Religious Symbolism And Its Universal Character:

Symbols (Routledge Revivals) Raymond Firth, 2013-01-11 This book first published in 1973 offers a broad survey of the study of symbolic ideas and behaviour. The study of symbolism is popular nowadays and anthropologists have made substantial contributions to it. Raymond Firth has long been internationally known for his field research in the Solomons and Malaysia and for his theoretical work on kinship, economics and religion. Here from a new angle he has produced a broad survey of the study of symbolic ideas and behaviour. Professor Firth examines definitions of symbol. He traces the history of scientific inquiry into the symbolism of religious cults, mythology and dreams back into the eighteenth century. He compares some modern approaches to symbolism in art, literature and philosophy with those in social anthropology. He then cites examples in anthropological treatment of symbolic material from cultures of varying sophistication. Finally he offers dispassionate analyses of symbols used in contemporary Western situations from hair styles to the use and abuse of national flags from cults of Black Jesus to the Eucharistic rite. In all this Professor Firth combines social and political topicality with a scholarly and provocative theoretical inquiry.

95 Theses on Humanism Ignace Demaerel, 2018-08-02 Since the rise and growth of secularization the place of God and religion is becoming increasingly problematic in our Western culture. But what is the alternative to its Christian heritage? Humanism puts man at the center of everything but can you believe in man just as much as you can believe in God? Is this secular worldview really rational based on science consistent and durable? And above all does our society become more humane because of it? Can you simply obliterate God from our culture and values without these collapsing like a pudding? Secular humanism has always been extremely critical of the church and in itself that is allowed but what if we judge and measure it with the same criteria?

The Principle of Analogy in Protestant and Catholic Theology Battista Mondin, 2013-06-29 In recent years there has been a remarkable revival of interest in the doctrine of analogy and many important studies on this doctrine have appeared in the form of articles and books. Today

many of the greatest living philosophers and theologians consider some sort of analogy to be an indispensable tool for any fruitful research in metaphysics and theology In this atmosphere we are sure that a study of the history of the principle of analogy in Protestant and Catholic theology is welcome This is one of the reasons for the present undertaking A second reason for this study is to seek to divert the ecumenical dialogue from secondary questions and to direct it to an area where it is necessary to agree in order to be one The title of our work is somewhat misleading it may lead one to believe that it deals with all Catholic and Protestant theologians of past and present Actually it does not It deals only with some of the major figures of Catholic and Protestant theology It concentrates especially on Aquinas analogy of intrinsic attribution on Barth s analogy of faith and on Tillich s symbolic analogy It attempts to compare and evaluate these three theological methods from the standpoint of determining their adequacy to interpret the God creature relation and to justify the use of theological language Writings in the Philosophy of Religion / Religionsphilosophische Schriften John P. Clayton, 2020-03-23 No

detailed description available for Writings in the Philosophy of Religion Religionsphilosophische Schriften **God's Wounds: Hermeneutic of the Christian Symbol of Divine Suffering, Volume One** Jeff B. Pool, 2009-01-01 This book constitutes the first volume of a three volume study of Christian testimonies to divine suffering God s Wounds Hermeneutic of the Christian Symbol of Divine Suffering Divine Vulnerability and Creation This study first develops an approach to interpreting the contested claims about the suffering of God Thus the larger study focuses its inquiry into the testimonies to divine suffering themselves seeking to allow the voices that attest to divine suffering to speak freely to discover and elucidate the internal logic or rationality of this family of testimonies rather than defending these attestations against the dominant claims of classical Christian theism that have historically sought to eliminate such language altogether from Christian discourse about the nature and life of God Through this approach this volume of studies into the Christian symbol of divine suffering then investigates the two major presuppositions that the larger family of testimonies to divine suffering normally hold an understanding of God through the primary metaphor of love God is love and an understanding of the human as created in the image of God with a life though finite analogous to the divine life the imago Dei as love When fully elaborated these presuppositions reveal the conditions of possibility for divine suffering and divine vulnerability with respect to creation

The Making of American Liberal Theology Gary J. Dorrien, 2006-01-01 In this first of three volumes Dorrien identifies the indigenous roots of American liberal theology and demonstrates a wider longer running tradition than has been thought The tradition took shape in the nineteenth century motivated by a desire to map a modernist third way between orthodoxy and rationalistic deism atheism It is defined by its openness to modern intellectual inquiry its commitment to the authority of individual reason and experience its conception of Christianity as an ethical way of life and its commitment to make Christianity credible and socially relevant to modern people Dorrien takes a narrative approach and provides a biographical reading of important religious thinkers of the time including William E Channing Ralph Waldo Emerson Horace Bushnell

Henry Ward Beecher Elizabeth Cady Stanton and Charles Briggs Dorrien notes that although liberal theology moved into elite academic institutions its conceptual foundations were laid in the pulpit rather than the classroom **Encyclopedia of Sacred Theology** Abraham Kuyper,1898 Symbols of Transcendence Paul J. Levesque,1997 Volume 22 in the LTPM series offers a synchronic investigation of the thought of Christian philosopher Louis Dupre Working from a careful reading of Dupre s vast body of writings Paul Levesque demonstrates that in Dupre s work all religious expression insofar as it has a transcendent reference is intrinsically symbolic In the course of his study Levesque discusses the general necessity of employing symbols for religious expression investigates in depth Dupre s symbol theory and applies it to the religious symbols of ritual sacraments and religious art examines the modern inability to fully form religious symbols and explores Dupre s particular call to recover the mystical experience in personal life *Research Handbook on Law and Religion* Rex Ahdar,2018-09-28 Offering an interdisciplinary international and philosophical perspective this comprehensive Research Handbook explores both perennial and recent legal issues that concern the modern state and its interaction with religious communities and individuals Routledge Handbook of Religion and Politics Jeffrey Haynes,2016-01-13 From the United States to the Middle East Asia and Africa religion continues to be an important factor in political activity and organisation The second edition of this successful handbook provides the definitive global survey of the interaction of religion and politics Featuring contributions from an international team of experts it examines the political aspects of all the world s major religions including such crucial contemporary issues as religious fundamentalism terrorism the war on terror the clash of civilizations the Arab Spring and science and religion Each chapter has been updated to reflect the latest developments and thinking in the field and new chapters such as Postsecularism and international relations and Securitization and Secularization The two pillars of state regulation of European Islam have been added to ensure the book is a comprehensive and up to date resource Four main themes addressed include World religions and politics Religion and governance Religion and international relations Religion security and development References at the end of each chapter have been overhauled to guide the reader towards the most up to date information on various topics This book is an indispensable source of information for students academics and the wider public interested in the dynamic relationship between politics and religion

The Builder ,1860 A Jungian Understanding of Symbolic Function and Forms Dominique Boukhabza,2023-08-11 The purpose of this book is to clarify the function of the symbol and its place at the juncture of psychoanalysis and other social sciences where the singular and the collective intersect and whose laws are identical The debate between Freud and Jung about the symbol is well known by examining the points of contradiction between their respective approaches this book seeks to place them in fruitful tension rather than categorical opposition and explore their similarities and differences In later chapters the author further analyses the function of the symbol in relation to the topics of myth anthropology and dreams This thoughtful book will appeal to those interested and involved in analytical psychology and psychoanalysis as well as
