René Guénon

Rene Guenon:

Rene Guenon and the Future of the West Robin Waterfield, 2005-03 René Guénon 1886-1951 is undoubtedly one of the luminaries of the twentieth century whose critique of the modern world has stood fast against the shifting sands of recent philosophies. His oeuvre of 26 volumes is providential for the modern seeker pointing ceaselessly to the perennial wisdom found in past cultures ranging from the Shamanistic to the Indian and Chinese, the Hellenic and Judaic, the Christian and Islamic, and including also Alchemy, Hermeticism, and other esoteric currents. At the same time it directs the reader to the deepest level of religious praxis, emphasizing the need for affiliation with a revealed tradition even while acknowledging the final identity of all spiritual paths as they approach the summit of spiritual realization. This is the only biographical introduction to Guénon currently available in English. Sophia Perennis will soon publish another biography, *The Simple Life of René Guénon*, written shortly after Guénon's death by his close friend and publisher Paul Chacornac. After a lonely childhood often interrupted by ill health, Guénon navigated the seductive half-truths of occultism toward a deeper, unified vision offering a way out from the confusion and fragmentation of our time. Against the seemingly inexorable process of dissolution, the twentieth century experienced, Guénon pointed to the transcendent unity of all religious faiths and the abiding Truth that contains them all.

Perspectives on Initiation René Guénon, 2004-05 The present volume, first published at the close of World War II and based on a series of articles on initiation originally written between 1932 and 1938 for *Le Voile d'Isis* (later renamed *Traditionnelles*), is unique in giving a comprehensive account both of the conditions of initiation and of the characteristics of organizations qualified to transmit it. Guénon's distinction between the initiatic and the mystical paths, the first requiring a formal relationship with a master, a set of specific contemplative techniques, and a chain of transmission stretching back to the origin of the tradition in question, the second generally lacking these elements, led to some controversy between those who accept this distinction and others who believe that initiatory and mystical spirituality are one and the same. The book presents such central principles as the dangers and barrenness of syncretism, the often dire consequences of fostering psychic powers, and the superiority of sacerdotal initiation into the Greater Mysteries over royal initiation into the Lesser Mysteries, though both are necessary parts of the initiatic path. This last point precisely defines the rift between Guénon and Julius Evola, whose elevation of royal initiation over sacerdotal must be seen according to Guénon's criteria as a modern-day echo of the ancient revolt of the warrior caste against the priestly one. Whoever follows Guénon's argument will realize that a romantic warrior mysticism held no fascination for him and is in fact explicitly contrary to his principles. But pre-eminently, *Perspectives on Initiation* provides indispensable points of reference for anyone attempting to distinguish between initiatic, pseudo-initiatic, and counter-initiatic spiritualities in these profoundly uncertain times.

bankruptcy of the modern world symbolism tradition and the inner or spiritual dimension of religion this book is a compilation of his most important writings A key component of his thought was the assertion that universal truths manifest themselves in various forms in the world's religions and his writings on Hinduism Taoism and Sufism are particularly illuminating in this regard

Prophet for a Dark Age Graham Rooth, 2008-03-14 Rene Guenon is a major figure for anyone who recognises a need to rediscover the spiritual roots from which Western society has become so comprehensively alienated Immersing himself in the search for spiritual truth he chose Islam as the vehicle for his spiritual life

Collected Works of René Guénon René Guénon, 2001 [Symbols of Sacred](#)

Science René Guénon, 2004 In Symbols of Sacred Science Gu non a master of precise even mathematical metaphysical exposition reveals himself as a consummate exegete of myth and symbolism as well superior in many ways to Mircea Eliade and comparable perhaps only to his respected friend Ananda K Coomaraswamy This extraordinary text unveils the cosmological meanings of root symbols organized under such general headings as The Center of the World Cyclic Manifestation Symboic Weapons Axial Symbolism and the Symbolsim of Passage The Symbolism of Building and The Symbolism of the Heart Far more than a simple catalogue of myths and symbols from many traditions Symbols of the Sacred Science lays the foundation for a universal esoteric symbology In this work Gu non demonstrates the fundamental unity across all cultures and ages of the images with which the Absolute clothes itself in its cosmic self revelation **Studies in Freemasonry and the Compagnonnage** René Guénon, Rene Guenon, 2004 Ren Gu non 1886 1951 was one of the great luminaries of the twentieth century whose critique of the modern world has stood fast against the shifting sands of intellectual fashion His extensive writings now finally available in English are a providential treasure trove for the modern seeker while pointing ceaselessly to the perennial wisdom found in past cultures ranging from the Shamanistic to the Indian and Chinese the Hellenic and Judaic the Christian and Islamic and including also Alchemy Hermeticism and other esoteric currents they direct the reader also to the deepest level of religious praxis emphasizing the need for affiliation with a revealed tradition even while acknowledging the final identity of all spiritual paths as they approach the summit of spiritual realization Studies in Freemasonry and the Compagnonnage is both an attempt to rediscover the lost roots of Masonry and a fascinating look into the many controversies swirling around the subject of Masonry in serious intellectual circles during the first half of the twentieth century It must also be classed along with Symbols of Sacred Science Spiritual Authority and Temporal Power Traditional Forms and Cosmic Cycles The Esoterism of Dante Insights into Christian Esoterism and Insights into Islamic Esoterism and Taoism not to mention related sections in many of his other books as one of Ren Gu non s masterful excursions into esoteric myth symbolism and secret history Freemasonry may indeed be as Gu non ultimately concluded a largely degenerated and thus no longer strictly operative offshoot of a true initiatory lineage yet its symbolism like that of the original Rosicrucians remains profound traditional and therefore ultimately legitimate And given that the Spirit bloweth where it listeth it is always possible that symbolism of this order may awaken in a receptive soul intimations of the Truth and the Way which can be of inestimable of value in the path to the Path the quest for a living initiatory spirituality

