Holloway III, 2011-06-22 The intellectual legacy of Andrew Melville 1545 1622 as a leader of the Renaissance and a promoter of humanism in Scotland has been obscured by the Melville legend In an effort to dispense with the Melville of popular imagination and recover the Melville of history this work situates his life and thought within the broader context of the northern European Renaissance and French humanism and critically re evaluates the primary historical documents of the period namely James Melville s Autobiography and Diary and the Melvini epistolae By considering Melville as a humanist university reformer ecclesiastical statesman and man an effort has been made to determine his contribution to the flowering of the Renaissance and the growth of humanism in Scotland during the early modern period      *The Ideology and Language of Translation in Renaissance France and Their Humanist Antecedents* Glyn P. whole according to a new series of conventions devised to give greater clarity and consistency to the entries The Italian Renaissance John Stephens, 2014-06-23 In this fascinating study John Stephens interprets the significance of the immense cultural change which took place in Italy from the time of Petrarch to the Reformation and considers its wider contribution to Europe beyond the Alps His important analysis which is designed for students and serious general readers of history as well as the specialist is not a straight narrative history rather it is an examination of the humanists artists and patrons who were the instruments of this change the contemporary factors that favoured it and the elements of ancient thought they revived

The Transmission of Culture in Early Modern Europe Anthony Grafton, Ann Blair, 2010-11-24 The Transmission of Culture in Early Modern Europe focuses on the ways in which culture is moved from one generation or group to another not by exact replication but by accretion or revision The contributors to the volume each consider how the passing of historical information is an organic process that allows for the transformation of previously accepted truth The volume covers a broad and fascinating scope of subjects presented by leading scholars Anthony Grafton's contribution on the fifteenth century forger Annio da Viterbo emphasizes the role of imagination in the classical revival Lisa Jardine demonstrates the way in which Erasmus helped turn a technical and rebarbative book by Rudolph Agricola into a sixteenth century success story Alan Charles Kors finds the roots of Enlightenment atheism in the works of French Catholic theologians Donald R Kelley follows the legal idea of custom from its formulation by the ancients to its assimilation into the modern social sciences and Lawrence Stone shows how changes in legal action against female adultery between 1670 and 1857 reflect basic shifts in English moral values *Collected Works of Erasmus* Desiderius Erasmus, 1985-12 Erasmus was above all an educator and his writings as a teacher and theorist give him a claim to be regarded as the greatest figure in the history of education since antiquity By the decade of the 1520s he had become the leading spokesman for the cause of humanistic education in Europe The five translations in *Collected Works of Erasmus* 23 and 26 reflect Erasmus' main ideas about education concern for the most desirable and effective curriculum the need to read and appreciate the best writings of the finest classical authors the importance of well trained well paid competent inventive and compassionate teachers practical advice on the temperament and conduct of parents the provision of adequate education for women and mature students in short the development of a philosophy of education that would produce the kind of person best educated for the service of God and man Contained in these volumes are the first modern English translations of *De conscribendis epistolis* I On the Writing of Letters *Conficiendarum epistolarum formula* I A Formula for the Composition of Letters *De civilitate* I On Good Manners for Boys *De pueris* I A Declamation on the Subject of Early Liberal Education for Children and *De recta pronuntiatione* I The Right Way of Speaking Latin and Greek A Dialogue These works present Erasmus' educational program for children from the very young to pre university age a compendium of his views on the nature and value of a humanistic education that remains of importance for all times and places Volumes 25 and 26 of the *Collected Works of Erasmus* series Two volume set External Research
