Eco-terrorism and Lawlessness on the National Forests United States. Congress. House. Committee on Resources. Subcommittee on Forests and Forest Health, 2002 **The National Security Court System** Glenn Sulmasy, 2009-08-06 Glenn Sulmasy proposes a third way solution that avoids the extremes of an unaccountable military court system on the one hand and funneling war on terror detainees into the domestic criminal court system on the other Instead he advocates creating a separate standing judicial system overseen by civilian judges that allows for habeas corpus appeals and which focuses exclusively on existing war on terror cases as well as the inevitable cases to come Jacket **U.S. Approaches to Global Security Challenges** Kristen Boon, Aziz Z. Huq, 2012 Terrorism Commentary on Security Documents is a series that provides primary source documents and expert commentary on the worldwide counter terrorism effort Among the documents collected are transcripts of Congressional testimony reports by such federal government bodies as the Congressional Research Service CRS and the Government Accountability Office GAO and case law covering issues related to terrorism Most volumes carry a single theme and inside each volume the documents appear within topic based categories The series also includes a subject index and other indices that guide the user through this complex area of the law Volume 124 U S Approaches to Global Security Challenges analyzes U S strategy toward security threats across the globe and identifies the beginnings of a shift away from a reliance on military power to the application of various types of civilian power which utilize a multinational approach The documents introduced by Douglas Lovelace include U S perspectives on the international security situation generally as well as reports on more specific topics such as the security situation in Afghanistan terrorism in East Africa the evolving role of NATO and cooperation between the U S and other governments such as the EU and China in the fight against terrorism Terrorism in the United States, 1998 *Expanding US Military Command in Africa* Tshepo Gwatiwa, Justin van der Merwe, 2020-12-23 This book discusses the systematic expansion of the United States Africa Command AFRICOM across the continent of Africa This book posits that AFRICOM expansion in Africa is part of a broader system of accumulation based on a government business media GBM complex Applying the concept at both structural and descriptive levels the GBM complex is a function of the synergy between the state s quest for power businesses need for expansion and the informational and hegemonic functions of media actors The United States GBM complex in Africa is supported and in some locations spearheaded by its military with dispossessing effects on local actors Drawing from African

case studies analytical accounts and empirical case studies this book explores AFRICOM's role within this broader strategy. The volume maps both the methods and the scope of this expansion as well as local resistance to this process and comprises perspectives from the five regions of Africa, key sub-regional organizations and voices from Africa's regional hegemons. Gulf Politics And Economics In A Changing World Michael C Hudson, Marion E Kirk, 2014-03-21. The wave of uprisings that has engulfed the Arab world since 2011 has impacted the Gulf significantly; however, much of the region appears to have remained unscathed. In Bahrain, the regime cracked down on protestors with the help of Saudi forces, and increasing Gulf tensions with Iran, political chaos in Yemen and rumblings among unemployed youth throughout the Gulf Cooperation Council (GCC) states all complicate the facade of Gulf stability. In addition, ties with the United States appear to be weakening; regional politics are varied and changing, particularly with the rise of India and China. Gulf governance is often oppressive, and GCC economies are even more tied to rentier practices of distribution to keep populations satisfied and in check. *Gulf Politics and Economics in a Changing World* addresses these aspects of political and economic life in the GCC. Iran and Iraq, in order to assess the present situation. It also offers analysis and predictions as to what the future of this important area of the greater Middle East may hold. The volume, which features contributions from some of the best scholars in the field of Gulf studies in the United States, the Middle East, Europe and Asia, provides an in-depth and critical look at the region.

'Is It Global War on Terrorism' or Global War over Terra Africana? Nkwazi Nkuzi Mhango, 2017-12-06. *Global War on Terrorism or Global War over Terra Africana: How Imperial Powers Seek to Occupy Africa Militarily* is a long, onerous academic voyage of the demystification and demythologization of the Global War on Terror, former US president George W. Bush and former UK premier Tony Blair conceived, envisaged and declared for their hidden personal and national interests. It is a hidden and untold story of the other side about the GWOT, which is but the GWOTA. Major arguments presented gyrate around the deconstruction and overhaul of the GWOT so that it can be equally formulated and fought by all nations for the interests of all, but not the interests of some as it currently is. Also, the book repudiates the pontification of the pontifex maximus of the GWOTA, who have always made *ex nihilo* while concealing their drives for perpetually exploiting poor countries. Terrorism is a world phenomenon everybody must fight, provided it is collectively agreed, decided and declared for the collective good and interests of the world, but not the interests of a few hegemonic countries that usurped the power of declaring who is a terrorist and who is not. Although terrorism is real, the manner it is fought is a little bit knotty. This tome acts as an eye opener and a wake up call for Africa to start interrogating and excavating the hidden truths about the GWOT, chiefly the way it was enacted, declared, presented and now fought with essentialist and controversialist *modus operandi* and rationale. Other major questions asked and answered are: Why exporting military and military hardware, guised as fighting terrorism, without underscoring the terror military incursion will *inter alia* cause to Africa, especially if truly the aim of the GWOT is to wage

