the subject who negotiated this new scenography became a flashpoint of conflict in both domestic and theatrical arenas The book launches from a matrix of related platforms a term that in early modern usage denoted scaffolds stages and draftsmen s sketches to situate Alberti Shakespeare Jonson and others within a landscape of spatial and visual change Engaging theory with archival findings Mimi Yiu reveals an emergent desire to perform subjectivity to unfold an interior face to an admiring Seizing the Light Robert Hirsch, 2024-02-08 The definitive history of photography book Seizing the Light A Social Aesthetic History of Photography delivers the fascinating story of how photography as an art form came into being and its continued development maturity and transformation Covering major events practitioners works and social effects of photographic practice author Robert Hirsch provides a concise and discerning chronological account of photography drawing on examples from across the world This fundamental starting place shows the diversity of makers inventors issues and applications exploring the artistic critical and social aspects of the creative thinking process This new edition has been fully revised and updated to include the latest advances in technology and digital photography as well as information on contemporary photographers such as Granville Carroll Meryl McMaster Cindy Sherman Penelope Umbrico and Yang Yongliang New topics include the rise of mobile photography and surveillance cameras drone photography image manipulation protest and social justice photography plus the roles of artificial intelligence and social media in photography Highly illustrated with over 250 full color images and contributions from hundreds of artists around the world Seizing the Light serves as a gateway to the history of photography Written in an accessible style it is perfect for those newly engaging with the practice of photography and for experienced photographers wanting to contextualize their own work **Secrets of Winterhouse** Ben Guterson, 2018-12-31 Bookish puzzles phantom mysteries and evil curses await as Elizabeth returns to Winterhouse in Book 2 of this magical series Back at the Winterhouse hotel for another holiday season Elizabeth and Freddy dig deeper into the mystery surrounding Riley S Granger a hotel guest who left behind odd artifacts one being a magical book that the evil Gracella Winters once attempted to use to gain destructive power over the entire Falls lineage The two friends follow a trail of clues inadvertently attracting the attention of a suspicious new hotel guest Elana Vesper The clock is ticking as Elizabeth and Freddy struggle to figure out whether Elana is merely a pawn or a player in the plot to revive the spirit of Gracella If that wasn t enough Elizabeth suspects she is coming into her own special powers and she s fearful it might lead her right into Gracella's vicious web Mystery adventure and a winning friendship combine in this much anticipated sequel Christy Ottaviano Books **Secret Shakespeare** Richard Wilson, 2024-06-04 Shakespeare s Catholic context was the most important literary discovery of the last century No biography of the Bard is now complete without chapters on the paranoia and persecution in which he was educated or the treason which engulfed his family Whether to suffer outrageous fortune or take up arms in suicidal resistance was as Hamlet says the question that fired Shakespeare s stage In Secret Shakespeare Richard Wilson asks why the dramatist remained so enigmatic about his own beliefs and so

silent on the atrocities he survived Shakespeare constructed a drama not of discovery like his rivals but of darkness deferral evasion and disguise where for all his hopes of a golden time of future toleration What's to come is always unsure Whether or not He died a papist it is because we can never pluck out the heart of his mystery that Shakespeare's plays retain their unique potential to resist This is a fascinating work which will be essential reading for all scholars of Shakespeare and In Defense of Secrets Anne Dufourmantelle, 2021-01-05 This urgent book by the renowned French philosopher will open new perspectives on a world marked by the rise of Wikileaks Big Data and social media Michael Moon Emory University In an age that prizes political and personal transparency psychoanalyst and philosopher Anne Dufourmantelle champions the value of what remains hidden private veiled or just out of sight For Dufourmantelle the secret is not a code to be cracked or a firewall to be penetrated but a dynamic and powerful entity that permits relation and that ensures our humanity Through etymologies and case studies personal history and incisive social commentary In Defense of Secretsreturns us to this foundational phenomenon Dufourmantelle tracks the secret from the Inquisition to the present illuminating its power and importance through art and literature philosophy psychoanalysis and sociology For her the secret is on the side of nature not science organic growth not technology love s generosity not knowledge s grasp An ethics of the secret she tells us means listening sensitively respecting the secret in its essence unafraid of it and open to what it has to say Finalist French American Foundation Translation Prize The Secret History of Lucifer (New Edition) Lynn Picknett, 2012-03-01 In her new account of an old religion Lynn Picknett explains that Lucifer means the light bringer and was a personification of the Morning Star the planet Venus and its goddess He was originally she a divine representation of love light and human warmth The early Christian Church appropriated the name Lucifer and it became synonymous with darkness and the Devil Yet many great thinkers have covertly followed the old Luciferan way most famously Leonardo da Vinci who encrypted the symbols of his heretical beliefs in his work visible only to those who have the key Mysteries and Secrets Revealed Loren Pankratz, 2021-04-01 Mysteries and Secrets Revealed uncovers the reality behind mysteries of nature and secrets of frauds that eluded common understanding The journey begins in the ancient Greek city of Delphi where priests claimed the gift of a priceless gold lion was an acknowledgement of their clairvoyant powers But their concocted story concealed an embarrassing blunder Those sufficiently savvy to catch the lie became aware of even deeper problems Author Loren Pankratz then guides us through the conflicts of Renaissance scholars including Galileo who explained things in ways that enraged philosophers and infuriated priests Galileo s methods of investigation were perpetuated by the meticulous work of the Academy of Experiment and Bernard Fontenelle's enthralling dialogue enabled common people to accept life in the rearranged sun centered universe Clairvoyants in a mesmeric trance claimed they could visit distant planets and endure brutal surgical procedures If any of this was real how was it possible One nineteenth century mesmeric savant Alexis Didier was so convincing that someone claimed no case of clairvoyance could be made for anyone if his accomplishments were not

real This unchallenged declaration is now unraveled here for the first time through information gleaned from uncommon documents and rare antiquarian pamphlets. The surprising manifestations of modern spiritualism quickly escalated into a psychic arms race that included mysterious tipping and turning of tables. Scientist Michael Faraday devised ingenious experiments to show how subtle muscle reactions outside of awareness created these manifestations. On the other hand explanations for table levitations and mysterious writing on slates could only be solved by individuals with acute observational skills and acquainted with the methods of trickery. Each story in Mysteries and SecretsRevealed captures the tension of conflict the thrill of discovery and the strategies of science that unmasked frauds fakes false belief and the enigmas of our natural world. From Open Secrets to Secret Voting Isabela Mares, 2015-06-17 This book presents an account of the adoption of electoral reforms democratizing electoral practices in nineteenth century European countries.