Rethinking Ibn 'Arabi Gregory A. Lipton, 2018-04-02 The thirteenth century mystic Ibn Arabi was the foremost Sufi theorist of the premodern era For more than a century Western scholars and esotericists have heralded his universalism arguing that he saw all contemporaneous religions as equally valid In Rethinking Ibn Arabi Gregory Lipton calls this image into question and throws into relief how Ibn Arabi s discourse is inseparably intertwined with the absolutist vision of his own religious milieu that is the triumphant claim that Islam fulfilled superseded and therefore abrogated all previous revealed

religions Lipton juxtaposes Ibn Arabi's absolutist conception with the later reception of his ideas exploring how they have been read appropriated and universalized within the reigning interpretive field of Perennial Philosophy in the study of Sufism The contours that surface through this comparative analysis trace the discursive practices that inform Ibn Arabi's Western reception back to the eighteenth and nineteenth century study of authentic religion where European ethno-racial superiority was wielded against the Semitic Other both Jewish and Muslim Lipton argues that supersessionist models of exclusivism are buried under contemporary Western constructions of religious authenticity in ways that ironically mirror Ibn Arabi's medieval absolutism *René Guénon and the Future of the West* Robin Waterfield, 1987 Black Sun Nicholas Goodrick-Clarke, 2003-07 The Unpredictable Constitution brings together a distinguished group of U.S. Supreme Court Justices and U.S. Court of Appeals Judges who are some of our most prominent legal scholars to discuss an array of topics on civil liberties In thoughtful and incisive essays the authors draw on decades of experience to examine such wide-ranging issues as how legal error should be handled the death penalty reasonable doubt racism in American and South African courts women and the constitution and government benefits Contributors Richard S. Arnold Martha Craig Daughtry Harry T. Edwards Ruth Bader Ginsburg Betty B. Fletcher A. Leon Higginbotham Jr. Lord Irvine of Lairg Jon O. Newman Sandra Day O'Connor Richard A. Posner Stephen Reinhardt and Patricia M. Wald *Anarchist, Artist, Sufi* Mark Sedgwick, 2021-04-08 This book follows the life of Ivan Aguéli the artist anarchist and esotericist notable as one of the earliest Western intellectuals to convert to Islam and to explore Sufism This book explores different aspects of his life and activities revealing each facet of Aguéli's complex personality in its own right It then shows how esotericism art and anarchism finally found their fulfillment in Sufi Islam The authors analyze how Aguéli's life and conversion show that Islam occupied a more central place in modern European intellectual history than is generally realized His life reflects several major modern intellectual political and cultural trends This book is an important contribution to understanding how he came to Islam the values and influences that informed his life and ultimately the role he played in the modern Western reception of Islam **The Only Tradition** William W. Quinn, 1997-01-01 Examines the first principles of the perennial philosophy or ancient wisdom tradition as expressed in the writings of its great exponents René Guénon and Ananda K. Coomaraswamy and offers a critique of the West from the standpoint of traditional principles *The Cambridge Companion to Sufism* Lloyd Ridgeon, 2014-12-08 Sufism the mystical or aesthetic doctrine in Islam has occupied a very specific place in the Islamic tradition with its own history literature and devotional practices Its development began in the seventh century and spread throughout the Islamic world The Cambridge Companion to Sufism traces its evolution from the formative period to the present addressing specific themes along the way within the context of the times In a section discussing the early period the devotional practices of the earliest Sufis are considered The section on the medieval period when Sufism was at its height examines Sufi doctrines different forms of mysticism and the antinomian expressions of Sufism The section on the modern period explains the controversies that

surrounded Sufism the changes that took place in the colonial period and how Sufism transformed into a transnational movement in the twentieth century This inimitable volume sheds light on a multifaceted and alternative aspect of Islamic history and religion **Frithjof Schuon** Jean-Baptiste Aymard, Patrick Laude, 2004-10-14 A comprehensive introduction to the life and work of the preeminent expositor of perennial philosophy
