Donham, Eisei Kurimoto, Alessandro Triulzi, 2002 This new volume examines the major changes effected by the socialist regime from the revolution of 1974 to its overthrow in 1991 and then into the current period which has been marked by moves towards local democracy and political devolution North America Ohio U Press Ethiopia Addis Ababa U Press

Ethiopia John Markakis, 2011 An historical overview of Ethiopia's transformation from a multicultural empire into a modern nation state Provides the gist of one scholar's knowledge of this country acquired over several decades The author of numerous works on Ethiopia Markakis presents here an overarching concise historical profile of a momentous effort to integrate a multicultural empire into a modern nation state The concept of nation state formation provides the analytical framework within which this process unfolds and the changes of direction it takes under different regimes as well as a standard for assessing its progress and shortcomings at each stage Over a century old the process is still far from completion and its ultimate success is far from certain In the author's view there are two major obstacles that need to be overcome two frontiers that need to be crossed to reach the desired goal The first is the monopoly of power inherited from the empire builders and zealously guarded ever since by a ruling class of Abyssinian origin The descendants of the people subjugated by the empire builders remain excluded from power a handicap that breeds political instability and violent conflict The second frontier is the arid lowlands on the margins of the state where the process of integration has not yet reached and where resistance to it is greatest Until this frontier is crossed the Ethiopian state will not have the secure borders that a mature nation state requires John Markakis is a political historian who has devoted a professional lifetime to the study of Ethiopia and its neighbours in the Horn of Africa He has published several books and many articles on this area

Reconfiguring Ethiopia: The Politics of Authoritarian Reform Jon Abbink, Tobias Hagmann, 2016-04-22 This book takes stock of political reform in Ethiopia and the transformation of Ethiopian society since the adoption of multi party politics and ethnic federalism in 1991 Decentralization attempted democratization

via ethno national representation and partial economic liberalization have reconfigured Ethiopian society and state in the past two decades Yet as the contributors to this volume demonstrate democracy in Ethiopia has not changed the authority structures and the culture of centralist decision making of the past The political system is tightly engineered and controlled from top to bottom by the ruling Ethiopian Peoples Revolutionary Democratic Front EPRDF Navigating between its 1991 announcements to democratise the country and its aversion to power sharing the EPRDF has established a de facto one party state that enjoys considerable international support This ruling party has embarked upon a technocratic developmental state trajectory ostensibly aimed at depoliticizing national policy and delegitimizing alternative courses The contributors analyze the dynamics of authoritarian state building political ethnicity electoral politics and state society relations that have marked the Ethiopian polity since the downfall of the socialist Derg regime Chapters on ethnic federalism revolutionary democracy opposition parties the press the judiciary state religion and state foreign donor relations provide the most comprehensive and thought provoking review of contemporary Ethiopian national politics to date This book is based on a special issue of the Journal of Eastern African Studies

Understanding Contemporary Ethiopia Gérard Prunier,Éloi Ficquet,2015-09-15 When we think of Ethiopia we tend to think in clichés Solomon and the Queen of Sheba the Falasha Jews the epic reign of Emperor Haile Selassie the Communist Revolution famine and civil war Among the countries of Africa it has a high profile yet is poorly known How ever all clichés contain within them a kernel of truth and occlude much more Today s Ethiopia and its painfully liberated sister state of Eritrea are largely obscured by these mythical views and a secondary literature that is partial or propagandist Moreover there have been few attempts to offer readers a comprehensive overview of the country s recent history politics and culture that goes beyond the usual guidebook fare Understanding Contemporary Ethiopia seeks to do just that presenting a measured detailed and systematic analysis of the main features of this unique country now building on the foundations of a magical and tumultuous past as it struggles to emerge in the modern world on its own terms

Dams, Power, and the Politics of Ethiopia's Renaissance Tom Lavers, 2024-10-01 This is an open access title available under the terms of a CC BY NC ND 4 0 International licence It is free to read on the Oxford Academic platform and offered as a free PDF download from OUP and selected open access locations

After more than a decade of construction Ethiopia is filling the Grand Ethiopian Renaissance Dam GERD a controversial dam with the potential to transform the hydrology and politics of the Nile Basin The GERD is the culmination of a dam building boom carried out over three decades and a key pillar of the Ethiopian Peoples Revolutionary Democratic Front s EPRDF efforts to bring about an Ethiopian Renaissance Dams Power and the Politics of Ethiopia s Renaissance provides a detailed examination of the domestic and international political dynamics that shaped Ethiopia s dam building drawing on extensive primary research including more than a hundred interviews with politicians technocrats consultants and donors The authors reflect on the implications of Ethiopia s dam building for broader debates about the role of the state in late development the dynamics of twenty first century dam building and the political economy of renewable energy transitions A central argument of the book is that Ethiopia s dam building is symbolic of the successes and failures of the EPRDF s developmental state On the one hand this dams boom enhanced electricity generation capacity while constituting a key element of the state infrastructure investment that turned Ethiopia into one of the world s fastest growing economies In contrast a politically driven decision making process undermined electricity planning contributed to an unsustainable debt burden and ultimately failed to provide reliable electricity access to key users Following the EPRDF s collapse the subsequent Prosperity Party government has taken steps away from the state led development model of its predecessor while labouring towards the final completion of the GERD

