Table of the Sun Bill Liggins, 2019-03-08 Finding ancient Egyptian scrolls is a dream for many archaeologists and historians But none of them would think of looking for them in Kenya Thirty years ago that s what

happened Nineteen ancient Egyptian scrolls were discovered on the slopes of Mt Kenya Why were they there They were three thousand miles out of place Who brought them there The archaeologists who found them had no answers It took Dr Mira Qasim and her team to finally decipher the scrolls and find the answers These scrolls weren't Egyptian she said They're actually Nubian from about 2 700 years ago the time of Egypt's 25th Dynasty when Nubia was a far larger empire than we knew Dr Qasim's findings had opened a window on a legendary land with a name that still resonates today as a term of endearment and empowerment a recognition of courage and poise Nubia What I found was Nubia's story as told by an orphan child named Kano Dr Kasim said He found his way to the core of Nubia and grew to become an essential part of its rise to empire I can't wait to share Kano's story with you

The Spiritual Background to the First World War Rudolf Steiner, 2024-05-24 With the unprecedented global conflict of the First World War as an overarching theme Rudolf Steiner addresses timeless issues such as the search for harmony between peoples and nations the development of the human capacity for love the contemporary presence of Christ and the questions of reincarnation and life after death Speaking in the German city of Stuttgart during and after the war years Steiner discusses the perpetual tension between East and West particularly in relation to Europe The war he says arose principally out of the Anglo-Saxon peoples' determination to exercise world domination Knowing that Slavic culture is destined to be the precursor of the sixth cultural epoch Western national interests resolved to make Eastern Europe specifically Russia the field for socialist experiments These events were aggravated by the failure of the Central European peoples in their own world historical task to rise to a broad sense of vision as intermediaries between the two groups Throughout Steiner refers to the work of individual Folk Souls but distinguishes them from the scourge of nationalism especially when it is based on blood whilst emphasizing the sovereignty of the individual human being Although more than a century old the enduring themes of these previously untranslated lectures will resonate with many readers today The main text is supplemented with an introduction by Simon Blaxland de Lange editorial notes and an index Sixteen lectures Stuttgart Sept 1914 March 1921 GA 174b

Mirrors of Destruction Omer Bartov,2000-08-24 *Mirrors of Destruction* examines the relationship between total war state organized genocide and the emergence of modern identity Here Omer Bartov demonstrates that in the twentieth century there have been intimate links between military conflict mass murder of civilian populations and the definition and categorization of groups and individuals These connections were most clearly manifested in the Holocaust as the Nazis attempted to exterminate European Jewry under cover of a brutal war and with the stated goal of creating a racially pure Aryan population and Germanic empire The Holocaust however can only be understood within the context of the century's predilection for applying massive and systematic methods of destruction to resolve conflicts over identity To provide the context for the Final Solution Bartov examines the changing relationships between Jews and non Jews in France and Germany from the outbreak of World War I to the present Rather than presenting a comprehensive history or a narrative from a single perspective Bartov views the past century through four interrelated prisms He begins with an analysis of the glorification of war and violence from its modern birth in the trenches of World War I to its horrifying culmination in the presentation of genocide by the SS as a glorious undertaking He then examines the pacifist reaction in interwar France to show how it contributed to a climate of collaboration with dictatorship and mass murder The book goes on to argue that much of the discourse on identity throughout the century has had to do with identifying and eliminating society's elusive enemies or enemies from within Bartov concludes with an investigation of modern apocalyptic visions showing how they have both encouraged mass destructions and opened a way for the reconstruction of individual and collective identities after a catastrophe Written with verve *Mirrors of Destruction* is rich in interpretations and theoretical tools and provides a new framework for understanding a central trait of modern history

Ojibwe Singers Michael David McNally,2009 In the early nineteenth century Protestant missionaries promoted the translation of evangelical hymns into the Ojibwe language regarding this music not only as a shared form of worship but also

as a tool for rooting out native cultural identity But for many Minnesota Ojibwe today the hymns emerged from this history of material and cultural dispossession to become emblematic of their identity as a distinct native people Author Michael McNally uses hymn singing as a lens to view culture in motion to consider the broader cultural processes through which Native American peoples have creatively drawn on the resources of ritual to make room for survival integrity and a cultural identity within the confines of colonialism

Myths and Memories Cindy Lane, 2015-02-27 This book examines the perceptions of European travelling writers about southern Western Australia between 1850 and 1914 Theirs was a narrow vision of space and people in the region shaped by their individual personalities their position in society and the prevailing discourses and ideologies of the age Christian Enlightenment and Romantic philosophies had a major influence on their responses to the land its cultivation and conservation and its aesthetic qualities and on their views of both indigenous and settler colonial society their class and assumptions of race and ethnicity The travelling men and women perpetuated an idealised view of a colonised landscape and a pioneer community that eliminated class struggle and inequality even though an analysis of their observations suggests otherwise Nevertheless although limited their narratives are invaluable as a reflection of opinions attitudes and knowledge prevalent during an age of imperialism Their perspectives reveal unique viewpoints that differ from those of immigrants who wrote about their hopes and fears in making a new life for themselves These travellers were economically secure literate and educated foundations which provide an insight into the way power and privilege implicit in their writings governed the way they imagined Western Australia in the colonial and immediate post federation period The tinted lenses through which European travelling writers narrowly observed space and people presented a mythical imagined sense of southern Western Australia

The Alamo Remembered Timothy M. Matovina, 1995 As Mexican soldiers fought the mostly Anglo American colonists and volunteers at the Alamo in 1836 San Antonio s Tejano population was caught in the crossfire both literally and symbolically Though their origins were in Mexico the Tejanos had put down lasting roots in Texas and did not automatically identify with the Mexican cause Indeed as the accounts in this new collection demonstrate their strongest allegiance was to their fellow San Antonians with whom they shared a common history and a common plight as war raged in their hometown Timothy M Matovina here gathers all known Tejano accounts of the Battle of the Alamo These accounts consist of first reports of the battle including Juan N Segu n s funeral oration at the interment ceremony of the Alamo defenders conversations with local Tejanos unpublished petitions and depositions and published accounts from newspapers and other sources This communal response to the legendary battle deepens our understanding of the formation of Mexican
