## Remember When Again:

**Locomotive Engineers Journal**, 1928      Parliamentary Papers Great Britain. Parliament. House of Commons, 1889

Life Is a Challenge Erol Hafizbegovic, 2015-10-30 Almost everyone at one point in their life has asked themselves What is the purpose of life The author of this book devoted his life to finding the answer to this difficult question After many years of research he had made some interesting conclusions What is our purpose What is the secret to life What is the meaning of life Find all of the answers within this book      The Works of the Author of The Whole Duty of Man. In Two Volumes. Vol. I.

Containing, I. The Whole Duty of Man. II. The Gentlemans Calling. III. The Ladies Calling Richard Allestree, John Fell, Humphrey Henchman, Lady Dorothy Coventry Pakington, Richard Sterne, 1682      *The Wood Beyond the World (1894)*

William Morris, 2015-05-06 This early work by William Morris was originally published in 1899 and we are now republishing it with a brand new introductory biography William Morris was born in London England in 1834 Arguably best known as a textile designer he founded a design partnership which deeply influenced the decoration of churches and homes during the early 20th century However he is also considered an important Romantic writer and pioneer of the modern fantasy genre being a direct influence on authors such as J R R Tolkien As well as fiction Morris penned poetry and essays We are republishing these classic works in affordable high quality modern editions using the original text and artwork

*WOUNDED EAGLE* Frederick H. Hartmann, 2011-01-10 Two terms closely related are often used as synonyms but it is important to keep the distinction between them always in mind The meaning of national security is clear enough it means how safe are we as a nation It is not always easy to give an accurate answer to that question but we know what we are trying to assess National strategy on the other hand refers to how we seek to be secure It frequently is the subject of great continuous and emotional debate and little about it can be taken for granted This book examines the security of the United States from the perspective of the strategy we have followed at various times Because if things are not working out right it will be because our ideas about how to be secure and what we need to do about it need adjusting In the aftermath of our wounding experience in Vietnam the second war with Iraq and the later phase of the Afghanistan War we are at a point where we seriously need to consider that we have been doing wrong Embarking on a war is always a very risky thing If a nation is attacked it has little option it must either respond with force or surrender But going to war is often a matter of choice No decision a nation can make compares in importance with this one It is not just that war inevitably brings destruction and bloodshed in its train War turns individual lives upside down For the nation as a whole it means facing the sobering fact that whatever ability you previously had to unilaterally control your national fate is now abandoned You have entered a very dicey partnership to inflict mutual destruction No matter if you have a neat set of war plans which are designed to get you in the fighting where you want to go at minimum cost Your enemy will have other plans and they will enter into and distort the equation So the most important consideration when making the decision to go to war is to be as

absolutely sure as you can be that you really need to do it Is this war really necessary should be printed at the top of all congressional and White House stationery It is the prime question to which all analyses of national security must be addressed from the perspective of grand strategy It might be supposed that so solemn a decision as that of going to war would only be taken after much thought and examination both of alternatives and of the likely course of events given a range of scenarios Nothing could be farther from the actuality That is emphatically not how the United States goes to war Obviously for anyone to question whether war is really necessary or even desirable requires a cool head in a time when the discussion is highly likely to be very heated Yet if rational considerations are abandoned we get whatever comes of it good bad or worse That there are rational considerations for judging the desirability and feasibility of a war should not be doubted just because they are so often not taken seriously or fully into account We shall have much to say about what they are as we go on A second obvious but easily overlooked consideration is to have some plan for ending a war once begun When the leaders of the Japanese government decided in mid 1941 that war with the United States was inevitable they planned the Pearl Harbor attack While from America s point of view it was a sneak and unprovoked attack from a military point of view it was a brilliant initial move But the Japanese did not have the resources to invade the continental United States and subdue it So having begun well the Japanese had no real hopes of achieving the aims that had inspired the attack Unless they could count on America s nerves and will being so undermined by the Pearl Harbor attack that the United States would seek a negotiated peace If they had initially done a careful assessment of the American character and history they would have quickly realized that the United States was not likely      *The wood beyond the world. **National Labor Relations Act** United States. Congress. House. Special Committee to Investigate the National Labor Relations Board,1940      **Native Writers and Canadian Writing** W. H. New,2011-11-01 Sometimes people are willing to listen only to those voices that confirm the conventions they already know The unfamiliar makes them fear Or makes them condescend Neither fear nor condescension encourages listening And no one who does not listen learns to hear W H New Learning to Listen Native Writers and Canadian Writing is a co publication with Canadian Literature Canada s foremost literary journal of a special double issue which focuses on literature by and about Canada s Native peoples and contains original articles and poems by both Native and non Native writers These not only reflect the growing prominence of contemporary Native writing but also direct the reader to the traditional literature from which it springs and which has been largely misunderstood by the non Native community myths rituals and songs having been interpreted more often as artistic curiosities rather than the masterworks of a different culture Essays examining the conventional portrayals of Native people in literature touch on works which range from the eighteenth century journals of explorer Alexander Mackenzie to the novels of James Fenimore Cooper and to early writers in Canada such as historian humourist Thomas Chandler Haliburton Studies of Native literature focus on the oral literary traditions of the Haida and Inuit and their transcribers and on modern works by

