

THE RELUCTANT BELLIGERENT 2ed.

AMERICAN ENTRY INTO WORLD WAR II

Robert A. Divine

Reluctant Belligerent

Walter L. Hixson

Reluctant Belligerent:

The Reluctant Belligerent Robert A. Divine, 1979 *America's Entangling Alliances* Jason W. Davidson, 2020-11-02
America's Entangling Alliances challenges the belief that the US resists international alliances. By documenting thirty-four alliances categorized as defense pacts, military coalitions, or security partnerships, Davidson finds that the US demand for allies is best explained by looking at variance in its relative power and the threats it has faced.

Fateful Choices Ian Kershaw, 2013-04-04
In 1940, the world was on a knife edge. The hurricane of events that marked the opening of the Second World War meant that anything could happen. For the aggressors, there was no limit to their ambitions for their victims; a new Dark Age beckoned. Over the next few months, their fates would be determined. In *Fateful Choices*, Ian Kershaw recreates the ten critical decisions taken between May 1940 when Britain chose not to surrender and December 1941 when Hitler decided to destroy Europe's Jews, showing how these choices would recast the entire course of history.

American Foreign and National Security Policies, 1914-1945 Thomas H. Buckley, Edwin B. Strong, 1987 **FDR and the Spanish Civil War** Dominic Tierney, 2007-07-02
Provides new understanding of Franklin Roosevelt's involvement in the Spanish Civil War, claiming that he was activist and pro-Loyalist.

[The Origins of the Grand Alliance](#) William T. Johnsen, 2016-09-13
This uncommonly astute study examines the early development of the US-UK military alliance that would eventually lead to victory in WWII. Paul Miles, author of *FDR's Admiral*, on December 12, 1937, Japanese aircraft sank the American gunboat *Panay* outside Nanjing, China. Although the Japanese apologized, President Roosevelt set Captain Royal Ingersoll to London to begin conversations with the British admiralty about Japanese aggression in the Far East. While few Americans remember the *Panay* Incident, it was the start of what would become the Special Relationship between the United States and Great Britain. In *The Origins of the Grand Alliance*, William T. Johnsen provides the first comprehensive analysis of Anglo-American military collaboration before the Second World War. He sets the stage by examining Anglo-French and Anglo-American coalition military planning from 1900 through World War I and the interwar years. Johnsen also considers the formulation of policy and grand strategy, operational planning, and the creation of the command structure and channels of communication. He addresses vitally important logistical and materiel issues, particularly the difficulties of war production. Drawn from extensive sources and private papers held in the United Kingdom, Canada, and the United States, Johnsen's exhaustively researched study casts new light on the twentieth century's most significant alliance.

Remembering the Road to World War Two Patrick Finney, 2010-09-13
This is comparative history on a grand scale, skilfully analysing complex national debates and drawing major conclusions without ever losing the necessary nuances of interpretation. Stefan Berger, University of Manchester, UK. *Remembering the Road to World War Two* is a broad and comparative international survey of the historiography of the origins of the Second World War. It explores how, in the case of each of the major combatant countries, historical writing on the origins of the Second World War has been inextricably entwined with debates over national identity.

and collective memory Spanning seven case studies the Soviet Union Germany Italy France Great Britain the United States and Japan Patrick Finney proposes a fresh approach to the politics of historiography This provocative volume discusses the political cultural disciplinary and archival factors which have contributed to the evolving construction of historical interpretations It analyses the complex and multi faceted relationships between texts about the origins of the war the negotiation of conceptions of national identity and unfolding processes of war remembrance Offering an innovative perspective on international history and enriching the literature on collective memory this book will prove fascinating reading for all students of the Second World War **Roosevelt and the Munich Crisis** Barbara Reardon

Farnham,2021-03-09 Franklin Roosevelt s intentions during the three years between Munich and Pearl Harbor have been a source of controversy among historians for decades Barbara Farnham offers both a theory of how the domestic political context affects foreign policy decisions in general and a fresh interpretation of FDR s post Munich policies based on the insights that the theory provides Between 1936 and 1938 Roosevelt searched for ways to influence the deteriorating international situation When Hitler s behavior during the Munich crisis showed him to be incorrigibly aggressive FDR settled on aiding the democracies a course to which he adhered until America s entry into the war This policy attracted him because it allowed him to deal with a serious problem the conflict between the need to stop Hitler and the domestic imperative to avoid any risk of American involvement in a war Because existing theoretical approaches to value conflict ignore the influence of political factors on decision making they offer little help in explaining Roosevelt s behavior As an alternative this book develops a political approach to decision making which focuses on the impact that awareness of the imperatives of the political context can have on decision making processes and through them policy outcomes It suggests that in the face of a clash of central values decision makers who are aware of the demands of the political context are likely to be reluctant to make trade offs seeking instead a solution that gives some measure of satisfaction to all the values implicated in the decision

