*Toward an Anthropology of the Biosciences*

**School of American Research Advanced Seminar Series**

*Edited by Sarah Franklin & Margaret Lock*

**Contributors** Sarah Franklin, Donna J. Haraway, Corinne P. Hayden, Stefan Helmreich, Linda F. Hogle, Hannah Landecker, Margaret Lock, Lynn Morgan, Rayna Rapp

# Remaking Life And Death

**K Morrison**

## **Remaking Life And Death:**

**Remaking Life & Death** Sarah Franklin, Margaret M. Lock, 2003 This volume reflects the growing international concern about the issues of organ transplantation new reproductive and genetic technologies and embryo research It examines the political economy of body parts organ and tissue harvesting bio prospecting and the patenting of life forms as well as governance and regulation in cloning organ transplantation tissue engineering and artificial life system procedures It reaffirms the value of cross cultural comparison and assesses advances in bioscience Remaking Life and Death Sarah Franklin, Margaret Lock, 2003 The Politics of Life Itself Nikolas Rose, 2009-02-09 For centuries medicine aimed to treat abnormalities But today normality itself is open to medical modification Equipped with a new molecular understanding of bodies and minds and new techniques for manipulating basic life processes at the level of molecules cells and genes medicine now seeks to manage human vital processes The Politics of Life Itself offers a much needed examination of recent developments in the life sciences and biomedicine that have led to the widespread politicization of medicine human life and biotechnology Avoiding the hype of popular science and the pessimism of most social science Nikolas Rose analyzes contemporary molecular biopolitics examining developments in genomics neuroscience pharmacology and psychopharmacology and the ways they have affected racial politics crime control and psychiatry Rose analyzes the transformation of biomedicine from the practice of healing to the government of life the new emphasis on treating disease susceptibilities rather than disease the shift in our understanding of the patient the emergence of new forms of medical activism the rise of biocapital and the mutations in biopower He concludes that these developments have profound consequences for who we think we are and who we want to be **The Right to Life and the Value of Life** Jon Yorke, 2016-03-03 This groundbreaking book is the first collection to investigate the law political science and ethical perspectives collectively in relation to the right and value of life Its contributions from international roster of scholars are organized around five themes a theoretical positioning of life and death War armed conflict and detention Death as punishment Medical parameters for ending life and medical policies for the preservation of life In studying this issue in its contemporary contexts of right and value the volume fills the current scholarly lacuna in the general subject of the orientations of life It presents a much needed examination of key issues in a broad practical and theoretical context and holds broad appeal for scholars researchers and students occupied with issues of war armed conflict the death penalty and various contemporary medico legal scenarios *An Anthropology of Biomedicine* Margaret M. Lock, Vinh-Kim Nguyen, 2011-09-09 *An Anthropology of Biomedicine* is an exciting new introduction to biomedicine and its global implications Focusing on the ways in which the application of biomedical technologies bring about radical changes to societies at large cultural anthropologist Margaret Lock and her co author physician and medical anthropologist Vinh Kim Nguyen develop and integrate the thesis that the human body in health and illness is the elusive product of nature and culture that refuses to be

pinned down Introduces biomedicine from an anthropological perspective exploring the entanglement of material bodies with history environment culture and politics Develops and integrates an original theory that the human body in health and illness is not an ontological given but a moveable malleable entity Makes extensive use of historical and contemporary ethnographic materials around the globe to illustrate the importance of this methodological approach Integrates key new research data with more classical material covering the management of epidemics famines fertility and birth by military doctors from colonial times on Uses numerous case studies to illustrate concepts such as the global commodification of human bodies and body parts modern forms of population and the extension of biomedical technologies into domestic and intimate domains Winner of the 2010 Prose Award for Archaeology and Anthropology

