*Secrets of the Fascist Era* Howard McGaw Smyth, 1975 This account of the capture and validation of Italian Fascist state papers during World War II some of which only recently have been declassified is the stuff of high level intelligence and counter espionage In an account that reads like a detective story Howard Smyth reveals fully for the first time how the United States obtained the Fascist documents As an OSS and State Department officer during the war Smyth was intimately involved in the validation of the papers and as a professional historian was uniquely qualified to evaluate their importance Among the documents Smyth describes are the Lisbon Papers documents which emanated from the office of Count Ciano as Italian Foreign Minister and which the Italian Government attempted to hide from the Allies the Ciano Papers Rose Garden the German translations of Italian State Papers which Ciano himself set aside to accompany his diary and for which Edda his wife and Mussolini's daughter tried to barter her husband's life and Mussolini's Private Papers said once to have comprised over 100 000 files some of which were found in his villa others on his person during his final flight to avoid capture Though Dr Smyth focuses on the problems of the authenticity of the collections his account of their acquisition weaves an exciting story of high adventure and human drama Obviously of utmost importance to scholars the work will be of special interest also to general readers and World War II history buffs

Bruce Strang, 2003-07-30 By the 1930s fascist dictator Benito Mussolini reached the conclusion that Italy faced a clear choice expand its power at the expense of the British and French Empires or face stagnation and decline He believed that the regimes in the democratic West would not be able to contain their inherent hostility toward fascist dynamism while their demographic and political weaknesses provided the opportunity for the younger demographically virile fascist Italy to carve a new empire in the Mediterranean status quo Through his intervention in the Spanish Civil War and his attempts to challenge French Power in Europe and British imperial domination of the Middle East and East Africa Mussolini sought to decisively change Italy's long standing position as the least of the Great Powers Although the Pact of Steel did not always function smoothly Mussolini remained loyal to its principles eventually throwing Italy into the Second World War where he would belatedly discover that his regime had signally failed to prepare his legions for fighting in a modern war

**The Allies Strike Back, 1941-1943** James Holland, 2020-02-26 Volume two in this expert anecdote filled thoroughly entertaining history of WWII follows The Rise of Germany as the Allied forces turn the tides Kirkus James Holland's The Rise of Germany the first volume in his War in the West trilogy was widely praised for his impeccable research and lively narrative Covering the dawn of World War II it ended at a point when the Nazi war machine appeared to be unstoppable Germany had taken Poland and France with shocking speed London was bombed and U boats harried shipping on the Atlantic But Germany hadn't actually won the Battle of Britain or the Battle of the Atlantic It was not producing airplanes or submarines fast enough And what looked like victory in Greece and Crete had expended crucial resources in short supply The Allies Strike Back continues the narrative as Germany's invasion of Russia unfolds in the east while in the west the Americans formally enter the war In North Africa following major setbacks at the hands of Rommel the Allies storm to victory Meanwhile the bombing of Germany escalates aiming to not only destroy the its military industrial and economic system but also relentlessly crush civilian morale Comprehensive and impeccably researched Holland brings a fresh eye to the ebb and flow of the conflict in this majestic saga of 20th century history Literary Review UK [Hitler And Spain](#) Robert H. Whealey, 2014-07-11 The Spanish Civil War begun in July 1936 was a preliminary round of World War II Hitler's and Mussolini's cooperation with General Franco resulted in the Axis agreement of October 1936 and the subsequent Pact of Steel of May 1939 immediately following the end of the Civil War This study presents comprehensive documentation of Hitler's use of the upheaval in Spain to strengthen the Third Reich diplomatically ideologically economically and militarily While the last great cause drew all eyes to Western Europe and divided the British and especially the French internally Hitler could pursue territorial gains in Eastern Europe This book based on little known German records and recently opened Spanish archives fills a major gap in our understanding of one of the 20th century's most significant conflicts Its comprehensive treatment of German Spanish relations from 1936 through 1939 bringing together diplomatic economic military and naval

