Posthumous America Benjamin Hoffmann,2018-05-15 Benjamin Hoffmann s Posthumous America examines the literary idealization of a lost American past in the works of French writers of the eighteenth and nineteenth centuries For writers such as John Hector St John de Cr vec ur and Claude Fran ois de Lezay

Marysia America was never more potent as a driving ideal than in its loss Examining the paradoxical American paradise depicted in Crèvecoeur's *Lettres d'un cultivateur américain* 1784 the *Uchronotopia* the imaginary perfect society set in America and based on what France might have become without the Revolution of 1789 Marysia's *Lettres crites des rives de l'Ohio* 1792 and the political and nationalistic motivations behind François-René Chateaubriand's idealization of America in *Voyage en Amérique* 1827 and Mémoires d'outre-tombe 1850 Hoffmann shows how the authors' liberties with the truth helped create the idealized and nostalgic representation of America that dominated the collective European consciousness of their times From a historical perspective Posthumous America works to determine when exactly these writers stopped transcribing what they actually observed in America and started giving imaginary accounts of their experiences A vital contribution to transatlantic studies this detailed exploration of French perspectives on the colonial era the War of Independence and the birth of the American Republic sheds new light on the French fascination with America Posthumous America will be invaluable for historians political scientists and specialists of literature whose scholarship looks at America through European eyes

Global Inequality Kenneth McGill, 2016-05-20 Inequality is currently gaining considerable attention in academic policy and media circles From Thomas Piketty to Robert Putnam there is no shortage of economic sociological or political analyses But what does anthropology with its focus on the qualitative character of relationships between people have to offer Drawing on current scholarship and illustrative ethnographic case studies McGill argues that anthropology is particularly well suited to interrogating global inequality not just within nations but across nations as well Briefly and accessibly written and peppered with vivid ethnographic examples that bring contemporary research to life *Global Inequality* is an introduction to the topic from a unique and important perspective

Abraham Lincoln and the Forge of National Memory Barry Schwartz, 2000 Abraham Lincoln has long dominated the pantheon of American presidents From his lavish memorial in Washington and immortalization on Mount Rushmore one might assume he was a national hero rather than a controversial president who came close to losing his 1864 bid for reelection In *Abraham Lincoln and the Forge of National Memory* Barry Schwartz aims at these contradictions in his study of Lincoln's reputation from the president's death through the industrial revolution to his apotheosis during the Progressive Era and First World War Schwartz draws on a wide array of materials painting and sculpture popular magazines and school textbooks newspapers and oratory to examine the role that Lincoln's memory has played in American life He explains for example how dramatic funeral rites elevated Lincoln's reputation even while funeral eulogists questioned his presidential actions and how his reputation diminished and grew over the next four decades Schwartz links transformations of Lincoln's image to changes in the society Commemorating Lincoln helped Americans to think about their country's development from a rural republic to an industrial democracy and to articulate the way economic and political reform military power ethnic and race relations and nationalism enhanced their conception of themselves as one people Lincoln's memory assumed a double aspect of mirror and lamp acting at once as a

reflection of the nation's concerns and an illumination of its ideals and Schwartz offers a fascinating view of these two functions as they were realized in the commemorative symbols of an ever widening circle of ethnic religious political and regional communities The first part of a study that will continue through the present Abraham Lincoln and the Forge of National Memory is the story of how America has shaped its past selectively and imaginatively around images rooted in a real person whose character and achievements helped shape his country's future
