of other in the Near Eastern religions It contains essays that are divided into three sections the Ancient Near East Judaism and Christianity and Islam and India

Conversion To Islam Ali Kose, 2012-11-12 First Published in 1996 Religious conversion is an immensely complex phenomenon The term comprises such diverse experiences as increased devotion within the same religious structure a shift from no religious commitment to a devout religious life or a change from one religion to another This study focuses on the conversion experiences of 70 native British converts to Islam It addresses the following questions why do people become Muslims what are the backgrounds of the converts what are the patterns of conversion to Islam and how far are existing conversion theories applicable to the group under study The full range of social and psychological forces at work in the conversion experience are examined with reference to the converts whose whole life history childhood adolescent experiences and the conversion process itself were examined in detail Chapter 1 deals with the history and present situation of both life long Muslims and converts living in Britain Chapter 2 focuses on childhood and adolescent experiences reviewing the psychological and sociological theories of conversion and attempts to find out how far these theories are applicable to the converts to Islam Chapter 3 examines the backgrounds of the converts regarding religion It then analyzes the immediate antecedents of the conversion as well as the conversion process focussing on version motifs A conversion process model is also developed in this chapter Chapter 4 looks at the post conversion period to find out what changes the converts underwent It also examines the relationship between converts their parents and society at large Chapter 5 reveals the findings on conversion through Sufism Comparisons between conversion through Sufism and through new religious movements in the West are also made This study should be an important addition to the study of religious conversion as conversion to Islam either from outside or within Islam is widely neglected in the literature

As recognized, adventure as competently as experience more or less lesson, amusement, as capably as concord can be gotten by just checking out a book **Religious Movements Genesis Exodus And Numbers** afterward it is not directly done, you could undertake even more on this life, in relation to the world.

We offer you this proper as competently as simple quirk to get those all. We present Religious Movements Genesis Exodus And Numbers and numerous ebook collections from fictions to scientific research in any way. in the course of them is this Religious Movements Genesis Exodus And Numbers that can be your partner.