American Narcissism Wilber W. Caldwell,2006 Nationalism is unique in America Our notions of superiority spring from visions of chosen ness mission and high destiny frontier self sufficiency and the triumph of the immigrant experience Where is the line between benign patriotism and malignant nationalism individual liberty and mass tyranny Building for War Bonita Gilbert,2012-12-07 The story of the Americans who came under attack five hours after Pearl Harbor was hit Intriguing informative gripping and at times very moving Naval Historical Foundation This intimately researched work tells the story of the thousand plus Depression era civilian contractors who came to Wake Island a remote Pacific atoll in 1941 to build an air station for the US Navy charting the contractors hard won progress as they scramble to build the naval base as well as runways for US Army Air Corps B 17 Flying Fortresses while war clouds gather over the Pacific Five hours after their attack on Pearl Harbor the Japanese struck Wake Island which was now isolated from assistance The undermanned Marine Corps garrison augmented by civilian contractor volunteers fought back against repeated enemy attacks at one point thwarting a

massive landing assault The atoll was under siege for two weeks as its defenders continued to hope for the US Navy to come to their rescue Finally succumbing to an overwhelming amphibious attack the surviving Americans military and civilian were taken prisoner While most were shipped off to Japanese POW camps for slave labor a number of the civilians were retained as workers on occupied Wake Later in the war the last ninety eight Americans were brutally massacred by their captors The civilian contractors who had risked distance and danger for well paying jobs ended up paying a steep price their freedom and for many their lives Written by the daughter and granddaughter of civilians who served on Wake Island Building for War sheds new light on why the United States was taken by surprise in December 1941 and shines a spotlight on the little known virtually forgotten story of a group of civilian workers and their families whose lives were forever changed by the events on this tiny atoll *The Lion and the Eagle* Conrad Kent, Thomas Wolber, Cameron Hewitt, 1999-12-01 The German and Spanish speaking worlds have over the centuries developed an intrinsic relationship one which predates the Habsburg dynasty and the Renaissance and baroque periods The cross fertilization and challenges have been both fruitful and complex with novel inventions surfacing in one culture often achieving their greatest prosperity in the other Martin Luther s Protestant Reformation stimulated a response in Spain that was to define the European Counter Reformation Spanish Baroque writers were seminal in the development of German Romanticism Carl Christian Friedrich Krause and other nineteenth century liberals provided the foundation for Spanish reformist efforts on the one hand while German conservatives like Novalis and Adam M ller inspired conservatvies on the other the music of Richard Wagner transformed Spanish music and the Spanish stage at the turn of the twentieth century Pablo Picasso and other artists of the Spanish avant garde sparked the enthusiasm of the Germans before the Nazi era Today German and Spanish intellectuals and writers share a similar commitment to the creation of a European culture in the face of resistance from other members of the European Union Viewed from a variety of disciplines this volume explores the relentlessly consistent albeit often forgotten connections between the two linguistic and cultural groups revealing the myriad of ways in which they have shared and transformed literature art culture politics and history Pursuing the National Interest Karl K. Schonberg, 2003-10-30 The history of twentieth century American foreign policy presents an indictment of classical and structural realism and systemic theories of international relations more generally Examining five crucial movements of transition in American foreign policy making before and after each of the world wars and the end of the Cold War Shonberg argues that the national interest resides mostly in the eye of the beholder and that the idiosyncratic perceptions beliefs and values of individuals are of vital importance in the policy process Thus America s recent experiences in global politics interpreted through the lens of national ideology has defined and created the ultimate shape of a new foreign policy *The War Against Japan, 1941-1945* John J. Sbrega, 2015-06-12 With over 5 200 entries this volume remains one of the most extensive annotated bibliographies on the USA s fight against Japan in the Second World War Including books articles and de classified documents up to the end of 1987 the book is organized into six

categories Part 1 presents reference works including encyclopedias pictorial accounts military histories East Asian histories hisotoriographies Part 2 covers diplomatic political aspects of the war against Japan Part 3 contains sources on the economic and legal aspects of the war against Japan Part 4 presents sources on the military apsects of the war embracing land air and sea forces Religious aspects of the war are covered in Part 5 and Part 6 deals with the social and cultural aspects including substantial sections on the treatment of Japanese minorities in the USA Hawaii Canada and Peru