**The Future of Aging** ,2010-08-17 Just as the health costs of aging threaten to bankrupt developed countries this book makes the scientific case that a biological bailout could be on the way and that human aging can be different in the future than it is today Here 40 authors argue how our improving understanding of the biology of aging and selected technologies should enable the successful use of many different and complementary methods for ameliorating aging and why such interventions are appropriate based on our current historical anthropological philosophical ethical evolutionary and biological context Challenging concepts are presented together with in depth reviews and paradigm breaking proposals that collectively illustrate the potential for changing aging as never before The proposals extend from today to a future many decades from now in which the control of aging may become effectively complete Examples include sirtuin modulating pills new concepts for attacking cardiovascular disease and cancer mitochondrial rejuvenation stem cell therapies and regeneration tissue reconstruction telomere maintenance prevention of immunosenescence extracellular rejuvenation artificial DNA repair and full deployment of nanotechnology The Future of Aging will make you think about aging differently and is a challenge to all of us to open our eyes to the future therapeutic potential of biogerontology

**Death Matters** Tora Holmberg,Annika Jonsson,Fredrik Palm,2019-04-05 This book investigates death as part of contemporary everyday experience and practices Through a cultural sociological lens it studies death as it remains constantly at the edge of our consciousness shaping the ways in which we move through social reality As such Death Matters is a significant contribution to death studies going beyond traditional parameters of the field by addressing the cultural omnipresence of death The contributions analyse several death related meaning making processes arguing that meanings emerging from culturally shared narratives social institutions and material conditions are just as important as death practices in understanding the role of death in society Drawing on the related themes of places of absence and presence disease and bodies and persons and non persons the authors explore a variety of areas of social life from haunting to celebrity deaths to move the notion of death from the margins of social reality to ongoing everyday life This far reaching collection will be of use to scholars and students across death studies sociology anthropology philosophy culture media and communication studies

**Cloning Wild Life** Carrie Friese,2013-09-02 In this brilliant study of cloned wild life

Carrie Friese adds a whole new dimension to the study of reproduction illustrating vividly and persuasively how social and biological reproduction are inextricably bound together and why this matters Sarah Franklin author of *Dolly Mixtures* the *Remaking of Genealogy* The natural world is marked by an ever increasing loss of varied habitats a growing number of species extinctions and a full range of new kinds of dilemmas posed by global warming At the same time humans are also working to actively shape this natural world through contemporary bioscience and biotechnology In *Cloning Wild Life* Carrie Friese posits that cloned endangered animals in zoos sit at the apex of these two trends as humans seek a scientific solution to environmental crisis Often fraught with controversy cloning technologies Friese argues significantly affect our conceptualizations of and engagements with wildlife and nature By studying animals at different locations Friese explores the human practices surrounding the cloning of endangered animals She visits zoos the San Diego Zoological Park the Audubon Center in New Orleans and the Zoological Society of London to see cloning and related practices in action as well as attending academic and medical conferences and interviewing scientists conservationists and zookeepers involved in cloning Ultimately she concludes that the act of recalibrating nature through science is what most disturbs us about cloning animals in captivity revealing that debates over cloning become in the end a site of political struggle between different human groups Moreover Friese explores the implications of the social role that animals at the zoo play in the first place how they are viewed consumed and used by humans for our own needs A unique study uniting sociology and the study of science and technology *Cloning Wild Life* demonstrates just how much bioscience reproduces and changes our ideas about the meaning of life itself Carrie Friese is Lecturer in Sociology at the London School of Economics and Political Science

**The SAGE Handbook of Social Anthropology** Richard Fardon,Oliva Harris,Trevor H J Marchand,Cris Shore,Veronica Strang,Richard Wilson,Mark Nuttall,2012-07-25 In two volumes the SAGE Handbook of Social Anthropology provides the definitive overview of contemporary research in the discipline It explains the what where and how of current and anticipated work in Social Anthropology With 80 authors contributing more than 60 chapters this is the most comprehensive and up to date statement of research in Social Anthropology available and the essential point of departure for future projects The Handbook is divided into four sections Part I Interfaces examines Social Anthropology's disciplinary connections from Art and Literature to Politics and Economics from Linguistics to Biomedicine from History to Media Studies Part II Places examines place region culture and history from regional area studies to a globalized world Part III Methods examines issues of method from archives to war zones from development projects to art objects and from ethics to comparison Part IV Futures anticipates anthropologies to come in the Brain Sciences in post Development in the Body and Health and in new Technologies and Materialities Edited by the leading figures in social anthropology the Handbook includes a substantive introduction by Richard Fardon a think piece by Jean and John Comaroff and a concluding last word on futures by Marilyn Strathern The authors each at the leading edge of the discipline contribute in depth chapters on both the foundational ideas and the latest

