Reminiscences of a Stock Operator (Essential Investment Classics) Edwin Lefevre, 2019-09-27 A first person narrative of a fictional speculator named Larry Livingston whose life events happen to match precisely those of Jesse Livermore, one of Wall Street's greatest ever stock speculators.

The Reminiscences of a Stock Operator Collection Edwin Lefèvre, Jon D. Markman, 2012-05-04 A classic collection of titles featuring one of the world's greatest traders, Jesse Livermore. Jesse Livermore won and lost tens of millions of dollars playing the stock and commodities markets during the early 1900s, at one point making ten million dollars in one month of trading an astronomical sum for this time. His ideas and keen analyses of market price movements are as true today as they were when he first implemented them. Now for the first time ever, The Reminiscences of a Stock Operator Collection brings together three classic titles based on this unique individual and offers profound insights into his motivations, attitudes, and strategies. Reminiscences of a Stock Operator, the fictionalized biography of Jesse Livermore, has endured over seventy years because traders and investors continue to find lessons from Livermore's experiences that they can apply to their own endeavors. Reminiscences of a Stock Operator, Illustrated Edition reproduces the original articles by Edwin Lefevre and drawings by M. L. Blumenthal published in the Saturday Evening Post in the 1920s. Reminiscences of a Stock Operator, Annotated Edition bridges the gap between Edwin Lefevre's fictionalized account of Livermore's life and the actual historical events, places, and people that populate the book. Throughout the book, there are notes that detail the actual companies, people, or situations that Livermore encountered. Engaging and informative, this collection provides a complete picture of Livermore's life and trading strategies and offers tremendous value to today's serious investor or trader.

Jesse Livermore's Two Books of Market Wisdom Jesse Lauriston Livermore, Edwin Lefèvre, Richard Demille Wyckoff, 2019-06-28 For the first time, these two works attributed to the great Jesse Livermore are presented together in one volume with a new foreword by Juliette Rogers. Both contain interesting insights into Livermore's life and times, as well as the reasons for his success. They remain classics and must reads for every new aspirant in the world of speculation. The two books in this volume were written in the early 1920s when Livermore was already famous but still ascending to the peak of his wealth. The nightmare of World War I was fading, and the United States had successfully transitioned from a wartime economy into a peacetime powerhouse. Americans became enamored of cars, telephones, radios, and movies. A newfound fascination with celebrities extended beyond film stars and athletes to the rich and powerful. People wanted to know how Wall Street wizards like Jesse Livermore spun their magic. The first book, Reminiscences of a Stock Operator, by Edwin Lefevre offers keen insight while, at the same time, adding to the Livermore enigma. Reminiscences is the first person narrative of a fictional speculator named Larry Livingston whose life events happen to match precisely those of Jesse Livermore. As a financial journalist, biographer, and novelist, Edwin Lefevre gave his readers their much desired glimpse into the lofty world of Wall Street elites. He wrote eight other books, but

none matched the success of *Reminiscences* which has remained in print since 1923 and been translated into numerous languages. Even the understated former Federal Reserve Chairman Alan Greenspan once called it a font of investing wisdom. In true Livermore fashion the book itself remains something of a mystery. Specifically over the decades many readers have wondered if the book's author was not Lefèvre but none other than Jesse Livermore. The two men were long acquainted and may have traded useful information over the years. A 1967 biography claims that Livermore shortly before his death acknowledged writing *Reminiscences* with guidance from Lefèvre who served as editor and coach. This revelation came to the biographer secondhand and without confirmation so the mystery continues. However attentive readers may note the narrator's especially gleeful tone whenever windfalls are made or old scores are settled suggesting a connection more personal than professional. In the years following these publications Livermore continued to burnish his legend. A 1924 run up in wheat prices squeezed him out of 3 million but the following year he recovered his losses and added tremendous profit when the wheat market collapsed. Of course in this era of modest regulation markets were vulnerable to manipulation and Livermore by now nicknamed the Great Bear of Wall Street did not eschew such tactics. *Reminiscences of a Stock Operator*.

Illustrated Edwin Lefèvre, 2021-05-14 *Reminiscences of a Stock Operator* is the most widely read highly recommended investment book ever. Generations of readers have found that it has more to teach them about markets and people than years of experience. This is a timeless tale that will enrich your life and your portfolio. Summary of Edwin Lefèvre's *Reminiscences of a Stock Operator* Everest Media, 2022-05-02T22:59:00Z. Please note: This is a companion version, not the original book. Sample Book Insights: 1 I was a quotation board boy in a stock brokerage office when I was 14. I was good at mental arithmetic and I enjoyed posting the numbers on the big board in the customers room. I was interested in the behavior of prices and I kept a record of my observations. 2 I first began to pay attention to the message of the tape when I was 14. I would write down the stock and the price on Monday and remembering past performances I would write down what the stock should do on Tuesday and Wednesday. 3 I was 15 when I had my first thousand dollars made in the bucket shops. I was making a good living. I began in the smaller bucket shops where the man who traded in twenty shares at a clip was suspected of being John W. Gates in disguise or J. P. Morgan traveling incognito. 4 I was a one man business and I kept my business to myself. I didn't have a following. I kept my prices either going the way I wanted them to or they went the other way and nobody could stop them out of kindness to me. **Reminiscences of a Stock Operator** Edwin Lefèvre, 2018-05-27.

Reminiscences of a Stock Operator is a thinly veiled account of the life of securities trader Jesse Livermore. Despite the book's age it continues to offer insights into the art of trading and speculation. In Jack Schwager's *Market Wizards* *Reminiscences* was quoted as a major source of stock trading learning material for experienced and new traders by many of the traders who Schwager interviewed. The book tells the story of Livermore's progression from day trading in the then so called New

England bucket shops to market speculator market maker and market manipulator and finally to Wall Street where he made and lost his fortune several times over Along the way Livermore learns many lessons which he shares with the reader

experienced Investor s Business Daily **Reminiscences of a Stock Operator (Illustrated)** Edwin Lefèvre,2020-05-31 There is nothing new in Wall Street There can t be because speculation is as old as the hills Whatever happens in the stock market today has happened before and will happen again The desire for constant action irrespective of underlying conditions is responsible for many losses in Wall Street even among professionals I never lose my temper over the stock market I never argue the tape Getting sore at the market doesn t get you anywhere They say you can never go poor taking profits No you don t But neither do you grow rich taking a four point profit in a bull market Where I should have made twenty thousand I made two thousand That was what my conservatism did for me Remember that stocks are never too high for you to begin buying or too low to begin selling A man may see straight and clearly and yet become impatient or doubtful when the market takes its time about doing as he figured it must do That is why so many men in Wall Street nevertheless lose money The market does not beat them They beat themselves because though they have brains they cannot sit tight After spending many years in Wall Street and after making and losing millions of dollars I want to tell you this It never was my thinking that made the big money for me It always was the sitting Got that My sitting tight Losing money is the least of my troubles A loss never bothers me after I take it But being wrong not taking the loss that is what does the damage to the pocketbook and to the soul Prices like everything else move along the line of least resistance They will do whatever comes easiest The speculator s chief enemies are always boring from within It is inseparable from human nature to hope and to fear In speculation when the market goes against you hope that every day will be the last day and you lose more than you should had you not listened to hope the same ally that is so potent a success bringer to empire builders and pioneers big and little And when the market goes your way you become fearful that the next day will take away your profit and you get out too soon Fear keeps you from making as much money as you ought to The successful trader has to fight these two deep seated instincts Instead of hoping he must fear instead of fearing he must hope *Reminiscences of a Stock Operator* Edwin Lefevre,2024-12-09
