Renaissance Likeness:

A Renaissance Likeness Loren Partridge, Randolph Starn, 2022-08-19 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1980 **A Renaissance Likeness** Loren Partridge, 2009 *Art and Identity in Early Modern Rome* Jill Burke, 2017-07-05 From the late fifteenth to the late seventeenth century Rome was one of the most vibrant and productive centres for the visual arts in the West Artists from all over Europe came to the city to see its classical remains and its celebrated contemporary art works as well as for the opportunity to work for its many wealthy patrons They contributed to the eclecticism of the Roman artistic scene and to the diffusion of Roman artistic styles in Europe and beyond *Art and Identity in Early Modern Rome* is the first book length study to consider identity creation and artistic development in Rome during this period Drawing together an international cast of key scholars in the field of Renaissance studies the book adroitly demonstrates how the exceptional quality of Roman court and urban culture with its elected monarchy its large foreign population and unique sense of civic identity interacted with developments in the visual arts With its distinctive chronological span and uniquely interdisciplinary approach *Art and Identity in Early Modern Rome* puts forward an alternative history of the visual arts in early modern Rome one that questions traditional periodisation and stylistic categorisation **Slave Portraiture in the Atlantic World** Agnes Lugo-Ortiz, Angela Rosenthal, 2013-09-30 The first book to focus on the individualized portrayal of enslaved people from the late sixteenth century to abolition in 1888 **The Renaissance** Iain Fenlon, 1990-02-15 From the series examining the development of music in specific places during particular times this book looks at European countries at the time of the Renaissance concentrating on Italy It is to be published in conjunction with a television series **Cleopatra** Margaret M. Miles, 2011-09-01 Cleopatra a brave astute and charming woman who spoke many languages entertained lavishly hunted went into battle eliminated siblings to consolidate her power and held off the threat of Imperial Rome to protect her country as long as she could continues to fascinate centuries after she ruled Egypt These wide ranging essays explore such topics as Cleopatra's controversial trip to Rome her suicide by snake bite and the afterlife of her love potions They view Cleopatra from the Egyptian perspective and examine the reception in Rome of Egyptian culture especially of its religion and architecture They discuss films about her and consider what inspired Egyptomania in early modern art Together these essays illuminate Cleopatra's legacy and illustrate how it has been used and reused through the centuries **Sovereign Amity** Laurie Shannon, 2002 Shannon demonstrates that the likeness of sex and station urged in friendship enabled a civic parity not present in other social forms Early modern friendship was nothing less than a utopian political discourse It preceded the advent of liberal thought and it made its case in the terms of gender eroticism counsel and kingship To show the power of

friendship in early modernity Shannon ranges widely among translations of classical essays the works of Elizabeth I Montaigne Donne and Bacon and popular literature to focus finally on the plays of Shakespeare Her study will interest scholars of literature history gender sexuality and political thought and anyone interested in a general account of the English Renaissance Renaissance formulations of friendship typically cast the friend as another self and idealized a pair of friends as one soul in two bodies Laurie Shannon's *Sovereign Amity* puts this stress on the likeness of friends into context and offers a historical account of its place in English culture and politics Patronage and Dynasty Ian F. Verstegen, 2007-03-01 This collection of essays offers a thorough study of the patron artist relationship through the lens of one of early modern Italy's most powerful and influential historical families Contributors present a longitudinal study of the della Rovere family's ascent into Italian nobility The della Rovere was a family of popes cardinals and powerful dukes who financed some of the world's best known and greatest artwork The essays explore the issue of identity and its maintenance of carving a permanent spot for a family name in a rapidly changing atmosphere Although these studies depart from art patronage they uncover how the popes cardinals dukes and signore of the della Rovere family constituted their identity Originally a nouveau riche creation of papal nepotism the della Rovere first populated the ranks of cardinals under the powerful popes Sixtus IV and Julius II Within the framework of later papal relations the family negotiated its position within the economy of Italian nobles

Michelangelo and the Pope's Ceiling Ross King, 2014-10-14 From the acclaimed author of Brunelleschi's Dome and Leonardo and the Last Supper the riveting story of how Michelangelo against all odds created the masterpiece that has ever since adorned the ceiling of the Sistine Chapel In 1508 despite strong advice to the contrary the powerful Pope Julius II commissioned Michelangelo Buonarroti to paint the ceiling of the newly restored Sistine Chapel in Rome Despite having completed his masterful statue David four years earlier he had little experience as a painter even less working in the delicate medium of fresco and none with challenging curved surfaces such as the Sistine ceiling's vaults The temperamental Michelangelo was himself reluctant He stormed away from Rome incurring Julius's wrath before he was eventually persuaded to begin Michelangelo and the Pope's Ceiling recounts the fascinating story of the four extraordinary years he spent laboring over the twelve thousand square feet of the vast ceiling while war and the power politics and personal rivalries that abounded in Rome swirled around him A panorama of illustrious figures intersected during this time the brilliant young painter Raphael with whom Michelangelo formed a rivalry the fiery preacher Girolamo Savonarola and the great Dutch scholar Desiderius Erasmus a youthful Martin Luther who made his only trip to Rome at this time and was disgusted by the corruption all around him Ross King blends these figures into a magnificent tapestry of day to day life on the ingenious Sistine scaffolding and outside in the upheaval of early sixteenth century Italy while also offering uncommon insight into the connection between art and history The Oxford Dictionary of the Christian Church Frank Leslie Cross, Elizabeth A. Livingstone, 2005 Uniquely authoritative and wide ranging in its scope The Oxford Dictionary of the

The Papacy Since 1500 James Corkery, Thomas Worcester, 2010-08-12 Structured by detailed studies of significant Popes these essays explore the evolution of the papacy in the last 500 years