Politics and Violence in Eastern Africa David M. Anderson, Øystein H. Rolandsen, 2017-10-02 Over the fifty years between 1940 and 1990 the countries of eastern Africa were embroiled in a range of debilitating and destructive conflicts starting with the wars of independence but then incorporating rebellion secession and local insurrection as the Cold War replaced colonialism The articles gathered here illustrate how significant widespread and dramatic this violence was In these years violence was used as a principal instrument in the creation and consolidation of the authority of the state and it was also regularly and readily utilised by those who wished to challenge state authority through insurrection and secession Why was it that eastern Africa should have experienced such extensive and intensive violence in the fifty years before 1990 Was this resort to violence a consequence of imperial rule the legacy of oppressive colonial domination under a coercive and non representative state system Did essential contingencies such as the Cold War provoke and promote the use of violence Or was it a choice made by Africans themselves and their leaders a product of their own agency This book focuses on these turbulent decades exploring the principal conflicts in six key countries Kenya Uganda Sudan Ethiopia Somalia and Tanzania This book was published as a special issue of the Journal of Eastern African Studies

Dissent, Protest and Dispute in Africa Toyin Falola, Emmanuel Mbah, 2016-12-19 This book provides unique and detailed perspectives on different aspects of dissent protest and disputes and how these have in turn continued to pose challenges in Africa The contributors argue that dissent protest and most forms of disputes in Africa are the result of daily challenges that its people have faced and continue to encounter to this day These challenges include amongst others demands for transparency good governance and accountability waves of instability that have created insecurity in most parts of the continent an unsustainable level of youth unemployment rapid population growth a continent wide healthcare and poverty crises and numerous environmental challenges The chapters elevate the debates on dissent protest and disputes conflict in Africa by adding new ideas and introducing new and useful interpretations The book's strength lies in the contributors ability to conflate colonial and postcolonial tendencies to show how challenges of the past are not so different from those of today while also presenting important historical issues from various scholarly perspectives *Dissent Protest and Dispute in Africa* will be of interest for students and scholars of African history politics and culture as well as those interested in social movements and civil society

Food Security, Safety Nets and Social Protection in Ethiopia Dessalegn Rahmato, Alula Pankhurst, Jan-Gerrit van

Uffelen,2013 This book which examines Ethiopia s food security strategy and the safety net program from different approaches and perspectives in the context of the development of a social protection policy is a continuation of that tradition Ethiopia s safety net program is one of the largest and most influential social protection schemes in Africa and as noted by several authors in this volume provides important lessons beyond the Ethiopian context Back cover *Developing Heritage - Developing Countries* Marie Huber,2020-11-23 The history of development has paid only little attention to cultural projects This book looks at the development politics that shaped the UNESCO World Heritage programme with a case study of Ethiopian World Heritage sites from the 1960s to the 1980s In a large scale conservation and tourism planning project selected sites were set up and promoted as images of the Ethiopian nation This story serves to illustrate UNESCO s role in constructing a useful past in many African countries engaged in the process of nation building UNESCO experts and Ethiopian elites had a shared interest in producing a portfolio of antiquities and national parks to underwrite Ethiopia s imperial claims to regional hegemony with ancient history The key findings of this book highlight a continuity in Ethiopian history despite the political ruptures caused by the 1974 revolution and UNESCO s transformation from knowledge producer to actual provider of development policies The particular focus on the bureaucratic and political practices of heritage bridges a gap between cultural heritage studies and the history of international organisations The result is a first study of the global discourse on heritage as it emerged in the 1960s development decade *The Rise of the Infrastructure State* Seth Schindler,Jessica DiCarlo,2023-12-12 Tensions between the US and China have escalated as both powers seek to draw countries into their respective political and economic orbits by financing and constructing infrastructure Wide ranging and even handed this book offers a fresh interpretation of the territorial logic of US China rivalry and explores what it means for countries across Eurasia Africa and Latin America The chapters demonstrate that many countries navigate the global infrastructure boom by articulating novel spatial objectives and implementing political and economic reforms By focusing on people and places worldwide this book broadens perspectives on the US China rivalry beyond bipolarity It is an essential guide to 21st century politics **Inequalities and Conflicts in Modern and Contemporary African History** Jan Záhorký,2018-11-16 The book deals with historical social economic political and international causes contexts and consequences of inequalities and conflicts in Africa In particular the book is to puts conflicts and turbulences in Ethiopia in a broader African comparative perspective It also identifies and analyzes multiple causes of conflicts which cannot be studied only as a result of one variable Inequalities and conflicts have a whole set of causes stemming from historically inherited as well as global international socio economic political and other contexts which cannot be analyzed separately This book is vital for anyone who is interested in the study of African history comparative politics and conflict in Africa
