The Annual Review of Women in World Religions Arvind Sharma, Katherine K. Young, 1993-11-18 Just as a mirror captures a large area within its small limit this journal reflects the otherwise far ranging and far reaching phenomena that are categorized as women and religion The Annual Review of Women in World Religions has been conceived

as a forum for the latest historical and anthropological research on women in all religions It is also a form for discussion of contemporary trends such as the influence of secularism fundamentalism or feminism on women and religion Accordingly it contributes to the on going project to add to our basic knowledge about women and helps evaluate the past as well as the present through insights generated by gender studies today Within the boundaries of academic scholarship the editors seek to include the research of those who are both inside and outside the traditions Moreover the book encourages women and men of all beliefs to participate in the on going dialogue which it represents and promotes This journal is polymethodic interdisciplinary and multitrade in its approach to the study of women and religion It not only allows the comparative dimension to appear in bolder relief but also helps to establish a dialogue between the two solitudes of humanistic and social scientific studies in the field Volume III contains the following essays Rabi ah as Mystic Muslim and Woman by Barbara Lois Helms Slighted Grandmothers The Need for Increased Study of Female Spirits and Spirituality in Native American Religions by Jordan Paper Women of Medieval South India in Hindu Temple Ritual Text and Practice by Leslie C Orr and Confucianism and Women in Modern Korea Continuity Change and Conflict by Edward Y J Chung *New Books on Women and Feminism*, 1991 **Chinese Religion in Western Languages: 1991-1995** Laurence G. Hiers, 2012-05-03 In this volume Richard Hiers challenges the popular assumption that the Bible has a low view of women and that biblical law either ignores women or requires them to be subject and subservient to men He does so by identifying and carefully examining hundreds of biblical texts and allowing them to speak for themselves Among the findings that biblical tradition generally represents women positively as strong and independent persons that no text represents wives as subject to their husbands and that no biblical law requires such subjection that biblical laws provide many protections for women's rights and interests in several instances rights equal to those enjoyed by men The book focuses particularly on the Old Testament and Old Testament law and argues that Old Testament laws and their underlying values provide important resources for Christian ethics and social policy today **Journal of Chinese Religions**, 1998 **Religion in America** Julia Corbett Hemeyer, 1997 And buddhists in the United States other religious and spiritual movements and religion as an individual and cultural problem For those interested in American and Western religions Modern Arabic Literature Reuven Snir, 2017-06-02 The study of Arabic literature is blossoming This book provides a comprehensive theoretical framework to help research this highly prolific and diverse production of contemporary literary texts Based on the achievements of historical poetics in particular those of Russian formalism and its theoretical legacy this framework offers flexible transparent and unbiased tools to understand the relevant contexts within the literary system The aim is to enhance our understanding of Arabic literature throw light on areas of literary production that traditionally have been neglected and
