

Remembering Summer

On cold, winter days ...
my feet remember the sand between my toes,
my legs remember the splash of the foamy surf,
my body remembers stretching out through the long, lazy days,
my arms remember cartwheels across the beach,
my hands remember digging at low tide for juicy pips,
my face remembers the warm rays of the sun,
my mind remembers
that summer will be back again soon.

Cultural Histories, Memories and Extreme Weather Georgina H. Endfield, Lucy Veale, 2017-07-28 Extreme weather events such as droughts strong winds and storms flash floods and extreme heat and cold are among the most destructive yet fascinating aspects of climate variability Historical records and memories charting the impacts and responses to such events are a crucial component of any research that seeks to understand the nature of events that might take place in the future Yet all such events need to be situated for their implications to be understood This book is the first to explore the cultural contingency of extreme and unusual weather

events and the ways in which they are recalled recorded or forgotten It illustrates how geographical context particular physical conditions an area s social and economic activities and embedded cultural knowledges and infrastructures all affect community experiences of and responses to unusual weather Contributions refer to varied methods of remembering and recording weather and how these act to curate recycle and transmit extreme events across generations and into the future With international case studies from both land and sea the book explores how and why particular weather events become inscribed into the fabric of communities and contribute to community change in different historical and cultural contexts This is valuable reading for students and researchers interested in historical and cultural geography environmental anthropology and environmental studies

Higher Ground Craig Werner,2007-12-18 An insightful music writer brilliantly reinterprets the lives of three pop geniuses and the soul revolution they launched Soul music is one of America s greatest cultural achievements and Stevie Wonder Aretha Franklin and Curtis Mayfield are three of its most inspired practitioners In midcentury America it was soul music particularly the dazzling stream of recordings made by these three stars that helped bring the gospel vision of the black church into the mainstream energizing the era s social movements and defining a new American gospel where the sacred and the secular met What made this gospel all the more amazing was that its most influential articulators were the sons and daughters of sharecroppers storefront preachers and single parents in the projects whose genius gave voice to a new vision of American possibility Higher Ground seamlessly weaves the specific and intensely personal narratives of Stevie Aretha and Curtis s lives into the historical fabric of their times The three shared many similarities They were all children of the great migration and of the black church But Werner goes further and ties them together with a provocative thesis about American history and culture that compels us to reconsider both the music and the times And aside from the personalities and the history he writes beautifully about music itself the nuts and bolts of its creation and performance in a way that brings a new awareness and understanding to the most familiar music forcing you to listen to songs you ve heard a thousand times with fresh ears In Higher Ground Werner illuminates the lives of three unparalleled American artists reminding us why their music mattered then and still resonates with us today

Hellfire And Herring Christopher Rush,2011-05-26 The scent of God the air was impregnated with him and his mint sweet and moth ball evangelists Just as it was with herring as you might expect in a fossilised fishing village on Scotland s repressed east coast where fishing was an act of faith and not yet a computer science industry designed to suck the last drops of life out of the sea A vivid and moving account of the author s upbringing in the 1940s and 1950s in the little fishing village of St Monans Rush returns decades later to rediscover his

childhood and offers a frank account of how it was for him This evocation of a way of life now vanished demonstrates the power of the word to bring the past timelessly to life Rush writes of family village characters church and school of folklore and fishing the eternal power of the sea and the cycles of the seasons With a poet s eye he navigates the worlds of the imagination and the unknown the archetypal problems of fathers and sons and mother love and the inescapability of childhood influences far on into adult life

Memory Sven Bernecker,2009-12-24 In this book Sven Bernecker investigates the defining characteristics of memory and the issues essential to understanding it The book gives a comprehensive philosophical account of memory and illuminates issues central to contemporary discussions of metaphysics and epistemology such as personal identity causation mental content and justification Bernecker argues that remembering something unlike knowing something does not require having a belief There are also instances where one has a memory but no justification for what one remembers These surprising results suggest that remembering something requires standing in an appropriate causal relation to the relevant past representation The book shows that a distinction needs to be made between the causal dependence of a memory on a past representation and the causal dependence of a memory on that which retains the past representation This distinction turns out to be crucial for discerning cases of remembering from instances where some content is learned anew rather than recalled The book proposes a theory of memory contents whereby they are determined by relations the subject bears to his past physical or social environment rather than by states internal to the subject This theory is shown to be compatible with the compelling psychological criterion of personal identity Against the background of the theory of memory contents Bernecker maintains that a memory content need not be the same as but only similar to the content of the representation from which it causally derives This view has interesting results for the debate over false memories and the theory of self knowledge

Poems by Paul , *My Dearest Dietrich* Amanda Barratt,2019-06-09 A staggering love illuminating the dark corners of a Nazi prison Renowned German pastor and theologian Dietrich Bonhoeffer is famous for his resistance to the Nazi regime and for his allegiance to God over government But what few realize is that the last years of his life also held a love story that rivals any romance novel Maria von Wedemeyer knows the realities of war Her

beloved father and brother have both been killed on the battlefield The last thing this spirited young woman needs is to fall for a man under constant surveillance by the Gestapo How can she give another piece of her heart to a man so likely to share the same final fate Yet when Dietrich Bonhoeffer an old family friend comes to comfort the von Wedemeyers after their losses she discovers that love isn't always logical Dietrich himself has determined to keep his distance from romantic attachments There is too much work to be done for God and his involvement in the conspiracy is far too important But when he encounters a woman whose intelligence and conviction match his own he's unprepared for how easy it is to give away his heart With their deep love comes risk and neither Dietrich nor Maria is prepared for just how great that risk soon becomes Based on detailed historical research this true love story is at once beautiful and heartrending My Dearest Dietrich sheds new light on a world famous theologian and the woman who changed his life **Walk with Me** Barry S.