research Comprehensive and detailed this magisterial Handbook overviews the last 25 years of the social anthropological imagination It will speak to scholars in Social Anthropology and its many related disciplines *Bioinsecurities* Neel Ahuja,2016-03-31 In *Bioinsecurities* Neel Ahuja argues that U S imperial expansion has been shaped by the attempts of health and military officials to control the interactions of humans animals viruses and bacteria at the borders of U S influence a phenomenon called the government of species The book explores efforts to control the spread of Hansen s disease venereal disease polio smallpox and HIV through interventions linking the continental United States to Hawai i Panam Puerto Rico Cuba Congo Iraq and India in the twentieth and twenty first centuries Ahuja argues that racial fears of contagion helped to produce public optimism concerning state uses of pharmaceuticals medical experimentation military intervention and incarceration to regulate the immune capacities of the body In the process the security state made the biological structures of human and animal populations into sites of struggle in the politics of empire unleashing new patient activisms and forms of resistance to medical and military authority across the increasingly global sphere of U S influence **Social Bodies** Helen Lambert,Maryon McDonald,2009 A proliferation of press headlines social science texts and ethical concerns about the social implications of recent developments in human genetics and biomedicine have created a sense that at least in European and American contexts both the way we treat the human body and our attitudes towards it have changed This volume asks what really happens to social relations in the face of new types of transaction such as organ donation forensic identification and other new medical and reproductive technologies that involve the use of corporeal material Drawing on comparative insights into how human biological material is treated it aims to consider how far human bodies and their components are themselves inherently social The case studies ranging from animal human transformations in Amazonia to forensic reconstruction in post conflict Serbia and the treatment of Native American specimens in English museums all underline that without social relations there are no bodies but only human remains The volume gives us new and striking ethnographic insights into bodies as sociality as well as a potentially powerful analytical reconsideration of notions of embodiment It makes a novel contribution too to science and society debates **Death in the Early Twenty-first Century** Sébastien Penmellen Boret,Susan Orpett Long,Sergei Kan,2017-07-18 Focusing on tradition technology and authority this volume challenges classical understandings that mortuary rites are inherently conservative The contributors examine innovative and enduring ideas and practices of death which reflect and constitute changing patterns of social relationships memorialisation and the afterlife This cross cultural study examines the lived experiences of men and women from societies across the globe with diverse religious heritages and secular value systems The book demonstrates that mortuary practices are not fixed forms but rather dynamic processes negotiated by the dying the bereaved funeral experts and public institutions In addition to offering a new theoretical perspective on the anthropology of death this work provides a rich resource for readers interested in human responses to mortality the one certainty of human existence Transhumanism Jennifer Huberman,2020-12-17

Through a detailed exploration of the study of transhumanism this book introduces students to the discipline of cultural anthropology

*Sounding the Limits of Life* Stefan Helmreich, 2015-10-27 What is life What is water What is sound In *Sounding the Limits of Life* anthropologist Stefan Helmreich investigates how contemporary scientists biologists oceanographers and audio engineers are redefining these crucial concepts Life water and sound are phenomena at once empirical and abstract material and formal scientific and social In the age of synthetic biology rising sea levels and new technologies of listening these phenomena stretch toward their conceptual snapping points breaching the boundaries between the natural cultural and virtual Through examinations of the computational life sciences marine biology astrobiology acoustics and more Helmreich follows scientists to the limits of these categories Along the way he offers critical accounts of such other than human entities as digital life forms microbes coral reefs whales seawater extraterrestrials tsunamis seashells and bionic cochlea He develops a new notion of sounding as investigating fathoming listening to describe the form of inquiry appropriate for tracking meanings and practices of the biological aquatic and sonic in a time of global change and climate crisis *Sounding the Limits of Life* shows that life water and sound no longer mean what they once did and that what count as their essential natures are under dynamic revision

