Sampling For Health Professionals:

Research Methodology for Allied Health Professionals Animesh Hazari, 2024-02-29 Research Methodology is one of the essential subjects for Master's and Ph.D. students which requires a comprehensive understanding of the subjects with their scientific application. This book would target all aspects including detailed information on components of research methodology to enable readers to conduct and write their research work. Thus the book covers a larger audience in the allied health stream focusing on university students and Ph.D. scholars. Practice of Traditional and Complementary Medicine Among Health Professionals in Malaysia Dr Magfiret Abdulveli Bozlar PhD, Dr Syed Mohamed Aljunid PhD, 2020-03-16

Malaysia is one of the few countries in the world with well established health system that provide universal coverage of essential services to its citizen. The country is blessed with multi ethnic societies rich with cultural heritage. Traditional and Complementary Medicine TCM based on Malay Chinese and Indian practice modalities have been in existence for more than a century. In 2006 the government of Malaysia took a bold step to formally integrate TCM into the national health system of Malaysia. This book reports the outcome of a study conducted among health professionals in five major hospitals in Malaysia covering their knowledge, practical experience and attitudes toward TCM. Four of the hospitals were integrated hospitals providing various modalities of TCM to patients on regular basis. Qualitative and quantitative methods were employed in the study in order to obtain valid and reliable information from the respondents. Doctors, nurses and pharmacists practicing modern medicine in these five hospitals filled up self administered questionnaires. The respondents were subsequently selected to participate in a more detail in depth interviews. The book provides the best reference on the acceptance of TCM in the modern health system that can be used as guide to policy makers in other parts of the world that plan to embark on the similar policies. **Sampling for Health Professionals** Paul S.