war on terror why doesn't the West want to empower African armies Why did the US appoint itself to lead the war conceived and declared without meeting the requirements of the just war or international standards Why hasn't the world learned from Iraq and Libya whose governments were toppled under the facade of the GWOT Is it the GWOT or the GWOTA Technology Against Terrorism, 1992-06 **Handbook of US-Middle East Relations** Robert Looney, 2014-05-22 Divided into three sections the Handbook of US Middle East Relations provides a thorough and up to date overview of contemporary US Middle East relations in historical perspective With chapters contributed by leading experts in the field this Handbook will be of use to academics students and researchers in international relations policy analysts media professionals and government officials Part I Factors Affecting US Relations contains essays including Globalization Energy Security Wars and Revolution Peace Processes US Foreign Aid Policy to the Middle East and US Relations with Islamic Groups in the Middle East Part II Perceptions of US Relations contains essays on how US policies are viewed including The View from the Arab Street The View from Palestine The View from Pakistan and The View from Kurdistan Part III US Relations at the Country Level comprise essays detailing relations between the USA and countries and areas in the Middle East and North Africa including Saudi Arabia Egypt Israel Tunisia Lebanon Iran Iraq Libya Algeria and Bahrain A comprehensive index completes the volume

Linden, 2002 Terrorism sadly seems here to stay and to stay with a vengeance It turns out that the United States was not prepared for it and now must play catch up In doing so even agreement on how to define terrorism is in doubt and what to do about it seems beyond comprehension at the moment This volume presents a broad cross section of analyses of weaknesses and actions in the ongoing battle **Small States and Hegemonic Competition in Southeast Asia** Chih-Mao Tang, 2018-03-20 In the last few decades Southeast Asia has become generally more peaceful and more prosperous with progress in economic development regional cooperation and integration ASEAN in particular plays a leading role within and beyond the region in promoting multilateral cooperation in both security and economic matters All these developments progress amid increasing hegemonic competition between the US and China for regional dominance in the Asia Pacific region According to the realist viewpoint of international politics Southeast Asian states can do nothing but choose sides at the expense of international political autonomy in order to maintain their national interests Tang argues however that in fact there exists an opportunity for Southeast Asian states to simultaneously reinforce their military security economic development and international political autonomy in face of the US China hegemonic competition Drawing on the ideas of power transition theory and recent works of capitalist peace Tang argues that small states can exploit the competition between great powers to make economic gains and ensure security while maintaining their autonomy He outlines the necessity of cooperation among these small states and of economic liberalization

The US Middle East Policy In Post 9/11 Era Mukhtar Ahmad Bhat, 2020-01-01 Middle East the mother of civilisations is one of the very few regions of global politics which have remained the hot spots and orbits around which the global power game revolved uninterruptedly In beginning it was due to its geopolitical location as it is at the crossroads and a trade link between big Asian African and European countries turned the region into a trade hub Then the life changing discoveries of natural resources particularly of oil and gas in the region as well as the industrial revolution in other parts of the world increased strategic importance of the region at the global level The adoption of policy of securing control over the resources by global powers gave new shape to the political structure and configuration like disintegration of Ottoman Empire and creation of new political entities in the region In addition to that the break out of the First and Second World Wars creation of Israel as well as the emergence of the Cold War are such events that transformed the region into a battle ground for the global super powers which ended at the collapse of the USSR in 1992 and emergence of the US as the dominant global power No doubt after the emergence of uni polar global order the region saw a phase of peace and end of the war gaming on the part of the big powers but the US continued to dominate the regional political structure During the same period the region also experienced one of the toughest periods of inter state wars first the decade long Iraq Iran war and then the Iraqi invasion of Kuwait which added more fuel to the already increasing division and hatred among the regional countries
