Ronnie Ferguson **The Longman Companion to Renaissance Europe, 1390-1530** Stella Fletcher, 2014-02-04 This new Companion is the ideal reference guide It fills a gap by providing an authoritative but accessible reference on political economic religious social as well as cultural developments in this crucial period It contains information on all major topics including the church war and diplomacy civic life learning and letters printing the economy science and technology the arts across Europe and the wider world **The Jewish Ghetto and the Visual Imagination of Early Modern Venice** Dana E. Katz, 2017-08-18 Dana E Katz examines the Jewish ghetto of Venice as a paradox of urban space In 1516 the Senate established the ghetto on the periphery of the city and legislated nocturnal curfews to reduce the Jews visibility in Venice Katz argues that it was precisely this practice of marginalization that put the ghetto on display for Christian and Jewish eyes According to her research early modern Venetians grounded their conceptions of the ghetto in discourses of sight Katz s unique approach demonstrates how Venice s Jewish ghetto engaged the sensory imagination of its inhabitants in complex and contradictory ways that both shaped urban space and reshaped Christian Jewish relations *Venetian Vernacular Architecture* Richard J. Goy, 2011-04-14 This book is an introduction to the vernacular or minor architecture of the villages of the Venetian lagoon excluding the historic centre of the city itself It is intended as a companion volume to Dr Goy s *Chioggia and the Villages of the Venetian Lagoon* *Building Renaissance Venice* Richard John Goy, 2006-01-01 This book brings to life the story of the construction of some of the most outstanding early Renaissance buildings in Venice Through a series of individual case studies Richard J Goy explores how and why great buildings came to be built He addresses the practical issues of constructing such buildings as the Torre dell Orologio in Piazza San Marco the Arsenale Gate and the churches of Santa Maria della Carita and San Zaccaria focusing particular attention on the process of patronage The book is the first to trace the complete process of creating important buildings from the earliest conception in the minds of the patrons the Venetian state or other institutional patrons through the choice of architect the employment of craftsmen and the selection of materials In an interesting analysis of the participants roles Goy highlights the emerging importance of the superintending master the protomaestro *Art in Renaissance Italy* John T. Paoletti, Gary M. Radke, 2005 *Art in Renaissance Italy* sets the art of that time in its context exploring why it was created and in particular looking at who commissioned the palaces and cathedrals the paintings and the sculptures *Romanesque Renaissance* Konrad Adriaan Ottenheym, 2021-01-11 In early modern times scholars and architects investigated age old buildings in order to look for useful sources of inspiration They too occasionally misinterpreted younger buildings as proofs of majestic Roman or other ancient glory such as the buildings of the Carolingian Ottonian and Stauffer emperors But even if the correct age of a certain building was known buildings from c 800 1200 were sometimes regarded as Antique architecture since the concept of Antiquity was far more stretched than our modern periodisation allows This was a Europe wide phenomenon The results are rather diverse in style but they all share an intellectual and artistic strategy a conscious revival of an ancient architecture whatever the date and origin of these models