playwright Tomson Highway and authors Lee Maracle and Thomas King among others These commentaries illuminate the way in which Native writers view themselves and their disparate worlds their gifts for pathos humour and self parody and their search for their own voices and distinct forms of communication Viewing Canada's Native peoples in historical anthropological and political contexts the book exposes prejudices and misconceptions entrenched since colonial days regarding Native societies and their moral spiritual and political values values embodied in their hereditary literature Just as Native visual art has flourished in recent years the book records the initiatives now being taken by Native societies to preserve and promote their own cultural identity through the spoken and written word These include control of their own education creative writing programs projects to preserve still extant languages folklore songs and rituals and the founding of Native publishing houses Not only are these endeavours valuable contributions to tribal cultures but they also contribute to the past and ongoing literary heritage of Canada as a nation Recognition of the place of Native literature as an integral part of the Canadian cultural scene is one of the main goals of Native Writers and Canadian Writing As W H New points out this collection is a speaking place a series of opportunities to begin listening Native Writers and Canadian Writing has been produced as one of the projects celebrating the 75th anniversary of the University of British Columbia **Detroit**

**Breakdown** D. E. Johnson, 2012-09-04 Summoned to the formidable Eloise Insane Asylum where Elizabeth's cousin has been accused of murder Will Anderson and Elizabeth Hume launch an investigation with the assistance of Detective Riordan and discover clues that suggest that Will who is posing as an inmate is in grave danger *Worship Is the Road to Revival* Robert E. Webber, 2024-11-19 Are we too comfortable with traditional forms of worship Are these forms truly historical or are they man made distortions of God's prescribed ecclesial order Do our accepted methods work against the functioning of the local church in its mission to evangelize and disciple rather than enhance it Join Dr Robert E Webber in this compilation of previously published articles and uncollected addresses as he discusses with characteristic humor and candor the diverse aspects of ancient and contemporary worship practices from the church in its infancy to the advent of the contemporary megachurch movement As in his many books including *Worship is a Verb* and *Worship Old New* Webber explores the attitudes and liturgies through which we approach a loving God Webber might infuriate or delight or both but he always stimulates *The Language and Imagery of Coma and Brain Injury* Matthew Colbeck, 2021-04-22 What occurs within coma What does the coma patient experience How does the patient perceive the world outside of coma if at all The simple answer to these questions is that we don't know Yet the sheer volume of literary and media texts would have us believe that we do Examining representations of coma and brain injury across a variety of texts this book investigates common tropes and linguistic devices used to portray the medical condition of coma giving rise to universal mythologies and misconceptions in the public domain Matthew Colbeck looks at how these texts represent or fail to represent long term brain injury drawing on narratives of coma survivors that have been produced and curated through writing groups he has run over the last 10 years

Discussing a diverse range of cultural works including novels by Irvine Welsh Stephen King Tom McCarthy and Douglas Coupland as well as film and media texts such as The Sopranos Kill Bill Coma and The Walking Dead Colbeck provides an explanation for our fascination with coma With a proliferation of misleading stories of survival in the media and in literature this book explores the potential impact these have upon our own understanding of coma and its victims **Love's**

Set in Authority Sara Jeannette Duncan,1996-09-16 In 1906 two years after the appearance of her best known novel The Imperialist Duncan published its darker twin an Anglo Indian novel which returns to political themes but with a deeper and more clinical irony than in her previous work Set in Authority is about illusions the imperial illusions of those who rule and are ruled the illusions of families about their members the illusions of men and women about each other The setting moves between the political drawing rooms of London and the English station at Pilaghur in the province of Ghoom where the murder of a native by an English soldier changes the lives of a cast of ruthlessly observed characters Duncan who grew up in Ontario led a remarkably varied life working as a political correspondent writing for the Washington Post the Toronto Globe and the Montreal Star and living in India for over twenty years She is increasingly being regarded as deserving of a place among the first rank of nineteenth and early twentieth century novelists the re publication of Set in Authority will do nothing to dispel that view *New York Court of Appeals. Elkins,2004 This deeply personal account of emotion and vulnerability draws upon anecdotes related to individual works of art to present a chronicle of how people have shown emotion before works of art in the past **News and Democratic Citizens in the Mobile Era** Johanna Dunaway,Kathleen Searles,2023 Though people frequently use mobile technologies for news consumption evidence from several fields shows that smaller screens and slower connection speeds pose major