U. S. Global Defense Posture, 1783-2011 Stacie L. Pettyjohn, 2012-12-19 Debates over the U S global defense posture are not new As policymakers today evaluate the U S forward military presence it is important that they understand how and why the U S global posture has changed in the past Today s posture is under increasing pressure from a number of sources including budgetary constraints precision guided weapons that reduce the survivability of forward bases and host nation opposition to a U S military presence This monograph aims to describe the evolution of the U S global defense posture from 1783 to the present and to explain how the United States has grown from a relatively weak and insular regional power that was primarily concerned with territorial defense into the preeminent global power with an expansive system of overseas bases and forward deployed forces that enable it to conduct expeditionary operations around the globe This historical overview has important implications for current policy and future efforts to develop an American military strategy in particular the scope size and type of military presence overseas As new and unpredictable threats emerge alliance relationships are revised and resources decline past efforts at dealing with similar problems yield important lessons for future decisions The author draws recommendations out of these lessons that touch on the importance of strategic planning the need to think globally the desirability of a lighter more agile footprint overseas and more

Deciphering the Balkan Enigma William Thomas Johnsen, 1993 *Toward an Entangling Alliance* Ronald Powaski, 1991-03-30 Conceived with a dedication to manifest destiny individual freedom and opportunity the United States from its inception made an effort to avoid political or military involvement in Europe which could conflict with its pursuit of those goals Ronald E Powaski s study analyzes why the United States pursued this isolationist policy and the factors events and personalities which challenged it and finally necessitated its abandonment Powaski s chronological approach to the topic begins with historical background material which identifies the origins of isolationism as a natural outgrowth of colonial ideals The major portion of the text is devoted to how the political military and economic upheavals of the twentieth century gradually forced the United States to reevaluate its isolationist policy ultimately reaffirming its original ideals through continuing involvement in world peace organizations A list of suggested reading and a full index complete this work

Arming the Nation for War Robert P. Patterson, 2014-10-30 A decorated World War I veteran Federal Judge Robert P Patterson knew all too well the needs of soldiers on the battlefield He was thus dismayed by America s lack of military preparedness when a second great war engulfed Europe in 1939 40 With the international crisis worsening Patterson even resumed military training as a forty nine yearold private before being named

assistant secretary of war in July 1940 That appointment set the stage for Patterson's central role in the country's massive mobilization and supply effort which helped the Allies win World War II In *Arming the Nation for War* a previously unpublished account long buried among the late author's papers and originally marked confidential Patterson describes the vast challenges the United States faced as it had to equip in a desperately short time a fighting force capable of confronting a formidable enemy Brimming with data and detail the book also abounds with deep insights into the myriad problems encountered on the domestic mobilization front including the sometimes divergent interests of wartime planners and industrial leaders along with the logistical difficulties of supplying far flung theaters of war with everything from ships planes and tanks to food and medicine Determined to remind his contemporaries of how narrow the Allied margin of victory was and that the war's lessons not be forgotten Patterson clearly intended the manuscript which he wrote between 1945 and 47 when he was President Truman's secretary of war to contribute to the postwar debates on the future of the military establishment That passage of the National Security Act of 1947 to which Patterson was a key contributor answered many of his concerns may explain why he never published the book during his lifetime A unique document offering an insider's view of a watershed historical moment Patterson's text is complemented by editor Brian Waddell's extensive introduction and notes In addition Robert M Morgenthau former Manhattan district attorney and a protégé of Patterson's for four years prior to the latter's death in a 1952 plane crash offers a heartfelt remembrance of a man the *New York Herald Tribune* called an example of the public spirited citizen

America Embattled Richard Crockatt, 2012-10-12 What causes Anti Americanism and where are its historical roots What is the impact of 9/11 on America's sense of itself and its role in the world Is America paradoxically a victim of its own political and economic power This book seeks to understand the terrible attacks of September 11th within a broader historical political and ideological context Rather than drawing on simple clash of civilisation oppositions the author argues that it is important to have an awareness of the complex historical processes which influence America's sense of itself and its changing view of the world How the world especially the Muslim world views America The changing nature of international politics and the global system since the end of the cold war Drawing on a wide range of contemporary and historical sources Richard Crockatt has written a balanced subtle and highly readable book which provides genuine insight into American foreign policy anti Americanism and Islamic fundamentalism It will be important reading for all those seeking to understand the background to the war on terror

Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office, 1968 Includes Part 1 Number 1 Books and Pamphlets Including Serials and Contributions to Periodicals

January/June [The American Experience in World War II: The atomic bomb in history and memory](#) Walter L. Hixson, 2003 World War II changed the face of the United States catapulting the country out of economic depression political isolation and social conservatism Ultimately the war was a major formative factor in the creation of modern America This unique twelve volume set provides comprehensive coverage of this transformation in its domestic policies diplomatic relations and military

strategies as well as the changing cultural and social arenas The collection presents the history of the creation of a super power prior to during and after the war analyzing all major phases of the U S involvement making it a one stop resource that will be essential for all libraries supporting a history curriculum This volume is available on its own or as part of the twelve volume set The American Experience in World War II For a complete list of the volume titles in this set see the listing for The American Experience in World War II ISBN 0 415 94028 1
