The Politics of Buddhist Organizations in Taiwan, 1989-2003 André Laliberté, 2013-08-21 Exploring a dimension of Taiwanese politics that has received little attention this book gives a detailed survey of three of the most important Buddhist organizations in Taiwan the Buddhist Association of the Republic of China the Buddha Light Mountain monastic order and the Buddhist Compassion Relief Tzu Chi Association

Religion, Politics and International Relations Jeff Haynes, 2011-04-07 Bringing together in one collection his most influential essays spanning two decades of research Jeffrey Haynes seeks to explore the complex relationship between religion politics and international relations

Black Theology—Essays on Global Perspectives Dwight N. Hopkins, 2017-06-15 Since its start in 1966 black liberation theology in the United States has continually engaged international developments with Africa and the entire world But after Nelson Mandela was released from prison in February 1990 there has been an almost twenty year break in books on black theology and international affairs Black Theology Essays on Global Perspectives bridges that post 1990 gap and makes a vital contact with Africa again This book conceptualizes black theology to take on the global reconfigurations and opportunities brought about by the rapidly shrinking earth of fast paced worldwide contacts In other words in the specificity of the genealogy of black theology we need to reforge ties with Africa This claim is based on tradition And in the generality of the larger worldwide intertwining of technologies and economics we need a new type of black theological leadership for the twenty first century This claim is based on today's international challenges The essays in this book draw on tradition and point forward in the midst of today's worldwide challenges and favorable possibilities given the closeness of all nations and the varieties of cultures

Religion and Social Transformations David Herbert, 2018-04-27 This title was first published in 2002 Religion and Social Transformations examines the reciprocal relationship between religion modernity and social change The book focuses on the world's three major missionary religions Buddhism Christianity and Islam It explores how these three traditions are responding to some of the most challenging issues associated with globalization including the role of religion in the fall of Communism the tension between religion and feminism the compatibility of religion and human rights and whether ancient religions can accommodate new challenges such as environmentalism The five textbooks and Reader that make up the Religion Today Open University Ashgate series are From Sacred Text to Internet Religion and Social Transformations Perspectives on Civil Religion Global Religious Movements in Regional Context Belief Beyond Boundaries Religion Today A Reader

Religious Politics in Global and Comparative Perspective William H. Swatos Jr., 1989-09-07 Current social and political theories which tend to dismiss religious resurgence as a deviant occurrence in the broad sweep of history do not provide an adequate framework for the study of the dramatic resurgence of religion as a worldwide political force This book is the first to address the interplay of religion and politics systematically and on a global scale Offering interpretive essays as well as quantitative comparative analyses it develops a comprehensive theoretical framework and presents the most

complete comparative account available of the realities of religious politics in the contemporary world The first of the interpretive chapters focuses on the cultural factor as a means of clarifying the role of religion in the modern world system The next two chapters examine the concept of the self in the context of globalization and the absence of solidarity as a unifying force in societal systems The role of ultimate values in politics and the reasons for the emergence of militant religious movements in nation states is also considered A worldwide study of religious change between 1900 and 1980 gives a clear picture of contemporary global religious movements and formulates a tentative set of explanations of change based on data analysis The statistical links between religious beliefs and political views and between religion and democracy are explored The editor's concluding chapter looks at the implications of the authors findings for general theory in the sociology of religion The editor stresses the need for reconceptualizing basic theoretical constructs particularly the concept of religion itself An important contribution to our understanding of the religious and political forces that are shaping the modern world this work will be of interest to academics researchers and students of world religions sociology and political science

Citizens of the World Margit Warburg, 2018-08-14 Citizens of the World deals with the Baha'is and their religion While covering the historical development in sufficient detail to serve as a general monograph on Baha'ism emphasis is laid on examining contemporary Baha'ism with the Danish Baha'ist community as a recurrent case The book discusses Baha'ist religious texts rituals economy everyday life demographic development mission strategies leadership and international activism in analyses based on primary material such as interview studies among the Baha'is fieldwork data from the Baha'ist World Centre in Israel and field trips around the world The approach is a combination of history of religions and sociology of religion within a theoretical framework of religion and globalisation Several general topics in the study of new religions are covered The book contributes to the theoretical study of globalisation by proposing a new model for analysing globalisation and transnational religions

An Introduction to International Relations and Religion Jeffrey Haynes, 2014-04-23 Not so very long ago it seemed reasonable to assert that the influence of religion on global politics was on the wane As the Western world became increasingly secular and the process of globalisation deepened it seemed inevitable on the surface at least that the voice of religion was to be heard softly if it was to be heard at all This has now changed and changed perhaps irrevocably As Jeff Haynes argues in this thought provoking and important new book various religious actors are now significantly involved in international relations and have become a crucial influence on policy in a post Westphalian world International Relations and Religion guides the reader through the complex issues at the heart of this topic with clarity and insight This updated second edition starts with a close reading of the many theoretical and analytical concepts notably Huntington and the clash of civilisations that have grown up around this area and then concludes with a summary of the issues under discussion and attempts to put into context what it means to live in a world that is increasingly shaped by a whole host of diverse religious groups Essential reading for students of International Relations and Politics
