Rethinking Rights and Responsibilities Arthur J. Dyck, 1994 **Rethinking Rights and Responsibilities** Arthur J. Dyck, 2005-02-08 As members of various and often conflicting communities how do we reconcile what we have come to understand as our human rights with our responsibilities toward one another With the bright thread of individualism woven through the American psyche where can our sense of duty toward others be found What has happened to our love even our concern for our neighbor In this revised edition of his magisterial exploration of these critical questions renowned ethicist Arthur Dyck revisits and profoundly hones his call for the moral bonds of community In all areas of contemporary life be it in business politics health care religion and even in family relationships the right of individuals to consider themselves first has taken precedence over our responsibilities toward others Dyck contends that we must recast the language of rights to take into account our once natural obligations to all the communities of which we are a part *Rethinking Rights and Responsibilities* at the nexus of ethics political theory public policy and law traces how the peculiarly American formulations of the rights of the individual have assaulted our connections with and responsibilities for those around us Dyck critically examines contemporary society and the relationship between responsibilities and rights particularly as they are expressed in medicine and health care to maintain that while indeed rights and responsibilities form the moral bonds of community we must begin with the rudimentary task of taking better care of one another **Beyond Foundationalism** Stanley James Grenz, John R. Franke, 2001-01-01 Grenz and Franke provide a methodological approach for doing theology in the postmodern world They call for a theological method that moves beyond the Enlightenment way of ordering and understanding information foundationalism They propose a theological method that takes seriously the Spirit tradition and contemporary culture while stressing trinitarian structure community and eschatology *Human Rights* Albert A. Zinnos, 2007 Human rights refers to the concept of human beings as having universal rights or status regardless of legal jurisdiction and likewise other localising factors such as ethnicity and nationality For many the concept of human rights is based in religious principles However because a formal concept of human rights has not been universally accepted the term has some degree of variance between its use in different local jurisdictions difference in both meaningful substance as well as in protocols for and styles of application Ultimately the most general meaning of the term is one which can only apply universally and hence the term human rights is often itself an appeal to such transcended principles without basing such on existing legal concepts The term humanism refers to the developing doctrine of such universally applicable values and it is on the basic concept that human beings have innate rights that more specific local legal concepts are often based Within particular societies human rights refers to standards of behaviour as accepted within their respective legal systems regarding 1 the well being of individuals 2 the freedom and autonomy of individuals and 3 the representation of the human interest in government These rights commonly include the right to life the right to an adequate standard of living the prohibition of genocide freedom from

torture and other mistreatment freedom of expression freedom of movement the right to self determination the right to education and the right to participation in cultural and political life These norms are based on the legal and political traditions of United Nations member states and are incorporated into international human rights instruments This new book brings together the latest book literature centred on this crucial topic *Life's Worth* Arthur J. Dyck, 2002 Finally Dyck shows that the moral structure undergirding our system of law is compatible with the views of Christianity and he points to certain Christian beliefs that provide comfort and hope to those who are suffering dying or experiencing the death of loved ones BOOK JACKET *The Moral Bond of Community* Bernard Vincent Brady, 1998 Comprehensive in its approach yet written in plain language The Moral Bond of Community offers a biblically based concept of Christian justice that can be applied to moral questions in everyday life Brady examines four forms of Christian moral discourse narrative prophetic ethical and policy and shows how each contributes to a fuller understanding of Christian morality *The Encyclopedia of Politics and Religion* Robert Wuthnow, 2013-12-04 Containing over 200 articles from prominent scholars The Encyclopedia of Politics and Religion examines ways in which politics and religion have combined to affect social attitudes spark collective action and influence policy over the last two hundred years With a focus that covers broad themes like millenarian movements and pluralism and a scope that takes in religious and political systems throughout the world the Encyclopedia is essential for its contemporary as well as historical coverage Special Features Encompasses religions individuals geographical regions institutions and events Describes the history of relations between religion and politics Longer articles contain brief bibliographies Attractively designed and produced The Encyclopedia of Politics and Religion will be invaluable for any library public and academic which serves those interested in politics sociology religious studies international affairs and history Contents include Abortion Algeria Anabaptists China Christian Democracy Ethnic Cleansing Gandhi Israel Italy Jesuits Jihad Just War Missionaries Moral Majority Muslim Brethren Temperance Movements Unification Church War Zionism **Made in God's Image** Regis A.