aspects will be of great value to specialists in European diplomacy and the political economy of Nazi imperialism as well as to all students of the Spanish Civil War      **Thailand's Secret War** E. Bruce Reynolds,2005-01-06 This book is an absorbing account of secret operations and political intrigue in wartime Thailand During World War II Free Thai organisations co operated with Allied intelligence agencies in an effort to rescue their nation from the consequences of its 1941 alliance with Japan They largely succeeded despite internal differences and the conflicting interests and policies of their would be allies China Great Britain and the United States London s determination to punish Thailand placed the British Special Operations Executive SOE at a serious disadvantage in its rivalry with the American Office of Strategic Services OSS The US State Department in contrast strongly supported OSS operations in Thailand viewing them as a vehicle for promoting American political and economic influence in mainland Southeast Asia Declassification of the records of the OSS and the SOE permits full revelation of this complex story of heroic action and political intrigue      *Secret Lives of Great Filmmakers* Robert Schnakenberg,2014-02-25 Strange But True Tales of Cross Dressers Drug Addicts Foot Fetishists and Other Legendary Filmmakers With outrageous and uncensored profiles of everyone from D W Griffith to Quentin Tarantino *Secret Lives of Great Filmmakers* reveals the little known secrets of all your favorite directors Why did Charlie Chaplin refuse to bathe for weeks at a time Was Alfred Hitchcock really missing a belly button Is Walt Disney s corpse preserved in a state of suspended animation And why on earth did Francis Ford Coppola direct a 3 D pornographic movie The legends of the silver screen will never be the same      *Vatican Secret Diplomacy* Charles R. Gallagher,2008-06-10 In the corridors of the Vatican on the eve of World War II American Catholic priest Joseph Patrick Hurley found himself in the midst of secret diplomatic dealings and intense debate Hurley s deeply felt American patriotism and fixed ideas about confronting Nazism directly led to a mighty clash with Pope Pius XII It was 1939 the earliest days of Pius s papacy and controversy within the Vatican over policy toward Nazi Germany was already heated This groundbreaking book is both a biography of Joseph Hurley the first American to achieve the rank of nuncio or Vatican ambassador and an insider s view of the alleged silence of the pope on the Holocaust and Nazism Drawing on Hurley s unpublished archives the book documents critical debates in Pope Pius s Vatican secret U S Vatican dealings the influence of Detroit s flamboyant anti Semitic priest Charles E Coughlin and the controversial case of Croatia s Cardinal Stepinac The book also sheds light on the powerful connections between religion and politics in the twentieth century      **Mussolini's Propaganda Abroad** Manuela Williams,2006-11-22 This is the first major study in English of Fascist Italy s overseas propaganda Using rare Italian and French captured documents this is also the first investigation into the relationship between Mussolini s regime and Arab nationalist movements This new account covers propaganda and subversive activities engineered by the Italian government in the Mediterranean and the Middle East from 1935 until 1940 when Italy entered the war It assesses the nature of the challenge brought by the Fascist regime to British security and colonial interests in the region Fascist propaganda in particular in the Arab Middle East must be regarded as an

expression of Mussolini's foreign policy and his attempts to build an Italian empire that would stretch beyond the Mediterranean gaining control over the exits Gibraltar and Suez which were in the hands of the British and the French. The activities of individual agents and organizations are carefully reconstructed and analyzed to highlight the seemingly contradictory objectives of the Italian government on the one hand Rome was courting the Arab nationalist movements in Egypt and Palestine which were seeking the support of external forces capable of providing political financial and military backing needed to overthrow foreign rulers on the other the regime was promoting further territorial expansion in Africa. These aspects build into an excellent picture of this fascinating period of modern history. This book will be of great interest to all students and scholars of politics media Italian history and propaganda.

**Secrecy and Publicity in Votes and Debates**  
Jon Elster, 2015-06-26 In the spirit of Jeremy Bentham's Political Tactics this volume offers the first comprehensive discussion of the effects of secrecy and publicity on debates and votes in committees and assemblies. The contributors sociologists political scientists historians and legal scholars consider the micro technology of voting the devil is in the detail the historical relations between the secret ballot and universal suffrage the use and abolition of secret voting in parliamentary decisions and the sometimes perverse effects of the drive for greater openness and transparency in public affairs. The authors also discuss the normative questions of secret versus public voting in national elections and of optimal mixes of secrecy and publicity as well as the opportunities for strategic behavior created by different voting systems. Together with two previous volumes on Collective Wisdom Cambridge 2012 and Majority Decisions Cambridge 2014 the book sets a new standard for interdisciplinary work on collective decision making.