*Life on Ice* Joanna Radin, 2017-03-27 After the atomic bombing at the end of World War II anxieties about survival in the nuclear age led scientists to begin stockpiling and freezing hundreds of thousands of blood samples from indigenous communities around the world These samples were believed to embody potentially invaluable biological information about genetic ancestry evolution microbes and much more Today they persist in freezers as part of a global tissue based infrastructure In *Life on Ice* Joanna Radin examines how and why these frozen blood samples shaped the practice known as biobanking The Cold War projects Radin tracks were meant to form an enduring total archive of indigenous blood before it was altered by the polluting forces of modernity Freezing allowed that blood to act as a time traveling resource Radin explores the unique cultural and technical circumstances that created and gave momentum to the phenomenon of life on ice and shows how these preserved blood samples served as the building blocks for biomedicine at the dawn of the genomic age In an era of vigorous ethical legal and cultural debates about genetic privacy and identity *Life on Ice* reveals the larger picture how we got here and the promises and problems involved with finding new uses for cold human blood samples

*Death Glitch* Tamara Kneese, 2023-08-15 An accessible yet erudite deep dive into how platforms are remaking experiences of death Since the internet's earliest days people have died and mourned online In quiet corners of past iterations of the web the dead linger But attempts at preserving the data of the dead are often ill fated for websites and devices decay and die just as people do Death disrupts technologists plans for platforms It reveals how digital production is always collaborative undermining the entrepreneurial platform economy and highlighting the flaws of techno solutionism Big Tech has authority not only over people's lives but over their experiences of death as well Ordinary users and workers though advocate for changes to tech companies policies around death Drawing on internet histories along with interviews with

founders of digital afterlife startups caretakers of illness blogs and transhumanist tinkerers the technology scholar Tamara Kneese takes readers on a vibrant tour of the ways that platforms and people work together to care for digital remains What happens when commercial platforms encounter the messiness of mortality Cross-Cultural Perspectives on Personhood and the Life Course Cathrine Degnen, 2018-04-24 Exploring notions of the person through a wide range of anthropological literature Cathrine Degnen analyses how personhood is built affirmed and maintained during various life stages and via multiple cultural forms and practices In discussing the life course she investigates personhood as a concept at the beginning of life throughout life as lived at the edges of being and ultimately at life's end Cross Cultural Perspectives on Personhood and the Life Course moves beyond the human person in isolation to consider how personhood is fashioned with regard to place and how non humans can also be recognised as persons Through multiple ethnographic accounts Degnen shows that personhood emerges as a relational and processual entity brought into being via reciprocal fields of social relations

**Making Death Matter** Tara Mehrabi, 2016-11-18 This thesis is a contribution to feminist laboratory studies and a critical engagement with the natural sciences or more precisely research on the biochemical workings and deadly relations of Alzheimer's disease emanating from a year of field work in a Drosophila fly lab The natural sciences have been a point of fascination within the field of gender studies for decades Such sciences produce knowledge on what gets to count as nature and natural healthy or sick normal or not and they have done it with great societal authority and impact throughout European modernity However feminist technoscience scholars argue that science and knowledge is socially produced and political too Concepts such as nature animal human body sex and life itself are not simply given natural realities but phenomena processed through the naturecultures of the laboratory Situated within such theoretical and methodological approaches this thesis wonders how scientific facts about Alzheimer's disease are made in the lab today What kinds of realities bodies and ethico political concerns are enacted Who gets to live and who gets to die in everyday laboratory practices Theoretically the thesis is grounded particularly within Karen Barad's agential realism and posthumanist performativity and as such it accounts for human and nonhuman entanglements through which AD is performed in the lab in relational ways In other words the thesis explores how AD is enacted in the bodies of transgenic fruit flies Drosophila melanogaster as these flies embody the disease live and die with it Last but not least the thesis explores the materialities of death dying embodiment and biological waste in a biochemistry lab as constitutive parts of the produced knowledge about AD Denna avhandling utgör ett bidrag till feministiska laboratoriestudier och är en kritisk analys av naturvetenskaperna När man bestämmer det är en feministisk studie av forskning om Alzheimers sjukdom dess biokemiska verkningar och olika relationer utifrån ett forskningsfältarbete som labbtekniker i ett fluglabb Naturvetenskaperna har under decennier fascinerat genusforskare Dessa discipliner formar kunskapen om vad som räknas som natur och naturligt hlsa och sjukdom normalt eller inte och de har gjort så med stor samhälls auktoritet genom Europeisk modernitet Forskare inom feministiska