limitations for meaningful reading In News and Democratic Citizens in the Mobile Era Johanna Dunaway and Kathleen Searles demonstrate the effects of mobile devices on news attention engagement and recall and identify a key cognitive mechanism underlying these effects cognitive effort They advance a theory that is both old and new the costs of information seeking curb participatory behaviors unless the benefits outweigh them For news consumers in the mobile era for example mobile devices increase the time economic and cognitive costs associated with information seeking Only for a small few do the benefits of attending to the news on mobile devices outweigh the costs Building on economic theories of news media choice and the ways audience demand shapes news craft and production Dunaway and Searles argue that attention engagement and recall suffer when people consume news on mobile devices They then investigate the implications of these effects for the news industry and for an informed democratic citizenry Drawing on both laboratory and real world studies Dunaway and Searles bring the psychophysiology of news consumption to bear on the question of what we could lose in an information environment characterized by a dramatic shift in reliance on mobile devices

**The Branch Exposition of the Bible, Volume 2** Michael A. Eaton, 2024-09-30 A great deal of biblical scholarship is written for academics and fails to edify readers or strengthen their Christian ministry Yet Christians need to be nourished by the word of God so they can mature in faith and righteousness Filling this gap The Branch Exposition of the Bible is a resource for preachers scholars and ordinary Christians alike to help open God's word and shed its light into life ministry and teaching Inspired by the words of the great reformer Martin Luther about shaking every branch of Scripture and with experience in ministering across Africa India and the West Michael A Eaton helps us understand the meaning of the Bible and taste its fruit Together with the New Testament volume this exposition of the Old Testament accessibly engages with the biblical languages gives application for our lives and leads us through each book of the Old Testament so that we can meet the resurrected Jesus Christ in the pages of Scripture

The Enchantment of Western Herbal Medicine Guy Waddell, 2020-01-30 Through interviews with British herbalists the importance of hidden experiences of meetings with plants is explored alongside how such enchantment has influenced the narrative of their lives Some herbalists have visible entryways into studying such as personal experience of taking herbal medicine a search for a new career or a love of nature Other entryways are more hidden with many noting crossings and callings with plants at a young age This sensual ability of herbs raises questions about the agency of living plants and of herbal medicines and about how the relationship between herbalists and plants may be reconceived Meetings with plants and herbal medicines allow herbalists to draw easily from a diverse range of influences that others may see as incommensurable This fascinating original and challenging book convincingly explores modern day herbalists understanding of their place in the complementary health world against the backdrop of encroaching professionalisation legitimacy and scientism In his case study interviews with herbalists Guy Waddell draws our attention to the enchanting power of plants and their agentic qualities In his quest for greater understanding of their sensual power the author rejects the conventional modernity

rationalisation thesis seen both in the sensual affective energy that herbalists draw upon and in the ontological implications of human nonhuman crossings This book is an excellent contribution to our understanding of Western herbal medicine and contemporary thought Dr Stuart McClean PhD Associate Professor in Public Health Health and Wellbeing University of the West of England In the field of herbal medicine few seem to know their history and the lessons it teaches us In *The Enchantment of Western Herbal Medicine* Dr Guy Waddell not only provides the reader with a detailed history of the trials and triumphs of British Phytotherapy but also travels into uncharted territory looking at how herbalists come to find their passion for plants and the use of them to help heal others This is a new area of research and exploring the entryways to practice through interviews and clinician narratives is both a fascinating undertaking and a unique way of understanding our own motivations and experiences as herbalists David Winston RH AHG DSc hc author of *Adaptogens Herbs for Strength Stamina and Stress Relief* Both compelling and challenging Guy Waddell's unique book is filled with the voices of herbalists and makes essential reading for anyone on their own journey into herbalism or those interested in human plant relationships Here is a much needed roadmap for all who are exploring the diverse choices between ancient and modern science and tradition evidence and intuition and human and nonhuman agency My congratulations to the author for so brilliantly signposting the fundamental unity that resides at the heart of herbal practice Phil Deakin President of the National Institute of Medical Herbalists