Christianity and the Rhetoric of Empire Averil Cameron, 2023-09-01 Many reasons can be given for the rise of Christianity in late antiquity and its flourishing in the medieval world In asking how Christianity succeeded in becoming the dominant ideology in the unpromising circumstances of the Roman Empire Averil Cameron turns to the development of Christian discourse over the first to sixth centuries A D investigating the discourse's essential characteristics its effects on existing forms of communication and its eventual preeminence Scholars of late antiquity and general readers interested in this crucial historical period will be intrigued by her exploration of these influential changes in modes of communication The emphasis that Christians placed on language writing talking and preaching made possible the formation of a powerful and indeed a totalizing discourse argues the author Christian discourse was sufficiently flexible to be used as a public and political instrument yet at the same time to be used to express private feelings and emotion Embracing the two opposing poles of logic and mystery it contributed powerfully to the gradual acceptance of Christianity and the faith's transformation from the enthusiasm of a small sect to an institutionalized world religion Many reasons can be given for the rise of Christianity in late antiquity and its flourishing in the medieval world In asking how Christianity succeeded in becoming the dominant ideology in the unpromising circumstances of the Roman Empire Averil Cameron

Tintoretto Tom Nichols, 2015-10-01 Jacopo Tintoretto 1518-94 is an ambiguous figure in the history of art His radically unorthodox paintings are not readily classifiable and although he was a Venetian by birth his standing as a member of the Venetian school is constantly contested But he was also a formidable maverick abandoning the humanist narratives and sensuous color palette typical of the great Venetian master Titian in favor of a renewed concentration on core Christian subjects painted in a rough and abbreviated chiaroscuro style This generously illustrated book offers an extensive analysis of Tintoretto's greatest paintings charting his life and work in the context of Venetian art and the culture of the Cinquecento Tom Nichols shows that

Tintoretto was an extraordinarily innovative artist who created a new manner of painting which for all of its originality and sophistication was still able to appeal to the shared emotions of the widest possible audience This compact pocket edition features sixteen additional illustrations and a new afterword by the author and it will continue to be one of the definitive treatments of this once grossly overlooked master Portraiture Joanna Woodall,1997-03-15 Portraiture the most popular genre of painting occupies a central position in the history of Western art Despite this its status within academic art theory is uncertain This volume provides an introduction to major issues in its history The Contracts of Fiction Ellen Spolsky,2015 The Contracts of Fiction invites readers to consider the advantages of describing fictions as governed by a set of social contracts teaching us how to think about the stuff of daily life animate and inanimate as abstractions **Henry Vaughan** Jonathan F.S. Post,2014-07-14 Combining historical scholarship and intertextual criticism this study reassesses Henry Vaughan s entire literary career with particular reference to his relationship to George Herbert Originally published in 1982 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Councils of the Catholic Reformation** Nelson H. Minnich,2024-10-28 This new collection by Nelson Minnich deals with the general councils of the Catholic Reformation in the late medieval and early modern periods The volume opens with overviews of the various editions of and current scholarship on these general councils Three studies then give special attention to the role of theologians in these councils their changing legal status consultative or deliberative voting rights and their individual roles and those of the various theological schools in drafting the decrees Another article examines the legal status of theologians accused of heresy and schism Two examine the contest between the councils of Pisa Milan Asti Lyon and Lateran V for legitimacy studying in particular the contrasting image of Julius II suspended for contumacy by Pisa but the strong leader of Lateran V and the role ceremonies played in securing legitimacy Last there are three studies devoted to the Council of Trent the status of the Protestants who came to the council its debates on the priesthood of all believers and the influence of Lateran V on its procedures debates and decrees *The Pope, His Banker, and Venice* Felix Gilbert,1980 This is a story of how men worked intrigued and made business deals in an Italy invaded by continental countries and England It brings together diplomacy war business and politics juxtaposing differing institutional structures and political ways among Italy s city states and bringing into focus the new men of the Renaissance *The Place of Narrative* Marilyn Aronberg Lavin,1990-12-15 Looking at more than two hundred Italian medieval and Renaissance mural cycles Lavin examines with the aid of computer technology the rearranged chronologies of familiar religious stories found therein Like many masterpieces Lavin s book builds upon a simple idea it is possible to do a computer

analysis of visual narratives This is the first computer based study of the visual arts of which I am aware that illustrates how those technologies can utterly transform the study of old master art An extremely important book one likely to become the most influential recent study of art of this period The Place of Narrative is also a beautiful artifact David Carrier Leonardo Covering over a millennium and dealing with the whole of Italy Lavin makes pioneering use of new methodology employing a computer database and novel terminology to describe the disposition of scenes of church and chapel walls We should recognize this as a book of high seriousness which reaches out into new areas and which will fruitfully stimulate much thought on a neglected subject of very considerable significance Julian Gardner Burlington Magazine

Grammatology of Images Sigrid Weigel, 2022-08-16 Grammatology of Images radically alters how we approach images Instead of asking for the history power or essence of images Sigrid Weigel addresses imaging as such The book considers how something a visible gets transformed into an image Weigel scrutinizes the moment of *mise en apparence* of making an appearance and the process of concealment that accompanies any imaging Weigel reinterprets Derrida's and Freud's concept of the trace as that which must be thought before something exists In doing so she illuminates the threshold between traces and iconic images between something immaterial and its pictorial representation Chapters alternate between general accounts of the line the index the effigy and the cult image and case studies from the history of science art politics and religion involving faces as indicators of emotion caricatures as effigies of defamation and angels as embodiments of transcendental ideas Weigel's approach to images illuminates fascinating unexpected correspondences between premodern and contemporary image practices between the history of religion and the modern sciences and between things that are and are not understood as art