teknovetenskapliga studier har länge handlat om att vetenskap också är social praktik med politiska implikationer Begrepp som natur, djur, människligt eller kropp, kön och livet självt kan inte tas för givna utan formas också i laboratoriets naturkultur Med utgångspunkt i sådana feministiska teknovetenskapliga teoribildningar och metodologiska utgångspunkter bearbetar denna avhandling frågor om hur vetenskapliga fakta om Alzheimers sjukdom skapas i laboratoriet idag Vilka kroppar, verkligheter och etiska politiska förhållningssätt aktualiseras Vem får leva och vem får dö i vardagliga laboratoriepraktiker Teoretiskt bygger avhandlingen framför allt på Karen Barads agenciella realism när den diskuterar sammanvävningen mellan människligt och icke-människt samt det som kallas posthumanistisk performativitet i relation till Alzheimers sjukdom som den förkroppsligas i transgena fruktflugor *Drosophila melanogaster* i laboratoriet I särskilt fokus står relationerna som skapas inom den biokemiska forskningen kring döda biologiskt avfall och kroppslighet

**The Origins of Sociable Life: Evolution After Science Studies** M. Hird, 2009-05-29 This ambitious book considers social scientific topics such as identity, community, sexual difference, self and ecology from a microbial perspective Harnessing research and evidence from earth systems science and microbiology and particularly focusing on symbiosis and symbiogenesis the book argues for the development of a microontology of life

**Technonatures** Damian F. White, Chris Wilbert, 2010-04-05 Environmentalism and social sciences appear to be in a period of disorientation and perhaps transition In this innovative collection leading international thinkers explore the notion that one explanation for the current malaise of the politics of ecology is that we increasingly find ourselves negotiating technonatural space-times International contributors map the political ecologies of our technonatural present and indicate possible paths for technonatural futures The term technonatures is in debt to a long line of environmental cultural theory from Raymond Williams onwards problematizing the idea that a politics of the environment can be usefully grounded in terms of the rhetoric of defending the pure, the authentic or an idealized past solely in terms of the ecological or the natural In using the term technonatures as an organizing myth and metaphor for thinking about the politics of nature in contemporary times this collection seeks to explore one increasingly pronounced dimension of the social natures discussion Technonatures highlights a growing range of voices considering the claim that we are not only inhabiting diverse social natures but that within such natures our knowledge of our worlds is ever more technologically mediated, produced, enacted and contested

## Decoding **Remaking Life And Death**: Revealing the Captivating Potential of Verbal Expression

In an era characterized by interconnectedness and an insatiable thirst for knowledge, the captivating potential of verbal expression has emerged as a formidable force. Its ability to evoke sentiments, stimulate introspection, and incite profound transformations is genuinely awe-inspiring. Within the pages of "**Remaking Life And Death**," a mesmerizing literary creation penned by a celebrated wordsmith, readers attempt an enlightening odyssey, unraveling the intricate significance of language and its enduring impact on our lives. In this appraisal, we shall explore the book's central themes, evaluate its distinctive writing style, and gauge its pervasive influence on the hearts and minds of its readership.

## **Remaking Life And Death Introduction**

In the digital age, access to information has become easier than ever before. The ability to download Remaking Life And Death has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Remaking Life And Death has opened up a world of possibilities. Downloading Remaking Life And Death provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Remaking Life And Death has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Remaking Life And Death. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Remaking Life And Death. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Remaking Life And Death, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites

they are downloading from. In conclusion, the ability to download Remaking Life And Death has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

## **FAQs About Remaking Life And Death Books**

**What is a Remaking Life And Death PDF?** A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Remaking Life And Death PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Remaking Life And Death PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Remaking Life And Death PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Remaking Life And Death PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or

may not be legal depending on the circumstances and local laws.
