Inspirational Thoughts The whole world depends on thinking Thinking is positive or negative Positive thinking is the one that takes our life ahead and negative thinking is possessed by those people who do not believe in themselves for completion of any work They are lagging behind in the attainment of their goal due to this type of thinking Positive thinking is only possessed by those people who do not know to swim but have the determination of crossing the sea Today what we are is because of our thinking The way of thinking compels the body to produce the same result Positive thinking makes a person

happy whereas negative thinking makes a person feel hopeless sad and is surrounded by sorrows Truly the wheel of positive development in his life stops
