Section 504 Student Issues Legal Requirements And Practical Recommendations:

Section 504, Student Issues, Legal Requirements, and Practical Recommendations Perry Alan Zirkel, 2005 Educators who do not work directly with Section 504 often confuse this provision of federal law on disability discrimination with special education under the Individuals with Disabilities Education Act IDEA Accurate and practical information can be hard to find In this short guide legal scholar Perry Zirkel sorts out the issues This book is designed to be a practical primer on the interrelated federal civil rights laws concerning disability discrimination namely Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act ADA of 1990 Although an unfunded mandate Section 504 applies to school districts because they receive federal funds ADA which uses the same definition of disability as Section 504 applies to public entities for example schools in addition to private places of public accommodation The definition of disability in IDEA differs from that used in Section 504 and ADA This book specifically explores student issues in K 12 public education as they are affected by the requirements of Section 504 and ADA In addressing student issues in K 12 public education the focus is 504 alone students meaning those students who are not protected under the narrower definition of disability contained in IDEA Students protected under IDEA have double coverage because they also are protected under Section 504 Handbook of Special Education James M.
