Johnson, Jonathan M. Yeager, 2024-06-18

Religion is deeply embedded in American history and one cannot understand American history s broad dynamics without accounting for it Without detailing the history of religions teachers cannot properly explain key themes in US survey courses such as politics social dynamics immigration and colonization gender race or class From early Native American beliefs and practices to European explorations of the New World to the most recent presidential elections religion has been a significant feature of the American story In Understanding and Teaching Religion in US History a diverse group of eminent historians and history teachers provide a practical tool for teachers looking to improve history instruction at the upper level secondary and undergraduate level This book offers a breadth of voices and approaches to teaching this crucial part of US history Religion can be a delicate topic especially in public education and many students and teachers bring strongly held views and identities to their understanding of the past The editors and contributors aim to help the reader see religion in fresh ways to present sources and perspectives that may be unfamiliar and to suggest practical interventions in the classroom that

Wyer, Jr., 2014-01-02 Narrative forms of mental representation and their influence on comprehension communication and judgment have rapidly become one of the main foci of research and theory in not only psychology but also other disciplines including linguistics sociology and anthropology No one has been more responsible for the awakening of interest in this area than Roger Schank and Bob Abelson In their target article they argue that narrative forms of mental representation or stories are the basic ingredients of social knowledge that play a fundamental role in the comprehension of information conveyed in a social context the storage of this information in memory and the later communication of it to others After explicating the cognitive processes that underlie the construction of narratives and their use in comprehension memory and communication the chapter authors consider the influence of stories on a number of more specific phenomena including political judgment marital relations and memory distortions that underlie errors in eyewitness testimony The provocativeness of the target chapter is matched by that of the companion articles each of which not only provides an important commentary on Schank and Abelson's conceptualization but also makes an important contribution to knowledge in its own right The diversity of perspectives reflected in these articles whose authors include researchers in linguistics memory and comprehension social inference cognitive development social judgment close relationships and social ecology testifies to the breadth of theoretical and empirical issues to which the target chapter is potentially relevant This volume is a timely and important contribution to research and theory not only in social cognition but in many other areas as well Sports Gail Fay, 2012-11-21 This volume looks at a wide variety of topics related to high school sports everything from choosing a sport to preparing to play at the college level **I remember ... (pb)** Rich Browne, 2012-07-21 Currently living in Ohio Rich Browne has been something of a gypsy He has lived in 12 states visited 49 of the 50 U S territories and 18 foreign countries He was a journalist He worked for nearly 30 some odd years for a variety of daily and non daily newspapers in a wide range of positions He also has been a war correspondent during Operation Just Cause in 1989 and a teacher and instructor In addition he also won many journalistic awards Rich served in the U S Navy and the U S Naval Reserve in the Vietnam Era but not in Vietnam and was in the Army National Guard when he was called up for service in the Persian Gulf War during both Operation Desert Shield Desert Storm where he served as an Army public affairs specialist in Saudi Arabia and Kuwait Rich now is medically retired from the U S Army where he was a civilian public affairs officer Esther's Notebooks Riad Sattouf, 2023-01-24 The author of *The Arab of the Future* chronicles the hilarious and heartbreaking true life of a young girl growing up in Paris Funny well observed contains immense daring and depth Sattouf has drawn a portrait of a generation Observer Graphic Novel of the Month Once a week for three years the comic book artist Riad Sattouf had a chat with his friend's outgoing young daughter Esther in which she told him about her family her school her friends her hopes her dreams and her fears After each meeting he would create a one page comic strip based on what she had said Esther's Notebooks gathers 156 of those strips spanning

Esther's life from ages nine through twelve giving us a delightful look into the daily dramas of this thoughtful intelligent and high spirited girl As The Guardian noted Each page of Esther's Notebooks is self contained there's usually a neat punchline but read them all and you come to see that Sattouf has drawn a portrait of a generation their hopes dreams and cultural references the way that their personalities backgrounds many of the children portrayed have parents who are immigrants and preconceived ideas about sexuality begin to play out even before they've begun secondary school The result is a bit like a cartoon version of Michael Apter's landmark TV series Up These funny well observed comics are fantastically daring
