Bound to Read Jeffrey Todd Knight, 2013-04-22 Concealed in rows of carefully restored volumes in rare book libraries is a history of the patterns of book collecting and compilation that shaped the literature of the English Renaissance In this early period of print before the introduction of commercial binding most published literary texts did not stand on shelves in discrete standardized units They were issued in loose sheets or temporarily stitched leaving it to the purchaser or retailer to collect configure and bind them In *Bound to Read* Jeffrey Todd Knight excavates this culture of compilation of binding and mixing texts authors and genres into single volumes and sheds light on a practice that not only was pervasive but also defined the period's very ways of writing and thinking Through a combination of archival research and literary criticism Knight shows how Renaissance conceptions of imaginative writing were inextricable from the material assembly of texts While scholars have long identified an early modern tendency to borrow and redeploy texts *Bound to Read* reveals that these strategies of imitation and appropriation were rooted in concrete ways of engaging with books Knight uncovers surprising juxtapositions such as handwritten sonnets collected with established poetry in print and literary masterpieces bound with liturgical texts and pamphlets By examining works by Shakespeare Spenser Montaigne and others he dispels the notion of literary texts as static or closed and instead demonstrates how the unsettled conventions of early print culture fostered an idea of books as interactive and malleable Though firmly rooted in Renaissance culture Knight's carefully calibrated arguments also push forward to the digital present engaging with the modern library archives where these works were rebound and remade and showing how the custodianship of literary artifacts shapes our canons chronologies and contemporary interpretative practices

The Song of Songs in English Renaissance

Literature Noam Flinker, 2000 Treatment of and reference to the Song of Songs by a variety of authors including Spenser and Milton A Critical Bibliography of French Literature V2 16th C, *Renaissance Literature and Linguistic Creativity* James Harmer, 2016-03-31 Renaissance Literature and Linguistic Creativity interrogates notions of linguistic creativity as presented in English literary texts of the late sixteenth century It considers the reflections of Renaissance English writers upon the problem of how linguistic meaning is created in their work The book achieves this consideration by placing its Renaissance authors in the context of the dominant conceptualisation of the thought language relationship in the Western tradition namely that of introspection In taking this route author James Harmer undertakes to provide a comprehensive overview of the notion of introspection from classical times to the Renaissance and demonstrates how complex and even strange this notion is often seen to be by thinkers and writers Harmer also shows how poetry and literary discourse in general stands at the centre of the conceptual consideration of what linguistic thinking is He then argues through a range of close readings of Renaissance texts that writers of the Shakespearean period increase the fragility of the notion of introspection in such a way as to make the prospect of any systematic theory of meaning seem extremely remote Embracing and exploring the possibility that thinking about meaning can only occur in the context of extreme cognitive and psychological limitation these texts emerge as proponents of a human mind which is remarkably free in its linguistic nature an irresistible mode of life unto itself The final argumentative stratum of the book explores the implications of this approach for understanding the relationship between literary criticism philosophy and other kinds of critical activity Texts discussed at length include Edmund Spenser's *The Faerie Queene* and shorter poetry George Chapman's *Ovids Banquet of Sence* Shakespeare's *Titus Andronicus* and *Hamlet* and John Donne's *Elegies* *The New Cambridge Bibliography of English Literature* George Watson, Ian Roy Willison, 1974 **Classical Influences in Renaissance Literature** Douglas

Bush, 1952-02-05 **Literature, Travel, and Colonial Writing in the English Renaissance, 1545-1625** Andrew Hadfield, 1998 What was the purpose of representing foreign lands for writers in the English Renaissance This innovative and wide ranging study argues that writers often used their works as vehicles to reflect on the state of contemporary English politics particularly their own lack of representation in public institutions Sometimes such analyses took the form of displaced allegories whereby writers contrasted the advantages enjoyed or disadvantages suffered by foreign subjects with the political conditions of Tudor and Stuart England Elsewhere more often in explicitly colonial writings authors meditated on the problems of government when faced with the possibly violent creation of a new society If Venice was commonly held up as a beacon of republican liberty which England would do well to imitate the fear of tyrannical Catholic Spain was ever present inspiring and haunting much of the colonial literature from 1580 onwards This stimulating book examines fictional and non fictional writings illustrating both the close connections between the two made by early modern readers and the

problems involved in the usual assumption that we can make sense of the past with the categories available to us Hadfield explores in his work representations of Europe the Americas Africa and the Far East selecting pertinent examples rather than attempting to embrace a total coverage He also offers fresh readings of Shakespeare Marlowe More Lyly Hakluyt Harriot Nashe and others
